Spirit is a companion book to the tarot deck painted by Joyce Eakins and is meant to pick up where other tarots leave off It is here to aid serious students on the esoteric path of the Western Mysteries Its reason for being is to provide assistance for inner awakening and continued spiritual practice Centered on the Qabbalistic Tree of Life this symbolism clearly explores the Minor Arcana as a representation of the four components of life spirit emotion intellect and body while it reveals the Major Arcana to be the keys to our emotional response patterns to the symbolic universe in which we live Includes seven monthly meditations individual readings and layouts Every concept presented in the book is essential in its context Nothing has been reduced neither has it been convoluted Every effort has been made to keep the interpretations clearly understandable Both

this book and the deck are meant to be referred to again and again As the knowledge of the student deepens the texts will take on greater meaning

The Dawning of the Golden Age of Aquarius Albert Amao Ph. D.,2012 We are at the threshold of a transitional period from the Age of Pisces to the Age of Aquarius What should we expect from this coming New Era What are its signs What is the fate of human spirituality What will the new concepts of God and of religion be This book attempts to answer these questions based on well researched sources complemented and endorsed by cosmology archeology psychology religion Near East studies and mythology among other scientific disciplines The book also intends to clarify the confusion created by some Protestant religious leaders and sensationalistic writers who have misinterpreted the signs of the transitional period as the end of the world The truth is that we are witnessing a shift of ages that is the slow evolution from the Piscean Era to the commencing of a new worldwide social order a new chapter in human history called the Aquarian dispensation The huge conspiracy propounded by false prophets and some New Age writers whether overtly or covertly feeds the fear and anxiety of ordinary people with unfounded apocalyptic propaganda This book attempts to give the reader an accurate perspective regarding the planetary transformations that are taking place it offers hope and inspiration as we approach the Golden Age

Maps of Consciousness Ralph Metzner,2023-09-19 A classic guide to expanding perception and consciousness development Explores six ancient yet timeless systems for exploring the mind the I Ching Tantra Tarot astrology alchemy and the yoga philosophy of Actualism Shares exercises from each system and illuminates the key stages in the journey of consciousness development Shows how each of these disciplines can help you become a fully aware and conscious participant in your own spiritual evolution In this highly acclaimed classic psychedelic elder Ralph Metzner presents a guide to six ancient systems once known only to the initiated few to expand awareness and free your consciousness from exterior limitations and cultural conditioning Metzner begins with the I Ching revered by the Chinese as the oldest and wisest book in the world He explains how it reveals change as the evolutionary constant and offers a hands on method of divination and guidance He explores the Hindu and Buddhist Tantras of medieval India ancient practices celebrating the union of male and female energies that transmute ordinary sense experience into ecstatic ritual worship He examines the Tarot revealing how the cards act as culture transcending mirrors

bringing us through worlds of darkness and light in a complex journey He looks at the practice of alchemy explaining how it is a psychic chemistry of inner union through which we can transform planetary and cosmic energies He explores the esoteric aspects of astrology revealing the rhythmic cycles of the planets and how their phases may be experienced in terms of motion and emotion He then examines in depth the yoga philosophy of Actualism centered on the techniques of Agni Yoga which allow you to use your living inner fire to illuminate the shadow parts of consciousness and burn out that which obstructs the free flow of energy With a new foreword by UC Berkeley professor of neurobiology David E Presti and featuring all of the original diagrams this edition of Metzner s classic text shows how each of these disciplines can help the modern individual become a fully aware and conscious participant in their own spiritual evolution **A Brief Guide to Secret**

