The Mirth of Nations Christie Davies, 2017-07-28 *The Mirth of Nations* is a social and historical study of jokes told in the principal English speaking countries. It is based on use of archives and other primary sources including old and rare joke books. Davies makes detailed comparisons between the humor of specific pairs of nations and ethnic and regional groups. In this way he achieves an appreciation of the unique characteristics of the humor of each nation or group. A tightly argued book, *The Mirth of Nations* uses the comparative method to undermine existing theories of humor which are rooted in notions of hostility, conflict and superiority and derive ultimately from Hobbes and Freud. Instead, Davies argues that humor merely plays with aggression and with rule breaking and that the form this play takes is determined by social structures and intellectual traditions. It is not related to actual conflicts between groups. In particular, Davies convincingly argues that Jewish humor and jokes are neither uniquely nor overwhelmingly self-mocking as many writers since Freud have suggested. Rather, Jewish jokes like Scottish humor and jokes are the product of a strong cultural tradition of analytical thinking and intelligent self-awareness. The volume shows that the forty-year popularity of the Polish joke cycle in America was not a product of any special negative feeling towards Poles. Jokes are not serious and are not a form of determined aggression against others or against one's own group. *The Mirth of Nations* is readable as well as revisionist. It is written with great clarity and puts forward difficult and complex arguments without jargon in an accessible manner. Its rich use of examples of all kinds of humor entertains the reader who will enjoy a great variety of jokes while being enlightened by the author's careful explanations of why particular sets of jokes exist and are immensely popular. The book will appeal to general readers as well as those in cultural studies.

The Canadian Shields Carol Shields, 2024-09-09 Newly discovered work by one of Canada's favourite writers, *The Canadian Shields* brings together fifty short writings by Carol Shields, 1935-2003, including more than two dozen previously unpublished short stories and essays and two dozen essays previously published but never before collected. Invaluable to scholars and admirers of Shields's work, the writings discovered in the National Library Archives by Nora Foster Stovel and presented to the public here for the first time reflect Shields's interest in the relationships between reality and fiction, mothers and daughters, and gender and genre. They also reveal her love of Canada, especially Winnipeg, her home for twenty years. Originally written for women's magazines, travel journals, convocation addresses, and even graduate school term papers, Shields's imaginative essays explore ideas about home, Canadian literature, contemporary women's writing, and the future of fiction. Whether autobiographical, cultural, or feminist in focus, these works vividly illuminate the multiple chapters of Shields's writing life. Margaret Atwood and Lorna Crozier frame Shields's texts with tributes to her work and impact. An introduction by Stovel situates Shields as a Canadian author and subversive feminist writer, demonstrating how American-born and raised Carol Anne Warner became the Canadian Shields, a quintessential and beloved Canadian writer and the only author to win both the Pulitzer Prize and the Governor General's Gold Medal for Fiction.
