Perrin, 2015-08-19 Among the predominantly Hebrew collection of the Dead Sea Scrolls are twenty nine compositions penned in Aramaic While such Aramaic writings were received at Qumran these materials likely originated in times before and locales beyond the Qumran community In view of their unknown past and provenance this volume contributes to the ongoing debate over whether the Aramaic texts are a cohesive corpus or accidental anthology Paramount among the literary topoi that hint at an inherent unity in the group is the pervasive usage of the dream vision in a constellation of at least twenty writings Andrew B Perrin demonstrates that the literary convention of the dream vision was deployed using a shared linguistic stock to introduce a closely defined set of concerns Part One maps out the major compositional patterns of dream vision episodes across the collection Special attention is paid to recurring literary philological features e g motifs images phrases and idioms which suggest that pairs or clusters of texts are affiliated

intertextually tradition historically or originated in closely related scribal circles Part Two articulates three predominant concerns advanced or addressed by dream vision revelation The authors of the Aramaic texts strategically employed dream visions i for scriptural exegesis of the antediluvian patriarchal traditions ii to endorse particular understandings of the origins and functions of the priesthood and iii as an ex eventu historiographical mechanism for revealing aspects or all of world history These findings are shown to give fresh perspective on issues of revelatory discourses in Second Temple Judaism the origins and evolution of apocalyptic literature the ancient context of the book of Daniel and the social location of the Aramaic Dead Sea Scrolls

All Power to the Lamb James R. Johnson, 2010-12 Book Summary If you were God writing a book you wanted men to understand would you write it in such a way that men would have to make up meaning in order to understand it or would you write it in such a way that those that seek to understand could actually come to a knowledge of its truth Mt 7 7 The present commentary takes the position that God wrote Revelation in such a way that with sufficient effort and intellectual honesty readers can understand it Certainly there are symbols in Revelation but when God does use symbols He provides inspired interpretations of the symbols This commentary seeks to avoid the mistakes of the views that use the symbolical approach to Revelation preterist continuous historical spiritualist and idealist These approaches suffer from two basic flaws assuming the text is symbolical when it is not and making up meaning regarding the text based on stream of consciousness word association much as one would do looking at Rorschach inkblots This commentary seeks to avoid telling God what He should have said and strives to understand what God actually meant Of all the approaches to understanding Revelation this commentary is most closely aligned with the dispensationalist premillennialist view in that it views Revelation from a literalist futurist perspective It is different from the typical dispensationalist schema in that it views the seven seals as the powers of the Lamb understands the exercise of the powers of the seven seals to be simultaneous processes and casts chapters 8 22 as three parallel prophecies of the Lamb's power over the course of the histories of Israel the nations and the saints This commentary also makes use of many of the non canonical works that provide insight into the spirit world and detail regarding the end of the present age
