enemy territory or water survived only after overcoming extraordinary danger and hardship Their experiences often remained untold not just for the duration of the war but for many years In this book Bryn Evans has gathered together a wealth of unpublished stories from airmen of many nationalities be they British Commonwealth or American Some involve avoiding or escaping from capture others surviving against all the odds braving extreme elements and dodging death from wounds drowning or starvation Importantly the accounts of those who survived the battle in the skies cheating the enemy and the grim reaper give us a chilling insight into the fate of the many thousands of brave young men who were not so fortunate The result is an inspiring and gripping read which bears testimony to human courage and resilience Force Quarterly and Commonwealth Air Forces Journal ,1942 Despatch on War Operations, 23rd February, **1942, to 8th May, 1945** Sir Arthur Travers Harris, 1995 This document of historical significance is now available to the general public for the first time The RAF's Youngest Bomber Pilot of WW2 Graham Waterton, 2024-08-30 Having left his grammar school just before his 16th birthday Brian Slade falsified his age to pursue his dream of becoming a pilot Within a few days of his 17th birthday he was awarded his wings It was the start of this teenager's remarkable wartime career Soon after being awarded his pilot s brevet Brian was posted to his first squadron Flying the venerable Vickers Wellington he found himself experimenting with early target marking techniques It was also there that Brian gained the nickname The Boy Slade Though Brian's journey through the wartime RAF mirrored the experiences of tens of thousands of young men what was different if not unique was the fact before he had turned 18 which was the minimum age to begin aircrew training Brian had already completed thirty four operations more than was needed for a tour This tally included the three 1 000 bomber raids against Cologne Essen and Bremen He was awarded a Distinguished Flying Cross for nursing his badly damaged Wellington which sustained flak and night fighter damage home after a raid on Bremen Undaunted Brian soon after volunteered for his second tour of operations It was at this stage that he joined the Lancaster equipped 83 Squadron in the newly formed 8 Group becoming an experienced Pathfinder skipper It was a role in which he marked targets in the Battle of the Ruhr the bombing of Hamburg Operation Gomorrah and the Peenem nde raid The RAF s Youngest Bomber Pilot of WW2 told by his nephew a former officer in the British Army details all of Brian s fifty nine missions and captures his compelling progress with Bomber Command alongside the technological advances in aircraft pathfinder strategy and tactics Sadly Brian s Lancaster was shot down over Berlin in August 1943 The details of its loss remained shrouded in mystery until the puzzle of his aircraft's demise was eventually solved by tracing the family of the only survivor. The relent less dangers not just in operations but also in training and the continuous loss of life are drawn into sharp focus But on account of his age Brian s story is unique There may have never been nor will ever be an RAF pilot of 19 years old with his flying and operational experience Complemented with a collection of previously unpublished photographs The RAF s Youngest Bomber Pilot of WW2 is one of the Second World War s most amazing tales Germany and the Second World War ,1990 Volume VII of

the Germany and the Second World War series looks at Germany and her Japanese ally on the defensive after the tide of war turned in 1943 An exhaustive study of the air war over the Reich and the Luftwaffe's growing impotence is followed by an account of the invasion of occupied France and the Allies advance to Germany's borders A final section examines Japan's defeat and capitulation and the creation of a new order in the Far East
