Blinded By The Lies Leaders Guide:

Leader's Guide for Group Study of Blinded by the Lies Kathryn Siska, 1989 **Leadership Blind Spots and What To Do About Them** Karen Blakeley, 2007-06-29 Knowledge is built from personal experience and coloured by our needs and values. It follows that all knowledge is personal and incomplete. We all suffer from blind spots. But when leaders have them, it matters. To guide people on a journey of continuous learning, understanding, and adapting to events as they occur, leaders must overcome their own blind spots and those of their organization. Any leader who implements the practices outlined in this book will immediately improve their ability to perform in today's competitive global environment. Karen Blakeley provides in-depth analysis of how leaders learn on the job and what gets in the way. Most importantly, she offers a systematic approach for accelerating leaders' learning capacity and maximising their performance potential. The Leader's Guide to Emotional Agility (Emotional Intelligence) Kerrie Fleming, 2015-12-11 Takes a new approach to emotional intelligence in action and translates it into critical skills that every leader needs to get the most out of themselves and their people. A Complete View of Puseyism Robert Weaver, 1843

Blind to Betrayal Jennifer Freyd, Pamela Birrell, 2013-02-14 One of the world's top experts on betrayal looks at why we often can't see it right in front of our faces. If the cover up is worse than the crime, blindness to betrayal can be worse than the betrayal itself. Whether the betrayer is an unfaithful spouse, an abusive authority figure, an unfair boss, or a corrupt institution, we often refuse to see the truth in order to protect ourselves. This book explores the fascinating phenomenon of how and why we ignore or deny betrayal and what we can gain by transforming betrayal blindness into insight. Explains the psychological phenomenon of betrayal blindness in which we implicitly choose unawareness in order to avoid the risk of seeing treachery or injustice. Based on the authors' substantial original research and clinical experience carried out over the last decade as well as their own story of confronting betrayal. Filled with fascinating case studies involving unfaithful spouses, abusive authority figures, and corrupt institutions to name a few. In a remarkable collaboration of science and clinical perspectives, Jennifer Freyd, one of the world's top experts on betrayal, and child abuse teams up with Pamela Birrell, a psychotherapist and educator with 25 years of experience.

Blind People Shlomo Deshen, 2012-02-01 *Blind People* approaches disability from a fresh perspective: people with an unusual body are conceived of relativistically as a variant of humanity, much the way anthropology approaches people of different culture. While deeply empathic to its subject matter, *Blind People* raises questions that anthropologists ask routinely but which are commonly avoided in everyday life because they touch on sensitive matters. Based on fieldwork in Israel, the book constitutes an ethnography of blind Israelis. It starts by focusing on intimate issues of the management of the sightless body, goes on to discuss the role of the blind person in the domestic setting, and moves to issues of how the blind person strives to attain material requirements. Finally, the book relates the way blind people cope with problems of associating with both blind and sighted people in arenas of leisure activity and public affairs. Deshen's book aims to present a truthful, dignified, fully human depiction in the tradition of socio-cultural anthropology.
