Book History Volume 7 2004:

The Reader, the Body, and the Book Natasha Anderson, 2025-05-15 How do books dazzle disgust or delight audiences What entices readers to track characters trials and tribulations Why do stories echo across the ages with their intensity Books with vibrant somatic elements prompt us to identify with protagonists who fall in love flee from pursuers and fight for survival enhancing the awareness of our own bodies This transatlantic diachronic study of 19th century literature analyzes the rising complexity of sensorimotor descriptions in four major Victorian novels Anne Brontë's *The Tenant of Wildfell Hall* Charlotte Brontë's *Villette* Henry James's *The Portrait of a Lady* and Thomas Hardy's *Tess of the d'Urbervilles* Based on phenomenological insights of French philosophers Maurice Merleau-Ponty and Paul Ricœur this groundbreaking research on visceral reading experiences in British and U.S. American fiction illuminates the immersive appeal of bodily motions and sensations in books film adaptations and digital resources of the 21st century

Prairie Republic Jon K. Lauck, 2012-10-11 American democratic ideals civic republicanism public morality and Christianity were the dominant forces at work during South Dakota's formative decade What In our cynical age such a claim seems either remarkably naïve or hopelessly outdated Territorial politics in the late nineteenth century West is typically viewed as a closed door game of unprincipled opportunism or is caricatured as in the classic film *The Man Who Shot Liberty Valance* as a drunken exercise in bombast and rascality Now Jon K. Lauck examines anew the values we like to think were at work during the founding of our western states Taking Dakota Territory as a laboratory for examining a formative stage of western politics Lauck finds that settlers from New England and the Midwest brought democratic practices and republican values to the northern plains and invoked them as guiding principles in the drive for South Dakota statehood *Prairie Republic* corrects an overemphasis on class conflict and economic determinism factors posited decades ago by such historians as Howard R. Lamar Instead Lauck finds South Dakota's political founders to be agents of Protestant Christianity and of civic republicanism an age-old ideology that entrusted the polity to independent landowning citizens who placed the common interest above private interest Focusing on the political culture widely shared among settlers attracted to the Great Dakota Boom of the 1880s Lauck shows how they embraced civic virtue broad political participation and agrarian ideals Family was central in their lives as were common school education work and Christian community In rescuing the story of Dakota's settlers from historical obscurity *Prairie Republic* dissents from the recent darker portrayal of western history and expands our view and understanding of the American democratic tradition

Measuring the New World Neil Safier, 2024-05-31 Prior to 1735 South America was terra incognita to many Europeans But that year the Paris Academy of Sciences sent a mission to the Spanish American province of Quito in present day Ecuador to study the curvature of the earth at the Equator Equipped with quadrants and telescopes the mission's participants referred to the transfer of scientific knowledge from Europe to the Andes as a sacred fire passing mysteriously through European astronomical instruments to observers in South America By taking an innovative interdisciplinary look at

the traces of this expedition *Measuring the New World* examines the transatlantic flow of knowledge from West to East Through ephemeral monuments and geographical maps this book explores how the social and cultural worlds of South America contributed to the production of European scientific knowledge during the Enlightenment Neil Safier uses the notebooks of traveling philosophers as well as specimens from the expedition to place this particular scientific endeavor in the larger context of early modern print culture and the emerging intellectual category of scientist as author *French XX Bibliography* William J. Thompson, 2006-09 Provides a listing available of books articles and book reviews concerned with French literature since 1885 This work is a reference source in the study of modern French literature and culture The bibliography is divided into three major divisions general studies author subjects arranged alphabetically and cinema

Healing Our History 3rd Edition Robert Consedine, Joanna Consedine, 2012-03-28 A powerful and humane book *Healing Our History* eschews rhetoric and cuts to the true story of race relations in New Zealand The Treaty of Waitangi is the most important document in New Zealand s history Current Treaty issues and Maori Pakeha relationships can only be understood within the wider story of New Zealand As we understand and honour our history we can acknowledge the need for restoration healing and right relationships The public response to previous editions of this bestselling book by Robert Consedine and his daughter Joanna Consedine has been strong and overwhelmingly positive This 2012 edition updates and expands on the critical issues the foreshore and seabed debate Maori access to political power and the emergence of the Maori Party the remarkable growth of the Maori economy self determination Maori language and the developments in Maori education constitutional issues and the benefits of the Treaty settlement process New Zealand and all New Zealanders have much to celebrate and many challenges ahead Drawing on Robert s unique experience as a leading Treaty educator the powerful message of this book illustrates how each and every New Zealander across all cultures can discover a new sense of personal and national identity grounded in an authentic Treaty relationship This is one of those books New Zealand needs Michael King Based on years of Treaty work experience this book is essential reading Claudia Orange **Reinterpreting**

Exploration Dane Keith Kennedy, 2014 Exploration was a central and perhaps defining aspect of the West s encounters with other peoples and lands Rather than reproduce celebratory narratives of individual heroism and national glory this volume focuses on exploration s instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples In chapters offering broad geographic range the contributors address many of the key themes of recent research on exploration including exploration s contribution to European imperial expansion Western scientific knowledge Enlightenment ideas and practices and metropolitan print culture They reassess indigenous peoples responses upon first contacts with European explorers their involvement as intermediaries in the operations of expeditions and the complications that their prior knowledge posed for European claims of discovery Underscoring that exploration must be seen as a process of mediation between representation and reality this book provides

a fresh and accessible introduction to the ongoing reinterpretation of exploration's role in the making of the modern world

