The Book of the Incipit D. Vance Smith, 2001 Smith offers a theoretical understanding of beginning that departs from the structuralisms of Edward Said the traditional formalisms of A D Nuttall and most medievalist and modernist treatments of closure Instead he views a work s beginning as a figure of the beginning of the work itself and the inception of language as the problem of beginning to which we continually return BOOK JACKET Catalog of Judeo-Persian Manuscripts in the Library of the Jewish Theological Seminary of America Vera Basch Moreen, 2014-09-04 Winner of the 2015 Bibliography Award from the Association of Jewish Libraries The AJL Judaica Bibliography Award was established to encourage the publication of outstanding Judaica bibliographies The intellectual legacy of the ancient community of Iranian Jews rests in several large but neglected Judeo Persian manuscript collections The largest in the West and the third largest collection in the world 198 manuscripts belongs to the Library of the Jewish Theological Seminary of America New York Primarily a work of reference this Catalog informs scholars in the fields of Judaica and Iranica about the range of subjects history poetry medicine philology etc that engaged Iranian Jews between the fifteenth and nineteenth centuries It reflects the intellectual parameters of Iranian Jewry by describing the extent to which they were acquainted with classical Jewish texts while they were deeply enmeshed in the literary and artistic sensibilities of their Iranian environment **Alfredian Prologues and Epilogues** Susan Irvine, 2024-02-08 This new edition with facing page modern English translation collects together the Old English prologues and epilogues to literary works associated with King Alfred *Scriptural Incipits on Amulets from Late Antique Egypt* Joseph E. Power,2017-07-05 The experience of music performance is always far more than the sum of its sounds and evidence for playing and singing techniques is not only inscribed in music notation but can also be found in many other types of primary source materials This volume of essays presents a cross section of new research on performance issues in music of the Middle Ages and Renaissance The subject is approached from a broad perspective drawing on areas such as dance history art history music iconography and performance traditions from beyond Western Europe In doing so the volume continues some of the many lines of inquiry pursued by its dedicatee Timothy J McGee over a lifetime of scholarship devoted to practical questions of playing and singing early music Expanding the bases of inquiry to include various social political historical or aesthetic backgrounds both broadens our knowledge of the issues pertinent to early music performance and informs our understanding of other cultural activities within which music played an important role The book is divided into two parts Viewing the Evidence in which visually based information is used to address particular questions of music performance and Reconsidering Contexts in which diplomatic commercial and cultural connections to specific repertoires or compositions are considered in detail This book will be of value not only to specialists in early music but to all scholars of the Middle Ages and Renaissance whose interests intersect with the visual aural and social aspects of music performance

Exaltation of the Cross Louis van Tongeren,2000 The origin development and spread of the feast of the Exaltation of the Cross is traced on the basis of liturgical sources and through a careful examination of the liturgical textual material the meaning of the feast is analyzed with respect to its content Among the important points receiving attention in this analysis are the place function and significance of the Cross relic and the theology of the Cross or the process whereby the understanding of the Cross was shaped as that was invested in the feast The research is based on sources of Western liturgy from the early Middle Ages and therefore has bearing on the period in the West in which a multiform liturgy celebrated according to various indigenous local and regional traditions gradually made way for one uniform Latin liturgy patterned on Roman models The feast of the Exaltation of the Cross spread through the West from Rome within this context of standardization and Romanization This raises questions about the uniformity and the Roman content of the feast This study especially examines to what degree indigenous interpretations of the Cross which were part of the legacy of the Hispanic and Gallican traditions in particular continued to be preserved through the liturgical books of the early Middle Ages

Shenoute's Literary Corpus Stephen Emmel,2004 T 111 Shenoute s Literary Corpus Volume One t 112 Shenoute s Literary Corpus Volume Two **Unlocking the Puzzle** David Oliver Smith,2016-11-22 A shorter simpler first draft of the Gospel of Mark has been theorized by New Testament scholars for almost two hundred years Using literary tools David

