Zwier, David L. Weddle, Timothy D. Knepper, 2022-11-03 This volume provides a comparative philosophical investigation into a particular concept from a variety of angles in this case the concept of miracle The text covers deeply philosophical questions around the miracle with a multiplicity of answers Each chapter brings its own focus to this multifaceted effort The volume rejects the primarily western focus that typically dominates philosophy of religion and is filled with particular examples of miracle narratives community responses and polemical scenarios across widely varying religious contexts and historical periods Some of these examples defy religious categorization and some papers challenge the applicability of the concept miracle which is of western and monotheistic origin By examining miracles
