Of Art Internet Linked:

Academic Research on the Internet William Miller, Helen Laurence, 2001-03-19 Find what you're looking for with the best Internet resources for academic research in the humanities, sciences and social sciences. Which academic resource deserves more of your budget: printed books and journals or softly glowing terminals? The answer differs depending on the subject area, the availability and reliability of Internet information in that field and the comparative value of Internet research and traditional print media. *Academic Research on the Internet: Options for Scholars and Libraries* gives you the information you need to make those choices. This comprehensive book examines the usability of the Internet as a scholarly research and reference tool. Each chapter provides a snapshot of Internet information access and usability in a specific subject area, comparing it to traditional print media. In addition, each chapter includes a selected webliography of key resources, a time-saving tool for librarians on the reference desk. Experts in specific subject areas provide up-to-the-minute assessments of the usefulness of the Internet for research in their fields, including Arts and Architecture, Biology, Engineering, Chemistry, Physics and Mathematics, Music, Philosophy, English and American Literature, History, Political Science, Business, Education, Anthropology and Sociology, Health Sciences, Public Administration, Law, Environmental Sciences, Reference. *Academic Research on the Internet* is designed to provide the facts you need about the reliability, timeliness and availability of Internet information. With this information you can decide on the relative value of print subscriptions, assess the degree to which the Internet alone can satisfy users' information needs and make intelligent choices about budget allocation. **Web**

Communication Technologies and Internet-Related Social Issues - HSI 2003 Chin-Wan Chung, Chong-Kwon Kim, Won Kim, Tok-Wang Ling, Kwan-Ho Song, 2003-08-03 The refereed proceedings of the Second International Conference on Human Society Interact HSI 2003 held in Seoul, Korea in June 2003. The 57 revised full papers and 31 revised short papers presented were carefully reviewed and selected from 219 submissions.
