Of Victorian Churches:

The Victorian Church Chris Brooks, Andrew Saint, 1995 This is a reassessment of the phenomenon of church architecture in the 19th century It presents a range of interpretations that approach Victorian churches as products of institutional needs socio cultural developments and economic forces *Book of Victorian Churches* James Stevens Curl, 1995 In this book church architecture of the period is clearly placed in its complex social and denominational setting It is fully illustrated with a wide range of photographs both old and new some of which were especially commissioned for this book **The Victorian Churches of Sussex** D. Robert Elleray, 1981 English Heritage Book of Victorian Churches James Stevens Curl, 1995 In this book church architecture of the period is clearly placed in its complex social and denominational setting It is fully illustrated with a wide range of photographs both old and new some of which were especially commissioned for this book *The Faber Guide to Victorian Churches* Peter Howell, 1989-01-01 A guide to over 600 churches in England Scotland and Wales illustrating the various architectural styles used during the Victorian era **The Victorian Churches of Kent** Roger Homan, 1984 *The Victorian Church in York* Edward Royle, 1983 **The Victorian Church in Decline** Peter Marsh, 2016-06-17 First published in 1969 this book studies the years of decline in the Victorian Church between 1868 and 1882 It centres on the Archbishop Tait who was paradoxically the most powerful Archbishop of Canterbury since the seventeenth century and follows the policies he pursued the high church opposition it provoked and the involvement of Parliament This book will be of interest to students of history and religion of the Victorian era *A History of Victorian Churches: Their Origins, Their History & Their Architecture* Miles Lewis, **Unlocking the Church** William Whyte, William (Professor of Social and Architectural History and Vice President of St John's College Whyte, Oxford.), 2020-01-09 The Victorians built tens of thousands of churches in the hundred years between 1800 and 1900 Wherever you might be in the English speaking world you will be close to a Victorian built or remodelled ecclesiastical building Contemporary experience of church buildings is almost entirely down to the zeal of Victorians such as John Henry Newman Henry Wilberforce and Augustus Pugin and their ideas about the role of architecture in our spiritual life and well being In *Unlocking the Church* William Whyte explores a forgotten revolution in social and architectural history and in the history of the Church He details the architectural and theological debates of the day explaining how the Tractarians of Oxford and the Ecclesiologists of Cambridge were embroiled in the aesthetics of architecture and how the Victorians profoundly changed the ways in which buildings were understood and experienced No longer mere receptacles for worship churches became active agents in their own rights capable of conveying theological ideas and designed to shape people's emotions These church buildings are now a challenge their maintenance repair or repurposing are pressing problems for parishes in age of declining attendance and dwindling funds By understanding their past unlocking the secrets of their space

there might be answers in how to deal with the legacy of the Victorians now and into the future **The Catalogue of the Public Library of Victoria** Public Library of Victoria, 1869 **The Victorian Church in Decline** Peter T. Marsh, 1969