Religions David V. Barrett,2011-05-26 This wide ranging book explores the diversity of esoteric and occult beliefs Neo Paganism is one of the fastest growing new religions in the western world where witchcraft or Wicca Druidry and Urban Shamanism are thriving Alongside this there has been an upsurge in New Age ideas of an even wider variety including astrology Tarot numerology and many others And then there are members of various schools of occult science practising High Magic Why this new interest in old beliefs Why are millions of educated people today abandoning both the established religion of their parents and 21st century scientific rationalism and turning to magic and esoteric teachings In their search for spirituality those who follow these paths claim to be applying ancient wisdom to the modern world The Brief History of Secret Religions a companion book to The Brief History of Secret Societies looks at the history and variety of these esoteric movements where they came from and what they tell us about the world today Praise for The New Believers an excellent guide to fringe religions that juxtaposes respectable movements and those conventionally dismissed as cults The Telegraph no nonsense comprehensive survey packed with non judgmental information about the beliefs aims and activities of such movements Daily Mail **Awaken the Power Within** Albert Amai,2018-06-05 The 12 billion self help industry is under constant attack for pedaling false miracles to duped believers But sociologist Albert Amai demonstrates that Americans eagerly support self help books seminars and programs because under the right conditions these things work Sociologist Albert Amai analyzes the accuracy of self help and positive thinking claims in this groundbreaking and wholly unexpected exploration of what works what doesn t and why Regarding my personal experience Amai writes I can testify that positive thinking and positive action have worked wonderfully for me Born in a poor Latin American country into a very impoverished family with both parents practically illiterate I was the oldest of five children I started working when I was six years old shining shoes and selling newspapers to help my family Nobody then would have believed that I would be able to finish high school Nevertheless I was able to do it going to night school which allowed me to be admitted at the San Marcos University in Lima to get my Ph D in sociology All these things were possible because when I was teenager I had access to New Thought or positive thinking philosophy Contrary to the critics who blithely dismiss self help methods or the New Age gurus who sell

it them as miracles Amao writing with sobriety scholarship and drawing on deep personal experience explores the conditions under which self help is authentic **Black Communication** Jack Lee Daniel,1974 Vibratory Powers Of Qabalah Ann Davies,2021-02-12 There are 78 lessons in this book In every age and in every country there are always those few individuals who seek more satisfying answers to the great questions of Life than they can find in their local churches and temples or through science If their quest is sincere and they persist they will eventually be drawn into contact with one of the world s Mystery Schools where they may be instructed and trained There have always been centers called Mystery Schools responding to the cry for understanding from aspirants throughout the ages Today such close secrecy is no longer necessary Much may now be given out openly which formerly could be imparted only in private and by word of mouth The greatest secrets however can never be transmitted by written or spoken word That secrecy which guards the deepest esoteric knowledge is not imposed by the custodians of Ageless Wisdom but by human ignorance It is the kind of secrecy which shrouds the work of great scientists such as Bor Curie Einstein Edison and others This secrecy does not result from any deliberate withholding but rather from a mass ignorance and consequent inability to understand the concepts and reasoning required by advanced science **The Game of Tarot** Michael Dummett,Sylvia Mann,1980 **Tarot of the Witches Book** Stuart R. Kaplan,1982 AN OUTSTANDING ARCHIVE OF THE TAROT IN THREE VOLUMES The encyclopedias are illustrated in black and white and color and include more than 15 000 cards from tarot and tarock decks dating from the 15th century to the present Each volume features different cards and decks and the combined annotated bibliography contains more than 3 300 titles from the 14th century to the present **The Publishers' Trade List Annual** R. R. Bowker LLC,1972 *The Big Book of Numerology* Shirley Blackwell Lawrence,2019-08-01 This is unlike any other book on numerology because it reveals the science behind this ancient mystical art and explains why it works It is also the first book to present a thorough explanation of the numbers and letters starting with their origins the how and why of their design and exploring their nature in names and language In addition it introduces the Inner Guidance Number a powerful tool for accessing our inner knowing Note This is a repackaging of The Secret Science of Numerology The Hidden Meaning of Numbers and Letters by Shirley Lawrence New Page 2001 ISBN 9781564145291 which has until recently only been available via Lightning Source **God at Large** Chad Walsh,1971
