Of American Values And Virtues

Gary Clifford Gibson

Of American Values And Virtues:

The Virtues of Captain America Mark D. White, 2024-06-26 Learn how Captain America's timeless ethical code is just as relevant in the twenty first century as it was during the 1940s Captain America or simply Cap provides an example of the virtues that define personal excellence as well as the ideals and principles upon which the United States of America was founded In *The Virtues of Captain America* philosopher and long time comics fan Mark D White shows us that this fictional superhero's old fashioned moral code is exactly what we need today to restore kindness and respect in our personal and civic lives Presenting Captain America's personal morality within a virtue ethics framework the book opens with an introduction to basic concepts in moral and political philosophy and addresses issues surrounding the use of fictional characters as role models The following chapters examine Captain America in detail exploring the individual virtues that Cap exemplifies the qualities that describe his moral character his particular brand of patriotism his ongoing battle with fascism his personal vision of the American Dream his moral integrity and sense of honor and much more Now in its second edition *The Virtues of Captain America* is updated to include all the new developments in Captain America's saga including new examples from the last ten years of Captain America's appearances in Marvel Comics New coverage of the recent Secret Empire storyline in which Captain America was brainwashed by the fascist organization Hydra features new sections examining the nature of fascism and how Captain America's character and virtues were affected by the change This edition also offers new material on Sam Wilson formerly Captain America's partner the Falcon who recently became Captain America himself and how his interpretation of the role compares to Steve Rogers Showing how we can be better people if we pay attention to the choices made by the Sentinel of Liberty *The Virtues of Captain America* Examines the moral and political philosophy behind 80 years of Captain America comics and movies in a light hearted often humorous tone Demonstrates that the core principles and judgment exhibited by Captain America in the 1940s remain relevant in the twenty first century Describes the basic themes of Captain America's ethics such as courage humility perseverance honesty and loyalty Illustrates how Captain America stands for the basic ideals of America not its politics or government Requiring no background in philosophy or familiarity with the source material the second edition of *The Virtues of Captain America* Modern Day Lessons on Character from a World War II Superhero remains a must read for everyone wanting to make ethical decisions in complex real world situations and tackle the personal and political issues of today with integrity and respect

Reclaiming American Virtue Barbara J. Keys, 2014-02-17 The American commitment to promoting human rights abroad emerged in the 1970s as a surprising response to national trauma In this provocative history Barbara Keys situates this novel enthusiasm as a reaction to the profound challenge of the Vietnam War and its aftermath Instead of looking inward for renewal Americans on the right and the left looked outward for ways to restore America's moral leadership Conservatives took up the language of Soviet dissidents to resuscitate the Cold War while liberals sought to dissociate from brutally repressive allies like Chile and South

Korea When Jimmy Carter in 1977 made human rights a central tenet of American foreign policy his administration struggled to reconcile these conflicting visions Yet liberals and conservatives both saw human rights as a way of moving from guilt to pride Less a critique of American power than a rehabilitation of it human rights functioned for Americans as a sleight of hand that occluded from view much of America's recent past and confined the lessons of Vietnam to narrow parameters From world's judge to world's policeman was a small step and American intervention in the name of human rights would be a cause both liberals and conservatives could embrace The Rise of Anti-Americanism Brendon O'Connor, Martin

Griffiths, 2007-05-07 Is anti Americanism one of the last respectable prejudices or are accusations of anti Americanism a way to silence reasonable criticism of the United States Is the recent rise in anti Americanism principally a reaction to President George W Bush and his administration or does it reflect a general turn against America and Americans Have we moved from the American century to the anti American century with the United States as the whipping boy for a growing range of anxieties Can the United States recapture the international good will generally extended towards it in the days following 11 September 2001 These key questions are tackled by this new book which offers the first comprehensive overview of anti Americanism in the twenty first century Examining what is sensibly called anti Americanism and its principal sources this study details how the Bush administration has provoked a recent upsurge in anti Americanism with its stances on a range of issues from the Kyoto Protocol to the war in Iraq However the spread of anti Americanism reflects deeper cultural and political anxieties about Americanization and American global power that will persist beyond the Bush administration At the heart of much of the recent anti Americanism is opposition in the Middle East and elsewhere to US support of Israel This crucial issue is explored in depth as is the associated claim of a clash of civilizations between Islam and the West and the rise of anti American terrorism This book will be of great interest to all students and scholars of American Studies International Relations and Politics **Ambition in America** Jeffrey A. Becker, 2014-05-22 Most Americans admire the determination and drive of artists athletes and CEOs but they seem to despise similar ambition in their elected officials The structure of political representation and the separation of powers detailed in the United States Constitution *America the Virtuous* Claes G.

