Fisheries Development and Management in India, 1785-1986 Nune Subba Rao, 1989 Fisheries play an important role in the economy of nations bordering the sea and this is especially true in a populous country like India where a large majority continues to live below the poverty line Sea fishing has been an occupation with the coastal people of India since time immemorial forming an integral part of the maritime heritage Mechanisation has been introduced into the marine fishing with a view to exploit the fisheries potential all along the Indian coastline of 6 500 km by overcoming the deficiencies of the centuries old traditional fishing technology and to augment fish production with a higher fishing effort and also to raise the income levels and living standards of fishermen The present book based on the author's doctoral dissertation made a bold and pioneering attempt to evaluate the costs and earnings of mechanised and traditional boats for determining their relative operational efficiency and to examine intensively the effects of mechanisation on employment income levels consumption pattern and levels of living of fishermen and their social implications While analysing the merits of the new fishing technology and also the reactions of different groups of fishermen to mechanisation he spotlights the shortsightedness in the implementation of the programme of mechanisation resulting in a host of negative effects which have implications and also sets forth the valuable lessons which Indian experiences have to offer to the densely populated littoral nations in the Third World To ensure enduring benefits to the vast majority of marine fishermen the thesis underscores among numerous other remedies the need for the provision of an intermediary technology the need for the institutional

support and marketing network and the need for the management of fisheries resources It also calls for the policies to bring about socio economic development of the fishing community on par with the rest of the society All in all a genuine contribution to knowledge of grassroots situations that will have enduring value and that can be useful in both academic and policy formation circles Papers On Indian Writing In English 2 Vols.
