**Family theme parks, happiness and children's consumption** David Cardell,2015-09-24 This book provides an ethnographic contribution to research on children s consumption family life and happiness Various and shifting notions of happiness are explored as well as conditions for and challenges to happiness through an analysis of video recorded interviews and mobile ethnography conducted in two of the most popular theme parks in Sweden Initially the study outlines how previous research has conceptualized happiness in association with time and place in a rather static way Based on a treatise of notions of happiness in philosophy and the social sciences there is a turn in this thesis towards practice It generates fundamental knowledge about the complexity of happiness By employing this approach it is possible to highlight how happiness is enacted as part of and in relation to ideals of family life time childhood money consumption experiences and material things As we explore the practices of children and their families we discover that shifting meanings of happiness are located in contemporary culture where emotions and consumption are of central importance The approach is interdisciplinary and draws on theoretical and methodological contributions in sociology anthropology and Science and Technology Studies STS Notions of meshwork and enactment become important for the

exploration of happiness as a complex and changing matter which productively involves social relations and material things Throughout the thesis there is a dialogue with previous research on happiness consumption and childhood which highlights the importance of exploring messy practices in movement It is argued that explorations of practice contribute to a critical understanding of how happiness and contemporary ideals of childhood can be approached through consumption and as part of citizenship in a consumer society where happiness is of central importance Denna avhandling utg r ett etnografiskt bidrag till forskning om barns konsumtion familjeliv och lycka Genom en analys av videoinspelade intervjuer samt familjebes k till tv av Sveriges mest v lbes kta temaparker utforskas skiftande betydelser av lycka liksom dess f ruts ttningar och utmaningar Tidigare temaparks forskning har generellt tagit lyckans existens f r given Utifr n en inledande diskussion om bland annat olika filosofiska och samh llsvetenskapliga lyckoteorier argumenterar avhandlingen f r att studier av praktik tillf r ny och grundl ggande kunskap om lyckans komplexa sammans ttningar Avhandlingen visar d rigenom att lycka iscens tts som en del av och i f rh llande till ideal om familjeliv tid barndom pengar konsumtion upplevelser och materiella ting Genom att fokusera p barn och deras familjers praktiker lokaliseras lyckans skiftande betydelser i en samtidskultur d r emotioner och konsumtion r centrala Avhandlingens ansats r tv rvetenskaplig och h mntar teoretisk och metodologisk inspiration fr n sociologi antropologi samt teknik och vetenskapsstudier STS Genom denna ansats synligg rs sammanfl tningar av sociala relationer och materiella ting som produktiva i iscens ttandet av lycka Genom en dialog mellan empiriska beskrivningar och forskning om lycka konsumtion och barndom belyser avhandlingen n dv ndigheten av att synligg ra och utforska r riga och r rliga praktiker Det bidrar till en kritisk f rst else av praktik som kan f r ndra hur vi n rmar oss lycka och samtida barndomsideal som konsumenter och medborgare i ett lyckostr vande konsumtionssamh lle
