Mapping Courtship and Kinship in Classical Japan Doris G. Bargen, 2015-08-31 Literary critiques of Murasaki Shikibu's eleventh century *The Tale of Genji* have often focused on the amorous adventures of its eponymous hero. In this paradigm shifting analysis of the *Genji* and other mid Heian literature, Doris G. Bargen emphasizes the thematic importance of Japan's complex polygynous kinship system as the domain within which courtship occurs. Heian courtship, conducted mainly to form secondary marriages, was driven by power struggles of succession among lineages that focused on achieving the highest position possible at court. Thus, interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts. Bargen focuses on the genealogical maze, the literal and figurative space through which several generations of men and women in the *Genji* moved. She demonstrates that courtship politics sought to control kinship by strengthening genealogical lines, while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them. The work examines in detail the literary construction of a courtship practice known as *kaimami* or looking through a gap in the fence in pre-*Genji* tales and diaries and Sei Shōnagon's famous *Pillow Book*. In Murasaki Shikibu's *Genji*, courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices, counteract sexual transgressions, or resist the pressure of imperial succession. Bargen argues persuasively that a woman observed by a man was not wholly deprived of agency. She could choose how much to reveal or conceal as she peeked through shutters from behind partitions, fans, and kimono sleeves or through narrow carriage windows. That mid Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship. In *Mapping Courtship and Kinship in Classical Japan*, readers both familiar with and new to *The Tale of Genji* and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts. In addition, the book includes charts that trace *Genji* characters' lineages, maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond, and color reproductions of paintings that capture the drama of courtship.

The Miseducation of English Learners Grace P. McField, 2014-01-01 Sometimes you need to hear the story from the beginning. *The Miseducation of English Learners* examines the initial policy impact of Structured English Immersion (SEI), an English-only program mandated for English Learners (ELs) in California, Arizona, and Massachusetts in the United States. The book features analyses of the legal context and parameters of SEI, research history on SEI, SEI language policy, and policy implementation according to situated context and the educational priorities and legal rights of ELs. The book examines the history of SEI in the educational research literature and as it has been interpreted in the context of the legal requirement for schools to take appropriate action to meet the needs of ELs following the historic *Lau v. Nichols* 1974 court decision. *The Miseducation of English Learners* also presents and considers the implementation of SEI in comparative contexts from

various perspectives including teacher education the classroom and legal In several of the chapters SEI implementation is examined in concert with other factors that have effected the teaching and progress of ELs such as Senate Bill 2042 2001 that overhauled the teacher education process in California and the federal No Child Left Behind legislation signed into law on January 8 2002 Moreover the book provides implications and recommendations for teaching research advocacy and policy change The Miseducation of English Learners addresses and invites the readers to consider the following key questions How appropriate is the mandated SEI program for ELs both in substance and in the one year duration as specified in the three voter initiated propositions Proposition 227 Proposition 203 and Question 2 What issues themes and patterns can be noted in the implementation of SEI in California Arizona and Massachusetts Why might the student outcomes not show the desired results in measures such as achievement test scores or dropout rates What necessary changes are called for in order to enhance or in some cases supplant the SEI programs and services in place for ELs Are ELs parents and other stakeholders able to thoughtfully select desired and optimal instructional programs and participate meaningfully in the educational process of language minority students under the SEI mandates

Thomas Rimer, 2006-01-31 This admirable and necessary volume allows the original writers to speak to us directly Though all this is carefully documented we are at the same time spared any layers of scholarly interpretation Rather the richness of the original reaches us complete Donald Richie Japan Times May 14 2006 Japanese artists musicians actors and authors have written much over the centuries about the creation meaning and appreciation of various arts Most of these works however are scattered among countless hard to find sources or make only a fleeting appearance in books devoted to other subjects Compiled in this volume is a wealth of original material on Japanese arts and culture from the prehistoric era to the Meiji Restoration 1867 These carefully selected sources including many translated here for the first time are placed in their historical context and outfitted with brief commentaries allowing the reader to make connections to larger concepts and values found in Japanese culture The book is a treasure trove of material on the visual and literary arts but it contains as well primary texts on topics not easily classified in Western categories such as the martial and culinary arts the art of tea and flower arranging More than 60 color and black and white illustrations enrich the collection and provide further insights into Japanese artistic and cultural values

Silent Film and the Triumph of the American Myth Paula Marantz Cohen, 2001-05-03 Silent Film and the Triumph of the American Myth is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century Cohen argues that through the medium of silent film America was able to sever its literary and linguistic ties to Europe assert its cultural independence and forge a unique form of cultural expression Silent films drew on elements developed in popular forms of representation like photography landscape panoramas and

Variation and Verb Second Federica Cognola, 2013-01-01 This monograph investigates the syntax of the finite verb in Mocheno a minority language spoken in a German speech island of Northern Italy. Basing her study on detailed new data collected during extensive fieldwork and focusing on finite verb movement on multiple access to the left periphery on pro licensing mechanism and on the distribution of OV VO word orders the author refutes the traditional view that the syntactic variation found in Mocheno is due to the presence of two competing grammars as a consequence of contact with Romance varieties and accounts for the peculiarities of Mocheno syntax within a theory couched in the framework of Generative Grammar. This book contributes to our understanding of the verb second phenomenon and sheds new light on the asymmetries between Old Romance and Germanic verb second languages. A useful tool for all linguists working on both theoretical and comparative syntax and to anyone interested in language variation, dialectology and typology. **New**

Documentary Stella Bruzzi, 2002-01-04 **New Documentary: A Critical Introduction** provides a comprehensive account of the last two decades of documentary filmmaking in Britain, the US and Europe. Stella Bruzzi's engaging textbook discusses key genres, filmmakers and issues for the study of non-fiction film and television, including key texts such as the Zapruder film of Kennedy's assassination, Shoah, Hoop Dreams and Michael Apted's 7 Up series. Documentary genres from current affairs programming to fly on the wall documentaries to reality TV series: the work of documentary filmmakers such as Emile de Antonio, Fred Wiseman, Nick Broomfield, Molly Dineen and Paul Watson; the work of avant-garde filmmakers such as Chris Marker, Patrick Keiller, Peter Greenaway and Wim Wenders whose films challenge conventions of documentary filmmaking; movies based on historical events such as JFK and Nixon; faux documentaries such as This is Spinal Tap, Bob Roberts and Man Bites Dog; gender identity, queer theory, performance, race and spectatorship. Bruzzi shows how theories of documentary filmmaking can be applied to contemporary texts and genres and discusses the relationship between recent innovative examples of the genre and the more established canon of documentary. **Catalogue of Japanese printed Books and Manuscripts in the Library of the British Museum** Robert Kennaway Douglas, 1898
