Johnson,2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries      *Darwin's Demise* Nicholas Comninellis,Joe White,2001-11-01 For people confused by the contradictory messages they hear from secular science and church teaching evolution can be intimidating The truth is that Darwin s ideas are based upon faulty science and that creationists have solid evidence to support their claims Finally a brilliant defense of Genesis and the Bible s teaching about origins is waiting for those who are soon to understand how Darwinism is fraudulent faith masquerading as science Authors Joe White and Nicholas Comninellis have a passion for truth and for sharing it with students and their parents In Darwin s Demise they succeed in showing why real science is burning down the House of Darwin      **5 Minute Apologist** Rick Cornish,2014-02-27 Explaining spiritual

**The Truth about Human Origins** Brad Harrub, Bert Thompson, 2003 Ever since Charles Darwin first published The Origin of Species on November 24 1859 the subject of origins has been one of the most controversial topics around Sadly it also is a subject that is fraught with erroneous theories and concepts Most students today are taught that organic evolution is not a theory but a fact that all reputable scientists accept Disclaimers from the evolutionary community notwithstanding such a claim is quite simply wrong We believe it is time for someone to offer what renowned news commentator Paul Harvey would call the rest of the story That is what The Truth About Human Origins does It tells the rest of the story as it discusses the scientific facts about mankind s beginning For example it investigates the record of the rocks as that record relates to human evolution It demonstrates how evolutionary theory is unable to explain things like the origin of gender and sexual reproduction the origin of language and communication the origin of the brain the mind and human consciousness and the origin of skin colors and blood types It also examines in an in depth fashion the so called molecular evidence of human evolution

**God and Quantum Physics** C. Allan Boyles, 2021-01-25 Physics cannot show that a corporal godlike figure exists in the universe However the major religions of the world especially Christianity describe God as a spiritual energy and not corporal Quantum physics says there exists a universal energy that has the attributes of God This energy has consciousness and creativity All matter is composed of this energy This energy was responsible for the Big Bang Professor emeritus William Tiller a physicist at Stanford University has shown this energy can interact with human consciousness This book takes you through a non mathematical proof of the physics of these assertions

**The Fifth Petition** A Thing Not as End in Itself, 2019-05-20 His great grandfather was a monkey The Primitive Savage grew up on a tree in Africa His parents were poor and their tree was not a big tree All his education was under the small tree He was told if he walked upright his brain will grow but he could never understand why He tried unsuccessfully to walk just like his parents and grandparents before him in order to grow a bigger brain but all his could do is to lean on a tree to support himself standing on two But walking was extremely difficult He only managed to grow a small brain Now he is a thing
