Of Ancient Revelations:

Ancient Revelations of the Bible A. C. Lenak, 2015-03-19 My reason for writing this book was to understand the Bible more fully Why did God have so much trouble with His little flock of people Why did they always disobey Him Who were the little gods they were always worshipping That's why I read the book of Enoch that told about the Watchers and detailed their treachery against God Other books outside the Bible also reveal more details and clear up many of the mysteries that the Bible does not explain It has increased my faith in God even more God The Dimensional Revelation Allyn Richert, 2023-05-12 What questions do you have about Your Life Your Being Your Soul and Your Conscious Awareness GOD The Dimensional Revelation is a book revealing reality Broadly stated reality is defined as all that exists The study of reality is called metaphysics Metaphysics is the primary field of philosophy Metaphysics is divided into two major fields of study These are cosmology and ontology GOD The Dimensional Revelation reveals cosmological facts about our big bang Our research reconciles relativity theory and quantum mechanics Ontologically This Teaching Reveals a clear theology about GOD and Your Relationship with GOD Learn how to use the scientific method to prove that the Reality You and I Experience is a partial Fusion of our physical universe with our separate Spiritual Universe This Teaching proves this in the context of 10 Dimensions of Reality some of which are original to this book These 10 Dimensions are clearly explained and verified Dimensional Reasoning is offered as a tool anyone can use to answer all the great questions of Existence The Source of Being is clearly identified as well as the Destination of Individual Being Reading and Participating in the Knowledge Shared in this book will increase your Confidence Personal Power and help You Grow Spiritually **A commentary on the Epistle to the Hebrews. A Commentary on the Epistle to the Hebrews Moses Stuart,1833 **A Commentary on the Epistle to the Hebrews. By Moses Stuart. Second Edition, Corrected and Enlarged. [With the Text.]**,1833 Schopenhauer's Compass Urs App,2014-09-09 Schopenhauer was the first major Western philosopher with a deep interest in Asian philosophies and religions His favorite book was a Latin version of the Indian Upanishads the Oupnek hat that he used to call the consolation of his life and death Urs App explains in this book for the first time why Schopenhauer regarded this work as the most excellent in the world how it is connected with the birth of his philosophy and what caused him to list it even ahead of Plato and Kant as his major inspiration This groundbreaking new introduction to Schopenhauer s thought and its genesis explains the role of Indian Persian Sufi Neoplatonic and mystical ideas as well as meditative states better consciousness But its focus lies firmly on the central dynamic at the heart of Schopenhauer s entire work the inner compass that gave it its overall direction Mediating the Divine Alex Jassen,2007-06-30 This book is a comprehensive treatment of prophecy and revelation in the Dead Sea Scrolls It begins by analyzing the re presentation of the classical prophets and their revelatory experience in an attempt to identify how prophecy and revelation was reconceptualized in the Dead Sea Scrolls in dialogue and in contrast with received biblical models This work then examines the direct evidence in the Dead Sea Scrolls regarding ongoing prophetic activity at Qumran and in related segments of Second Temple Judaism This study argues that the Dead Sea Scrolls bear witness to a transformed prophetic tradition active at Qumran and in Second Temple Judaism Topics treated include the relationship of prophecy to scriptural interpretation wisdom and law and eschatological prophecy Biblical Text and Exegetical Culture Michael Fishbane,2022-01-25 In this wide ranging collection Michael Fishbane investigates the complex and diverse relationships between the biblical text and exegetical culture The author demonstrates the multiple literary dimensions and interpretative strategies that came to form the Hebrew Bible in the context of the ancient Near East the Dead Sea Scrolls in the context of an emergent biblical Jewish culture and the classical rabbinic Midrash in the context of an emergent rabbinic civilization in late antiquity Within each study and in the collection as a whole the author shows a broad range of creative methods always with a scholarly concern to illuminate the religious ideas of Scripture as it was perceived through diverse hermeneutical lenses and exegetical methodologies The studies range from the purely literary to the highly analytic from

myth to law and from studies of symbols to the study of exegetical methods **Investigating the Supernatural** Sofie Lachapelle, 2022-02-03 A convincing account of science's flirtation with the marginal and the marvelous from the author of *Conjuring Science* *Journal of the History of the Behavioral Sciences* Sciences were wildly popular in France between 1850 and 1930 when members of the general public and scholars alike turned to the wondrous as a means of understanding and explaining the world Sofie Lachapelle explores how five distinct groups attempted to use and legitimize sciences: spiritists who tried to create a new science concerned with the spiritual realm and the afterlife; occultists who hoped to connect ancient revelations with contemporary science; physicians, psychiatrists and psychologists who developed a pathology of supernatural experiences; psychical researchers who drew on the unexplained experiences of the public to create a new field of research; and metapsychists who attempted to develop a new science of yet to be understood natural forces. An enlightening and entertaining narrative that includes colorful people like Allan Kardec, a pseudonymous former mathematics teacher from Lyon who wrote successful works on the science of the science and what happened after death. *Investigating the Supernatural* reveals the rich and vibrant diversity of unorthodox beliefs and practices that existed at the borders of the French scientific culture in the late nineteenth and early twentieth centuries. What is science? In her engaging book Sophie Lachapelle probes for an answer by looking at the liminal realm between science and superstition and the attempt to render the supernatural explicable in naturalistic terms. *Isis* A welcome addition to the growing literature on spiritism, occultism and physical research in modern France. *French History* **Reflections Upon the Books of the Holy Scripture** Pierre Allix, 1809

Reflexions upon the Books of The Holy Scripture, to establish the truth of the Christian Religion Pierre Allix, 1809 **Newton and Religion** J.E. Force, R.H. Popkin, 2013-03-09 Over the past twenty five years since the very large collection of Newton's papers became available and began to be seriously examined, the beginnings of a new picture of Newton has emerged. This volume of essays builds upon the foundation of its authors in their previous works and extends and elaborates the emerging picture of the new Newton, the great synthesizer of science and religion as revealed in his intellectual context. **The Semi-Barbarous Hebrew and the Extinguished Theologian** Thomas Gribble, 2022-09-28

Athens and Jerusalem Winfried Schröder, 2022-12-12 The present study for the first time provides a comparative analysis of the objections raised against Christianity by late antique pagan philosophers esp. Celsus in *Alethes logos*, Porphyry in *Contra Christianos* and Julian the Apostate in *Contra Galilaeos* and Enlightenment philosophers and freethinkers and examines the impact of pagan thinking on the critique of Christianity in the 16th to 18th centuries, in particular on discussions concerning the authority of the Bible, biblical exegesis, the Christian concept of faith, religious coercion and the uniformity of faith, the belief in miracles and the Christian understanding of morality. *The Seer*, 1853 **The Seer** Orson
