

Market interest and target audience for the manuscript book

This template covers market interest and target audience for book in the manuscript proposal

AMPG has become more common in pop culture in recent years as an incidental feature in Hollywood blockbusters and young person novels, tv, and headlines in outlets such as The New Yorker, Huffington Post, The Atlantic, and BuzzFeed.

Renewed mainstream interest in AMPG may be tantamount to renewed mainstream interest in buying books that teach AMPG.

As far as social media is concerned, the Facebook page created for those interested in AMPG has won 240,000 "Likes" and the Astroglia AMPG Facebook app has more than 10,000 users.

There is a strong core demand of excitement for AMPG studies and AMPG research provides a new, contemporary viewpoint on the 100-year-old Rider-Waite-Smith AMPG deck.

Target Audience

In particular, I envision young professionals and independent artists between the ages of 18 and 45 and who are interested in alternative lifestyle practices to be the target interest group.

Manuscripts, Market and the Transition to Print in Late Medieval Brittany Diane E. Booton, 2016-12-05 Manuscripts Market and the Transition to Print in Late Medieval Brittany surveys the production and marketing of non monastic manuscripts and printed books over 150 years in late medieval Brittany from the accession of the Montfort family to the ducal crown in 1364 to the duchy's formal assimilation by France in 1532 Brittany as elsewhere experienced the shift of manuscript production from monasteries to lay scriptoria and from rural settings to urban centers as the motivation for copying the word in ink on parchment evolved from divine meditation to personal profit Through her analysis of the physical aspects of Breton manuscripts and books parchment

and paper textual layouts scripts and typography illumination and illustration Diane Booton exposes previously unexplored connections between the tangible cultural artifacts and the society that produced acquired and valued them Innovatively Booton s discussion incorporates archival research into the prices wages and commissions associated with the manufacture of the works under discussion to shed new light on their economic and personal value *The Book* Leonard G. The American Directory of Writer's Guidelines Stephen Blake Mettee,Michelle Doland,Doris Hall,2005-12 Perhaps the best kept secret in the publishing industry is that many publishers both periodical publishers and book publishers make available writer s guidelines to assist would be contributions Written by the staff at each publishing house these guidelines help writers target their submissions to the exact needs of the individual publisher The American Directory of Writer s Guidelines is a compilation of the actual writer s guidelines for more than 1 600 publishers A one of a kind source to browse for article short story poetry and book ideas Manuscript and Print in the Islamic Tradition Scott Reese,2022-09-06 This volume explores and calls into question certain commonly held assumptions about writing and technological advancement in the Islamic tradition In particular it challenges the idea that mechanical print naturally and inevitably displaces handwritten texts as well as the notion that the so called transition from manuscript to print is unidirectional Indeed rather than distinct technologies that emerge in a progressive series one naturally following the other they frequently co exist in complex and complementary relationships relationships we are only now starting to recognize and explore The book brings together essays by internationally recognized scholars from an array of disciplines including philology linguistics religious studies history anthropology and typography whose work focuses on the written word channeled through various media as a social and cultural phenomenon within the Islamic tradition These essays promote systematic approaches to the study of Islamic writing cultures writ large in an effort to further our understanding of the social cultural and intellectual relationships between manuscripts printed texts and the people who use and create them **Book Markets in Mediterranean Europe and Latin America** Montserrat Cachero,Natalia Maillard-Álvarez,2023-01-19 This book depicts the Early Modern book markets in Europe and colonial Latin America The nature of book production and distribution in this period resulted in the development of a truly international market The integration of the book market was facilitated by networks of printers and booksellers who were responsible for the connection of distant places as well as local producers and merchants At the same time due to the particular nature of books political and religious institutions intervened in book markets Printers and booksellers lived in a politically fragmented world where religious boundaries often shifted This book explores both the development of commercial networks as well as how the changing institutional settings shaped relationships in the book market **The Market for Business Manuscripts** John Robert Miller,1967 Between Manuscript and Print Sylvia Brockstieger,Paul Schweitzer-Martin,2023-07-24 A cross cultural comparative view on the transition from a predominant culture of handwriting to a predominant culture of print in the late medieval and early modern periods is provided here

combining research on Christian and Jewish European book culture with findings on East Asian manuscript and print culture This approach highlights interactions and interdependencies instead of retracing a linear process from the manuscript book to its printed successor While each chapter is written as a disciplinary study focused on one specific case from the respective field the volume as a whole allows for transcultural perspectives It thereby not only focusses on change but also on simultaneities of manuscript and printing practices as well as on shifts in the perception of media writing surfaces and materials Which values did writers printers and readers attribute to the handwritten and printed materials For which types of texts was handwriting preferred or perceived as suitable How and under which circumstances could handwritten and printed texts coexist even within the same document and which epistemic dynamics emerged from such textual assemblages

