John Stevens

Of Gradual Sayings Vol 1:

The World Religions Reader Gwilym Beckerlegge, 2001 Gathers together material on six of the world's most influential faiths with readings drawn from a broad range of historical and contemporary sources Faith & Philosophy of A Sourcebook in Indian Philosophy Sarvepalli Radhakrishnan, Charles A. **Buddhism** V. S. Bhaskar, 2009 Moore, 2014-07-17 A comprehensive and authoritative anthology of Indian philosophy from antiquity to the twentieth century The Sourcebook of Indian Philosophy offers a comprehensive and authoritative introduction to the philosophical wisdom of ancient and modern India Edited by two leading authorities Indian philosopher statesman Sarvepalli Radhakrishnan and American philosopher Charles Moore this compact anthology presents the chief riches of more than 3 000 years of Indian philosophical thought the ancient Vedas the Upanisads the Bhagavad gita and other epics the works of the heterodox and orthodox systems including Jainism Buddhism Yoga and Vedanta and modern writings Featuring substantial selections from these key texts and systems brief introductions to each selection and a general introduction that gives a short history and outline of Indian philosophy this anthology offers readers a thorough survey of India's great and lasting contribution to world thought For the full contents please see below Preface General Introduction The Vedic Period 1 The Vedas 2 The Upanisads The Epic Period 3 The Bhagavad gita 4 The Mahabharata 5 The Laws of Manu 6 Kautilya s Artha sastra The Heterodox Systems 7 Carvaka 8 Jainism 9 Buddhism The Orthodox Systems 10 Nyaya 11 Vaisesika 12 Samkhya 13 Yoga 14 Purva Mimamsa 15 Vedanta Samkara Ramanuja and Madhva Contemporary Thought 16 Sri Aurobindo 17 Sarvepalli Radhakrishnan Appendices including a pronunciation guide Bibliography Index Understanding Buddhism Nolan Pliny Jacobson, 2010-03-19 Jacobson presents Buddhism unencumbered by Western categories and concepts free from the cognitive bias from the concept oriented definition minded preoccupations inherited from the ancient Greeks It is an interpretation of the central ideas that have characterized all forms of Buddhism for 25 centuries Absolute Delusion, Perfect Buddhahood Jamie Hubbard, 2001-01-01 The San chieh Three Levels was a popular and influential Chinese Buddhist movement during the Sui and T ang periods counting powerful statesmen imperial princes and even an empress Empress Wu among its patrons In spite or perhaps because of its proximity to power the San chieh movement ran afoul of the authorities and its teaching and texts were officially proscribed numerous times over a several hundred year history This study of the San chieh movement uses manuscripts discovered at Tun huang to examine the doctrine and institutional practices of this movement in the larger context of Mahayana doctrine and practice The Concept of Mind in Hindu Tantra Gavin Flood, 2024-11-18 This book presents an account of the concept of mind in Hindu Tantra through a study of religious and philosophical texts in the medieval period Offering an understanding on how the mind is conceptualized both as that which keeps a person bound to the cycle of reincarnation and as having transformative potential in allowing a person to achieve liberation or salvation this book examines mostly previously untranslated sources It shows how there are different

