Thomas Payne, 1770 Tollywood Magazine September 2012, Issue 9, Vol 9, *No Place to Run* Tim Cook, 2011-11-01 Historians of the First World War have often dismissed the important role of poison gas in the battles of the Western Front In *No Place to Run* however Tim Cook shows that the serious threat of gas did not disappear with the introduction of gas masks By 1918 gas shells were used by all armies to deluge the battlefield and those not instructed with a sound anti gas doctrine left themselves exposed to this new chemical plague Cook uses fascinating primary sources diaries letters reminiscences published memoirs and the official archival record to illustrate the horror of gas warfare for the

average trench soldier As the first chlorine clouds rolled across the fields during the 2nd Battle of Ypres soldiers were forced to stuff urine soaked handkerchiefs in their mouths in order to survive As the gas war evolved mustard gas plagued the soldiers at the front as it lay active in mud and snow for weeks on end There was no escape from the pervasive nature of poison gas Entering the dug outs it attacked men when they were least ready In response the Canadian Corps had to develop an anti gas doctrine a process that Cook describes in full No Place to Run provides a challenging re examination of the function of gas warfare in the First World War including its important role in delivering victory in the campaign of 1918 and its curious postwar legacy It will be of interest both to historians and military buffs