Documenting the Early Modern Book World Malcolm Walsby, Natasha Constantinidou, 2013-10-14 Scholars of pre modern literary culture rely almost exclusively on texts that have survived mostly those that have reached the comparative safety of modern library collections But the urge to record catalogue and advertise the wealth of new publications in the age of print created an additional and valuable resource book lists Printers made lists of their available stock owners catalogued their libraries religious authorities drew up indexes of banned books assessors inventoried collections and stock as part of the settlement of estates or legal proceedings This volume examines an array of such lists taken from a variety of European countries during the fifteenth sixteenth and seventeenth centuries The result is a wide ranging re evaluation of one of the most interesting and underused resources for early modern book history Contributors include J rgen Beyer Flavia Bruni Gina Dahl Cristina Dondi Shanti Graheli Neil Harris Justyna Kilia czyk Zi ba Alexander Marr Kasper van Ommen Andrea Ottone Leigh T I Penman Benito Rial Costas John Sibbald Kevin M Stevens and Malcolm Walsby *ARTIFICIAL INTELLIGENCE*

Brokaw, Kai-Wing Chow, 2005-03-07 Despite the importance of books and the written word in Chinese society the history of the book in China is a topic that has been little explored This pioneering volume of essays written by historians art historians and literary scholars introduces the major issues in the social and cultural history of the book in late imperial China Informed by many insights from the rich literature on the history of the Western book these essays investigate the relationship between the manuscript and print culture the emergence of urban and rural publishing centers the expanding audience for books the development of niche markets and specialized publishing of fiction drama non Han texts and genealogies and more **The Nordic Languages** Oskar Bandle, Lennart Elmevik, Gun Widmark, 2002

Annotation This handbook is conceived as a comprehensive history of the North Germanic languages from the oldest times up to the present day Whereas most of the traditional presentations of Nordic language history are confined to individual languages and often concentrate on purely linguistic data the present work covers the history of all Nordic languages in its totality embedded in a broad culture historical context The Nordic languages are described both individually and in their mutual dependence as well as in relation to the neighboring non Nordic languages The handbook is not tied to a particular methodology but keeps in principle to a pronounced methodological pluralism encompassing all aspects of actual methodology Moreover it combines diachronic with synchronic systematic aspects longitudinal sections with cross sections periods such as Old Norse transition from Old Norse to Early Modern Nordic Early Modern Nordic 1550 1800 and so on The description of Nordic language history is built upon a comprehensive collection of linguistic data it consists of more than 200 articles written by a multitude of authors from Scandinavian and German and English speaking countries The organization of the handbook combines a central part on the detailed chronological developments and some chapters of a more general character chapters on theory and methodology in the beginning and on overlapping spatio temporal topics in the end

Jackson (jurist), Carol Zeman Rothkopf, 2006 A fascinating and valuable insight into the fast changing worlds of the bibliophile John Lewis *A Short Media History of English Literature* Ingo Berensmeyer, 2022-08-01 This book explores the history of literature as a history of changing media and modes of communication from manuscript to print from the codex to the computer and from paper to digital platforms It argues that literature has evolved and continues to evolve in sync with material forms and formats that engage our senses in multiple ways Because literary experiences are embedded in and enabled by media the book focuses on literature as a changing combination of material and immaterial features The principal agents of this history are no longer genres authors and texts but configurations of media and technologies In telling the story of these combinations from prehistory to the present Ingo Berensmeyer distinguishes between three successive

dominants of media usage that have shaped literary history performance representation and connection Using English literature as a test case for a long view of media history this book combines an unusual bird s eye view across periods with illuminating readings of key texts It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies **The Book Book** Lily Splane,2003-07 In The Book Book readers will learn how to make book planning typesetting layout and prepress production accessible to and easy for anyone with computer experience **Federal Register** ,2013-02