understandings of the mind that relate to different ideas of redemption The main tantric tradition the aiva Siddh nta adopts a model of mind from Yoga in which the wandering mind keeps us trapped whereas the nondualist aiva tradition sometimes called Kashmir aivism sees the mind as inherently pure and free The book traces a history of the concept of mind from early sources especially Buddhism through to the tantric medieval period and ending with the eighteenth century The author shows how the concept changes and what is retained A comparison of the tantric ideas of mind with those of some European philosophy notably Descartes dualism and German idealism s non dualism sharpens the concept of mind in the tantric tradition A historical and philosophical study of key ideas in the tantric traditions this book will be of interest to researchers in the field of Religious Studies Asian Religion Hindu Studies Indian philosophy and comparative philosophy and Development of Early Indian Contemplative Practices Edward Fitzpatrick Crangle,1994 Philosophical Approaches to Demonology Benjamin W. McCraw, Robert Arp, 2017-03-31 Cover Title Copyright Contents Introduction PART I Demons in Christianity 1 Augustine and Aquinas on the Demonic 2 The Demonic Body Demonic Ontology and the Domicile of the Demons in Apuleius and Augustine 3 Christian Demonology A New Philosophical Perspective 4 Women as the Devil s Gateway A Feminist Critique of Christian Demonology PART II Non Christian Conceptions of Demons 5 Socrates s Demonic Sign Daimonion S meion 6 The Ecological Demon Silent Running and Interstellar 7 Demons of Seduction in Early Jewish Literature 8 The Jinn and the Shay t n 9 M ra Dev and Demon PART III Demons and Epistemological Issues 10 Justified Belief in the Existence of Demons Is Impossible 11 Esoteric Spirituality Devils and Demons Introducing the Gnostic Vision of Modernity 12 Re Enchantment and Contemporary Demonology PART IV Demons in Moral and Social Philosophy 13 Whedon's Demons The Immorality of Moral Clarity and the Ethics of Moral Complexity 14 Modern Representations of Evil Kant Arendt and the Devil in Goethe's Faust and Bulgakov's The Master and Margarita 15 The Politics of Possession Reading King James's Daemonologie through the Lens of Mimetic Realism Notes on Contributors Bibliography Index **Lust for Enlightenment** John Stevens, 1990-12-08 Over the centuries Buddhism has responded to sexuality in a variety of fascinating ways sometimes suppressing the sexual urge sometimes sublimating it sometimes cultivating it and on the highest levels transforming it This book reveals how Buddhists beginning with Shakyamuni Buddha himself relate to the inner fire that drives humankind Included are chapters on the Buddha's love life before his enlightenment and his later relationships with women the tantric approach to sex among Buddhists of ancient India Tibet China and Japan Zen in the art of love and a positive discussion of women and Buddhism Innovative Buddhist Women Karma Lekshe Tsomo, 2013-09-05 Combines the voices of scholars and practitioners in analysing Buddhist women s history 26 articles document the lives of women who have set in motion changes within Buddhist societies with analyses of issues such as gender ethnicity authority and class that affect the lives of women in traditional Buddhist cultures and increasingly the west The Concept of Bodhicitta in Śāntideva's Bodhicaryāvatāra Francis Brassard, 2012-02-16 This book explores an important concept within the Buddhist Mah y na tradition bodhicitta This

term appears frequently in Sanskrit literature relating to the spiritual practices of the bodhisattva in Mah y na Buddhism and has been variously translated as thought of enlightenment or desire of enlightenment Francis Brassard offers a contextual analysis of bodhicitta based on the presuppositions underlying the spiritual practice of the bodhisattva Since the understanding that emerges involves how one ought to view the process of spiritual transformation this work contributes to Buddhist psychology and soteriology in particular and to comparative religions in general The book surveys the various interpretations of the concept of bodhicitta analyzes its possible functions in the context of the spiritual path of the aspirant to enlightenment and discusses an understanding of bodhicitta in the context of the ntideva's Bodhicary vat ra **Women of India** Swami Madhavananda, This excellent volume containing twenty four valuable articles from the pen of eminent writers and a scholarly introduction by Dr S Radhakrishnan is an attempt the first of its kind to survey the position and prospect of women in Indian society during the last five thousand years through an illustrative study of the lives and achievements of the more outstanding among them A study of this book will surely lead to a proper understanding of the subject and a correct assessment of Indian culture Published by Advaita Ashrama a publication house of Ramakrishna Math The Buddha's Footprint Johan Elverskog, 2020-02-21 A corrective to the contemporary idea that Belur Math India Buddhism has always been an environmentally friendly religion In the current popular imagination Buddhism is often understood to be a religion intrinsically concerned with the environment The Dharma the name given to Buddhist teachings by Buddhists states that all things are interconnected Therefore Buddhists are perceived as extending compassion beyond people and animals to include plants and the earth itself out of a concern for the total living environment In The Buddha's Footprint Johan Elverskog contends that only by jettisoning this contemporary image of Buddhism as a purely ascetic and apolitical tradition of contemplation can we see the true nature of the Dharma According to Elverskog Buddhism is in fact an expansive religious and political system premised on generating wealth through the exploitation of natural resources Elverskog surveys the expansion of Buddhism across Asia in the period between 500 BCE and 1500 CE when Buddhist institutions were built from Iran and Azerbaijan in the west to Kazakhstan and Siberia in the north Japan in the east and Sri Lanka and Indonesia in the south He examines the prosperity theology at the heart of the Dharma that declared riches to be a sign of good karma and the means by which spritiual status could be elevated through donations bequeathed to Buddhist institutions He demonstrates how this scriptural tradition propelled Buddhists to seek wealth and power across Asia and to exploit both the people and the environment Elverskog shows the ways in which Buddhist expansion not only entailed the displacement of local gods and myths with those of the Dharma as was the case with Christianity and Islam but also involved fundamentally transforming earlier social and political structures and networks of economic exchange The Buddha s Footprint argues that the institutionalization of the Dharma was intimately connected to agricultural expansion resource extraction deforestation urbanization and the monumentalization of Buddhism itself A Source Book in Indian

