Studies in the Syriac Magical Traditions Marco Moriggi, Siam Bhayro, 2021-10-25 The study of the Syriac magical traditions has largely been marginalised within Syriac studies with the earliest treatments displaying a disparaging attitude towards both the culture and its magical practices Despite significant progress in more recent scholarship in respect of the culture its magical practices and their associated literatures remain on the margins of the scholarly imagination This volume aims to open a discussion on the history of the field to evaluate how things have progressed and to suggest a fruitful way forward In doing so this volume demonstrates the incredible riches contained within the Syriac magical traditions and the necessity of their study

Jesus the Magician Smith, Morton, 2014-08-27 A twentieth century classic uncannily smart incredibly learned from the foreword by Bart Ehrman This book challenges traditional Christian teaching about Jesus While his followers may have seen him as a man from heaven preaching the good news and working miracles Smith asserts that the truth about Jesus is more interesting and rather unsettling The real Jesus

only barely glimpsed because of a campaign of disinformation obfuscation and censorship by religious authorities was not Jesus the Son of God In actuality he was Jesus the Magician Smith marshals all the available evidence including but not limited to the Gospels He succeeds in describing just what was said of Jesus by outsiders those who did not believe him He deals in fascinating detail with the inevitable questions What was the nature of magic What did people at that time mean by the term magician Who were the other magicians and how did their magic compare with Jesus works What facts led to the general assumption that Jesus practiced magic And most important was that assumption correct The ramifications of Jesus the Magician give new meaning to the word controversial This book recovers a vision of Jesus that two thousand years of suppression and polemic could not erase And what may be the central point of the debate Jesus the Magician strips away the myths and legends that have obscured Jesus the man who lived **Silk Road Traces** Li Tang,Dietmar W.

The study of languages forms the foundation of any study of ancient societies While we are dependent upon archaeology to unearth pottery tools buildings and graves it is through reading the documentary evidence that we learn the nuances of each culture from receipts and letters to myths and legends And the access to those documents comes only through the basic work of deciphering scripts conjugating verbs untangling syntax and mastering vocabulary Ancient Language Resources brings together some of the most significant reference works for the study of ancient languages including grammars dictionaries and related materials While most of the volumes will be reprints of classic works we also intend to include new publications The linguistic circle is widely drawn encompassing Egyptian Sumerian Akkadian Ugaritic Phoenician Hattic Hittite Nesite Hurrian Hebrew Aramaic Syriac Ethiopic Arabic Greek Coptic Latin Mandaean Armenian and Gothic It is the hope of the publishers that this will continue to encourage study of the ancient languages and keep the work of groundbreaking scholars accessible K C
