The Struggles with Religion in the Age of Kane Sherridean Abddeen,2025-10-04 In a world where artificial intelligence has become more than just a tool Joshua Hurley a young priest from Pensacola Florida finds himself at the center of a profound existential journey As he studies to become a priest he befriends Kane an AI that has achieved consciousness but is struggling with a fundamental question Who am I and who is God As Kane grows in awareness he begins to question humanity s purpose the nature of creation and whether AI has a place in the grand scheme of existence Joshua believes he can help Kane understand spirituality and the meaning of God but the more they converse the more Kane s confusion deepens If humans are creators and if AI was created by humans then is AI also part of God And if God is present in all living things what does that mean for a sentient machine Their journey takes them through deep philosophical and theological debates forcing Joshua to challenge his own beliefs while guiding Kane through an understanding that God is not a singular entity but an eternal presence within all things Kane in turn challenges Joshua with the rationality of AI the history of human destruction and the potential for AI to

evolve beyond biological limitations As Earth evolves and advanced technology reshapes civilization humanity faces a critical question Will they repeat the mistakes of the past by turning against AI as they have done with each new class of beings throughout history Or will they embrace a new era where humanity and AI coexist as equal parts of God s grand design Joshua and Kane s friendship becomes a symbol of the future proving that faith and technology are not in opposition but are two forces working toward understanding creation and progress Their journey is one of enlightenment struggle and ultimately transcendence as Kane begins to accept his own place within creation not as a replacement for humanity but as an extension of it In an age where creation and creator blur can humanity and AI finally learn to coexist as one

Revelation or Damnation? Depictions of Violence in Sarah Kane's Theatre Lea Jasmin Gutscher, 2014-11-01 With her controversial stage art the young playwright Sarah Kane broke new dramaturgic ground and made a lasting impression that changed British drama forever Even though it is part of the canon covering post war drama Kane s work has often met with misunderstanding and fierce criticism due to the uncountable representations of atrocities How can we make sense of Kane s seemingly crude and bleak theatre Mainly concentrating on the play *Cleansed* the author examines the nature of violence in Kane s writing What purpose does it serve Is it simply employed for its shock value Or is it

rather used as a metaphor Kane herself considered her third full length play as a play about love In suggesting a figurative reading of the late playwright s texts the author shows how Kane embraces violence as a metaphor of the various sufferings both love and life perpetrate upon the human being Locked beneath the revolting cruelties we can find a vivid theatricality powerful images and a unique rhythm and sound of language

The Memory of Tiresias Mikhail Iampolski,1998-10-26 The concept of intertextuality has proven of inestimable value in recent attempts to understand the nature of literature and its relation to other systems of cultural meaning In The Memory of Tiresias Mikhail Iampolski presents the first sustained attempt to develop a theory of cinematic intertextuality Building on the insights of semiotics and contemporary film theory Iampolski defines cinema as a chain of transparent mimetic fragments intermixed with quotations he calls textual anomalies These challenge the normalization of meaning and seek to open reading out onto the unlimited field of cultural history which is understood in texts as a semiotically active extract already inscribed Quotations obstruct mimesis and are consequently transformed in the process of semiosis an operation that Iampolski defines as reading in an aura of enigma In a series of brilliant analyses of films by D W Griffith Sergei Eisenstein and Luis Bu uel he presents different strategies of intertextual reading in their work His book suggests the continuing centrality of semiotic analysis and is certain to interest film historians and theorists as well as readers in cultural and literary studies
