Boney Fuller:

"Boney" Fuller Anthony John Trythall, 1989 **Command in War** Martin Van Creveld, 1985 Many books have been written about strategy tactics and great commanders This is the first book to deal exclusively with the nature of command itself and to trace its development over two thousand years from ancient Greece to Vietnam It treats historically the whole variety of problems involved in commanding armies including staff organization and administration communications methods and technologies weaponry and logistics And it analyzes the relationship between these problems and military strategy In vivid descriptions of key battles and campaigns among others Napoleon at Jena Moltke's K nigr tz campaign the Arab Israeli war of 1973 and the Americans in Vietnam Martin van Creveld focuses on the means of command and shows how those means worked in practice He finds that technological advances such as the railroad breech loading rifles the telegraph and later the radio tanks and helicopters all brought commanders not only new tactical possibilities but also new limitations Although vast changes have occurred in military thinking and technology the one constant has been an endless search for certainty certainty about the state and intentions of the enemy's forces certainty about the manifold factors that together constitute the environment in which war is fought from the weather and terrain to radioactivity and the presence of chemical warfare agents and certainty about the state intentions and activities of one's own forces The book concludes that progress in command has usually been achieved less by employing more advanced technologies than by finding ways to transcend the limitations of existing ones *Strategy and the Social Sciences* John Gooch, Amos Perlmutter, 2005-06-28 This title available in eBook format Click here for more information Visit our eBookstore at www.ebookstore.tandf.co.uk **Liddell Hart and the Weight of History** John J. Mearsheimer, 2010 This troubling book offers a striking illustration of how history can be used and abused how a gifted individual can create their own self serving version of the past *Parameters*, 1988 *Great Warrior Leaders/thinkers*, 1989 **Selected Papers from the 1992 (59th Annual) Meeting of the Society for Military History Hosted by the Command and Staff College of the Marine Corps University** Society for Military History (U.S.). Meeting, 1994 *World War II in Europe* David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Corps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects

and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps

Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 1986 This text discusses Machiavelli Maurice of Nassau Gustavus Adolphus Raimondo Montecuccoli Vauban Frederick the Great Guibert Bulow Napoleon Jomini Clausewitz Adam Smith Alexander Hamilton Friedrich List Engels Marx Moltke Schlieffen Delbruck Bugeaud Gallieni Lyautey Alfred Thayer Mahan Liddell Hart De Gaulle and other military strategists

A New Excalibur A. J. Smithers, 1986-01-01 The story of the inventors engineers soldiers and politicians behind the emergence of the armored fighting vehicle The birth and infancy of the tank had an enormous number of technical problems to be solved but the issues with its construction paled in comparison to the endless squabbles among the people involved This fascinating study of the vehicle which was born out of the stalemate of the Western Front in the First World War looks at all the obstacles that had to be overcome As is inevitable in almost any work of history set in the first half of the century the figure of Winston Churchill looms large but the role that he played in this instance is remarkable even by his standard when it is remembered that at the crucial time he was First Lord of the Admiralty and theoretically had nothing to do with warfare on land Foremost among the leading actors in the drama are Sir Eustace Tennyson d'Eyncourt Sir Ernest Swinton Bertie Stern Sir William Tritton and Walter Gordon Wilson This is the first exhaustive study of the men behind the earliest tanks The story of their furious quarrels and the machines they produced combine to make a remarkable and compelling study