Oliver Smith strips away interpolation and redaction from the canonical Gospel to reveal that long sought first draft the Original Gospel of Mark Original Mark shorter than the canonical version and with several large blocks of text replaced in their original locations reveals a coherent structure and a different picture of who Jesus is But it is anything other than simple The Original Gospel also presents puzzles for the curious reader of Mark to solve and Smith has found the keys to their solution Analysis of the text that was interpolated into Mark reveals who that redactor might have been Evidence is presented that it was the author of the Gospel of Luke who redacted the first written Gospel jumbled its structure and changed its Christology Follow the analysis of literary structures created by the genius who wrote Mark's Gospel and discover the astounding design of the Original Gospel of Mark Bible Missals and the Medieval Dominican Liturgy

Innocent Smith,2023-11-06 Bible Missals are manuscripts that integrate liturgical prayers for the Mass with the scriptural texts of the Latin Vulgate Long overlooked by scholars Bible Missals offer important evidence for the development of the medieval liturgy and the liturgical use of scripture by medieval Christians This monograph is the first comprehensive analysis of the codicology and contents of Bible Missals Mostly produced in the first half of the 13th century by professional book makers in centers like Paris and Oxford these hybrid manuscripts were customized for secular monastic and mendicant patrons This monograph focuses on Dominican Bible Missals the largest group within the repertoire providing detailed codicological descriptions of each manuscript and analyzing their texts for the Order of Mass and selected liturgical formularies including prayers for the feast of St Dominic For medieval Christians the words and events of scripture were continually called to mind and reenacted in the sacramental rites of the Mass Bible Missals provide important material evidence for this interplay between word and sacrament **Rubrics, Images and Indulgences in late Medieval**

Netherlandish Manuscripts Kathryn M. Rudy,2016-11-28 What role did images play in the mania for indulgences during the decades prior to the Protestant Reformation Rubrics Images and Indulgences in Late Medieval Netherlandish Manuscripts considers how indulgences the remission of time in Purgatory were used to market certain images Conversely images helped to spread indulgences such as those attached to the Virgin in sole and the Mass of St Gregory Images also began depicting the effects of indulgences souls escaping Purgatory Drawing on numerous unpublished sources Kathryn M Rudy demonstrates how rubrics modified behaviour and expectations around image centred devotion Her work is the first to analyse systematically the way that indulgences and images interacted indeed shaped each other prior to the Reformation

Kelber, Bruce D. Chilton, 2022-09-21 As form criticism arose the French anthropologist Marcel Jousse developed a hermeneutical paradigm global in scope and prescient in its vision but opposed to the philological paradigm of biblical studies While the philological methodology came to define modernity's biblical hermeneutics Jousse's rhythmically energized paradigm was marginalized and largely forgotten Although Jousse has left relatively few traces in writing many of his more than one thousand lectures delivered at four different academic institutions in Paris between 1931 and 1957 have been edited and translated into English by Edgard Sienaert *The Forgotten Compass* surveys Jousse's views on biblical tradition and scholarship documenting the relevance of his paradigm for current biblical studies What distinguishes Jousse's paradigm is that it is firmly established within the orbit of ancient communications and deeply rooted in Jewish tradition *The Forgotten Compass* challenges readers to come to appreciate the print Bible's lack of fluency in the very sensibilities privileged by Jousse's paradigm and to raise consciousness about the multivocal multisensory culture in which the biblical traditions emerged and from which they drew their initial nourishment

Memory and Narrative at the Origin of the Novel Lorenzo Mainini, 2023-08-14 This book investigates certain recurrent structures in the history of the novel as a textual genre and as a narrative form typical of Western literature From its origins in the vernacular cultures of the twelfth and thirteenth centuries the novel text seems to be characterised by certain stylistic procedures adopted to represent a new narrative framework which has no direct terms of comparison in the previous literary tradition Indeed the novel as a textual machine often produces a narrative manipulation of time and duration to the point of establishing along its development a very close link between History individual memory and a prospective narrative future This book explores some structural and formal paths of the novelistic machine through three exemplary cases 1 the name of the novel at the origins of the literary genre with the invention of a new novelistic technique i.e. the conjointure by Chr tien de Troyes twelfth century 2 the bookform namely the book of novels as a concrete and material object that transmits the narrative text and involves itself within the fictional universe 3 the literary topos of the dreaming incipit and its long history from the Roman de la rose to Proust This book will be of significant interest to students and scholars of medieval literature the history of the novel and philology