Philosophy Sarvepalli Radhakrishnan, Charles Alexander Moore, 1967 Dreamworlds of Shamanism and Tibetan Buddhism Angela Sumegi, 2008-05-08 Dreamworlds of Shamanism and Tibetan Buddhism explores the fertile interaction of Buddhism shamanism and Tibetan culture with the subject of dreaming In Tibetan Buddhist literature there are numerous examples of statements that express the value of dreams as a vehicle of authentic spiritual knowledge and at the same time dismiss dreams as the ultra illusions of an illusory world Examining the third place from the perspective of shamanism and Buddhism Angela Sumegi provides a fresh look at the contradictory attitudes toward dreams in Tibetan culture Sumegi questions the longstanding interpretation that views this dichotomy as a difference between popular and elite religion and theorizes that a better explanation of the ambiguous position of dreams can be gained through attention to the spiritual dynamics at play between Buddhism and an indigenous shamanic presence By exploring the themes of conflict and resolution that coalesce in the Tibetan experience and examining dreams as a site of dialogue between shamanism and Buddhism this book provides an alternate model for understanding dreams in Tibetan Buddhism The Lotus and the Spinning Wheel Marie Beuzeville Byles, 2025-07-31 First published in 1963 The Lotus and the Spinning Wheel tells the story of India s two great sons the Buddha and the Mahatma Both were the teachers their age and country needed and this book goes beyond the merits of their teaching The reader is invited to come with the author firstly through the land the Buddha trod Through the present day landscape the book tries to bring to life again the people who lived in these places 2500 years ago and listen to the Buddha teaching the way to deliverance from suffering Through the lesser known stories of his ministerial life the book seeks to discover the Buddha his disciples knew not the Buddha of legend nor of learned abstract discourses but the human being who lived and taught Then on the long train journey from northern India to Wardha near Gandhi s ashram the book reviews the main events of Gandhi's life connecting them where possible with the teaching of the Buddha This fascinating work will be of interest to students of Asian studies Buddhism Gandhi studies and Indian philosophy Religious Motivation and the Origins of Buddhism Torkel Brekke, 2005-08-10 Why did people in North India from the 5th century BC choose to leave the world and join the sect of the Buddha This is the first book to apply the insights of social psychology in order to understand the religious motivation of the people who constituted the early Buddhist community It also addresses the more general and theoretically controversial question of how world religions come into being by focusing on the conversion process of the Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies Thich Duc individual believer Thien, Thich Nhat Tu, 2019-04-16 EDITORS INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation These disruptive changes mean that it is now arguable as to whether we still live in a world of justice egality peace and prosperity The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book In this light we place great emphasis on understanding Buddhist

teaching in dealing with this matter We argue that any investigation of the changing character and context of the present time needs to take account of the Buddhist philosophy We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion In doing so we attempt to clarify the nature of the Buddhist approach It may be more productively understood as the result of a complex contested and fragile set of arrangements which in this book we term as approach We do not imply that the frameworks based on the Buddhist teachings are fully fixed and agreed by everybody Rather it would refer to a set of arrangements that need to be further discussed Given the above this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families Healthcare and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc Ha Nam Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019 The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field although this volume reflects this richness and diversity Treating the Buddha teachings as a basic theoretical reconstruction we examine the relationships between the societies and Buddhist responsibilities We combine analyses of the conflicts trends and dynamics affecting future development with more focused studies on a range of policy areas migration education leadership climate change etc Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development Practically Religious Ian Reader, George J. Tanabe, Jr., 1998-10-01 Praying for practical benefits genze riyaku is a common religious activity in Japan Despite its widespread nature and the vast numbers of people who pray and purchase amulets and talismans for everything from traffic safety and education success to business prosperity and protection from disease the practice has been virtually ignored in academic studies or relegated to the margins as a uh product of superstition or an aberration from the true dynamics of religion Basing their work on a fusion of textual ethnographic historical and contemporary studies the authors of this volume demonstrate the fallacy of such views showing that far from being marginal the concepts and practices surrounding genze rivaku lie at the very heart of the Iapanese religious world They thrive not only as popular religious expression but are supported by the doctrinal structures of most Buddhist sects are ordained in religious scriptures and are promoted by monastic training centers shrines and temples Benefits are both sought and bought and the authors discuss the economic and commercial aspects of how and why institutions promote practical benefits They draw attention to the dynamism and flexibility in the religious marketplace where new products are offered in response to changing needs Intertwined in these economic activities and motivations are the truth claims that underpin and justify the promotion and practice of benefits The authors also examine the business of guidebooks which combine travel information with religious advice including humorous and distinctive forms of prayer for the protection against embarrassing physical problems and sexual diseases Written in a direct and engaging style Practically

Religious will appeal to a wide range of readers and will be especially valuable to those interested in religion anthropology Buddhist studies sociology and Japanese studies Communication Across Cultures Chibueze C. Udeani, 2008

Reviewing Of Gradual Sayings Vol 1: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