The Mediterranean Sea From Alexander To The Rise Of Rome Mark Luttenberger, 2022-05-25 This book is designed to describe the environmental political socioeconomic and military life of the inhabitants that surrounded the Mediterranean Sea from the fourth through the second centuries BC This story relates the complex dynamic interrelationships among the people and states of the Mediterranean basin The book explores the greater Mediterranean world that stretched from India to Spain It begins with a review of some of the geographical environmental and structural characteristics of the Mediterranean basin The balance of the book then proceeds to trace the political military and economic development of this region We review the rise of Macedon under Philip II through the conquests of Alexander the Great In the eastern basin the development and conflicts of the Hellenistic kingdoms of the Ptolemaic Seleucid and Antigonid dynasties are then traced We then turn the page and discuss the rise of Carthage and Rome as republics in the western basin Next the conflict between these two powers is analyzed which leaves Rome supreme in the west The next chapters narrate the struggle between Rome and the Hellenistic kingdoms for dominance in the east The book concludes with Roman supremacy established throughout the Mediterranean by the end of the second century From the apex conqueror of antiquity Alexander the Great we conclude with the establishment of the apex empire that was Rome

Reading Is My Window Megan Sweeney, 2010-02-15 Drawing on extensive interviews with ninety four women prisoners Megan Sweeney examines how incarcerated women use available reading materials to come to terms with their pasts negotiate their present experiences and reach toward different futures Foregrounding the voices of African American women Sweeney analyzes how prisoners read three popular genres narratives of victimization urban crime fiction and self help books She outlines the history of reading and education in U S prisons highlighting how the increasing dehumanization of prisoners has resulted in diminished prison libraries and restricted opportunities for reading Although penal officials have sometimes endorsed reading as a means to control prisoners Sweeney illuminates the resourceful ways in which prisoners educate and empower themselves through reading Given the scarcity of counseling and education in prisons women use books to make meaning from their experiences to gain guidance and support to experiment with new ways of being and to maintain connections with the world

Remembering the Road to World War Two Patrick Finney, 2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory

Prehistoric Monsters Allen A. Debus, 2014-11-21 Over centuries discoveries of fossil bones spawned legends of monsters such as giants and dragons As the field of earth sciences matured during the 19th century early fossilists gained understanding of prehistoric creatures such as Tyrannosaurus Triceratops and Stegosaurus This historical study examines how these genuine beasts morphed in the public imagination into mythical powerful engines of destruction and harbingers of cataclysm taking their place in popular culture film and literature as symbols of lost worlds where time stands still *Rural Control in Imperial China II* Xiqi Lu, 2025-05-21 This book examines the development of the xiangli system from the Song to the Qing dynasties analyzing its uniformity and regional variations as the second of a two volume set that systematically presents the xiangli system throughout Imperial China The xiangli system was a cornerstone of rural governance in Imperial China This two volume set illuminates the extension of state power to the villages and examines how the rural population was integrated into the dynastic system This volume focuses on the later development of the system from the Song dynasty to the Qing Through a detailed analysis of five historical periods and several representative regional case studies this volume highlights the system s adaptations and enduring influence over centuries of imperial rule The concluding chapter offers crucial insights into how local governance structures both shaped and were shaped by wider political economic and cultural forces across the dynasties of Imperial China The book will be essential reading for scholars and students of China and Chinese history particularly those interested in rural governance and control in Imperial China Medieval Crime Fiction

Anne McKendry, 2019-04-23 Combining elements of medievalism the historical novel and the detective narrative medieval crime fiction capitalizes upon the appeal of all three the most famous examples being Umberto Eco s *The Name of the Rose* one of the best selling books ever published and Ellis Peters endearing Brother Cadfael series Hundreds of other novels and series fill out the genre in settings ranging from the so called Celtic Enlightenment in seventh century Ireland to the ruthless Inquisition in fourteenth century France to the mean streets of medieval London The detectives are an eclectic group including weary ex crusaders former Knights Templar enterprising monks and nuns and historical poets such as Geoffrey Chaucer This book investigates the enduring popularity of the largely unexamined genre and explores its social cultural and political contexts Emily Dickinson Ann Beebe, 2022-03-03 The public is familiar with the Emily Dickinson stereotype an eccentric spinster in a white dress flitting about her father s house hiding from visitors But these associations are misguided and should be dismantled This work aims to remove some of the distorted myths about Dickinson in order to clear a path to her poetry The entries and short essays should open avenues of debate and individual critical analysis This companion gives both instructors and readers multiple avenues for study The entries and charts are intended to prompt ideas for classroom discussion and syllabus planning Whether the reader is first encountering Dickinson s poems or returning to them this book

aims to inspire interpretative opportunities The entries and charts make connections between Dickinson poems ponder the significance of literary artistic historical political or social contexts and question the interpretations offered by others as they enter the never ending debates between Dickinson scholars [Journal of Astronomical History and Heritage](#) ,2003