Ryn, 2017-07-05 Urged on by a powerful ideological and political movement George W Bush committed the United States to a quest for empire American values and principles were universal he asserted and should guide the transformation of the world Claes Ryn sees this drive for virtuous empire as the triumph of forces that in the last several decades acquired decisive influence in both the American parties the foreign policy establishment and the media Public intellectuals like William Bennett Charles Krauthammer William Kristol Michael Novak Richard Perle and Norman Podhoretz argued that the United States was an exceptional nation and should bring democracy freedom and capitalism to countries not yet enjoying them Ryn finds the ideology of American empire strongly reminiscent of the French Jacobinism of the eighteenth century He describes the drive for armed world hegemony as part of a larger ideological whole that both expresses and aggravates a crisis of

democracy and more generally of American and Western civilization America the Virtuous sees the new Jacobinism as symptomatic of America shedding an older sense of the need for restraints on power Checks provided by the US Constitution have been greatly weakened with the erosion of traditional moral and other culture

Sexual Harassment on College Campuses Michele Antoinette Paludi,1996-01-01 An updated and expanded revision of the first edition which received the Gustavus Myers Center Award for an outstanding book on Human Rights in the United States Intended for administrators and faculty it is also a resource book for individuals wanting to make changes in their campus policy and procedures with regard to sexual harassment

Japan and the Pursuit of a New American Identity Walter Feinberg,2023-10-27 First published in 1993 Japan and the Pursuit of a New American Identity is a sophisticated analysis of the mission of education in a multicultural age Arguing that American education has been too long constrained by conservative discourse which positions schools and students as weapons in an international competition with the Japanese author Walter Feinberg assesses the cultural and philosophical limits of conservative vision as popularized by exponents Allan Bloom and E D Hirsch Feinberg then develops a vision of education which accommodates the growing cultural diversity of American society and American schools At the heart of Feinberg s study is a unique philosophical analysis of Japanese and American attitudes towards work and education Through a series of sensitively developed interview with American and Japanese workers managers parents and teachers who have experienced life in one another s culture he examines the implications of our profound cultural differences with the Japanese for the development of a new American multicultural identity This book will be of interest to students of education pedagogy history and public policy

The New Middle Classes Arthur J. Vidich,2016-07-27 This volume is designed first to provide a theoretical orientation and historical perspective on the rise of the middle classes in modern civilization and second to portray the social and political roles these classes have played and continue to play in the United States over the past century with particular reference to the American class structure and political economy Our method is necessarily both historical and sociological and offers an orientation for understanding contemporary American society The essays included here were written between 1926 and 1982 they reveal both the genealogical development of sociological thought about the middle classes and the substantive content of these classes life styles status claims and political orientations The present work stresses empirical studies and puts forth neither a theoretical interpretation nor a conceptual taxonomy rather it delineates the emergence and the social and political significance of the new middle classes in relation to the classes above and below that preceded them

Dangerous Music? - 'Explicit' Lyrics in the United States of America Julian Weller,2024-07-22 This book discusses the history of music warning labels specifically the Parental Advisory Label PAL and the Parents Music Resource Center PMRC It aims to answer these questions How could the PMRC trigger a debate on music lyrics as a negative influence on children that led to the introduction of the PAL in the long run What did the implementation of the PAL warning mean for musicians and how had the perception of music changed so that

the advisory label was deemed necessary The central thesis is that through the discourse on explicit lyrics certain music was marked as an actual threat to children and society and consequently started to be perceived as such By the way in which the discourse evolved and how other actors conducted themselves in the debates this understanding of certain music was repeatedly re negotiated and connected to other current discourses such as discourses on family values sexuality youth culture generational conflicts and social problems Through this the understanding of certain music as a threat to children and society was constantly renewed The book analyses the PMRC s campaign on explicit lyrics and provides insights into their strategy and success from a historical perspective

Vision and Virtue Stanley Hauerwas, 2025-02-15 Christian Ethics has been far too concerned with ethical decision making It would seem that both the advocates of situation ethics with their ever more outlandish paradigms and the proponents of traditional moral theology with their carefully qualified abstract deliberations have focused too narrowly upon the individual faced with a moral choice This collection of essays comes as a much needed change Whereas others have bemoaned the state of Christian ethics today Hauerwas has attempted to work out a serious alternative to the situationists and to the traditional moral theologians The book is divided into three parts The first and perhaps most important deals with theoretical and methodological issues The second under the title the new morality and normative ethics applies his method to a number of areas of individual morality such as abortion and euthanasia The third tackles certain problems in social ethics namely the non resistant church politics and American culture

Value and Virtue in Public Administration P. Kim, 2011-10-17 A multidisciplinary analysis of the role of values and virtue in public administration this book calls for a rediscovery of virtue It explores ways of enabling the public sector to balance the values that are presently dominant with classic values such as accountability representation equality neutrality transparency and the public interest

Between Virtue and Power John Kane, 2008-01-01 In this survey of U S history John Kane looks at the tensions between American virtue and power and how those tensions have influenced foreign policy Americans have long been suspicious of power as a threat to individual liberty Kane argues and yet the growth of national power has been perceived as a natural byproduct of American virtue This contradiction has posed a persistent crisis that has influenced the trajectory of American diplomacy and foreign relations for more than two hundred years Kane examines the various challenges including emerging Nationalism isolationism and burgeoning American power which have at times challenged not only foreign policy but American national identity The events of September 11 2001 rekindled Americans sense of righteousness the author observes but the subsequent use of power in Iraq has raised questions about the nation s virtue and as in earlier days cast a deep shadow over its purpose and direction

Mouse Morality Annalee R. Ward, 2002-12-01 Kids around the world love Disney animated films and many of their parents trust the Disney corporation to provide wholesome moral entertainment for their children Yet frequent protests and even boycotts of Disney products and practices reveal a widespread unease with the sometimes mixed and inconsistent moral values espoused in Disney films as the company

attempts to appeal to the largest possible audience In this book Annalee R Ward uses a variety of analytical tools based in rhetorical criticism to examine the moral messages taught in five recent Disney animated films The Lion King Pocahontas The Hunchback of Notre Dame Hercules and Mulan Taking the films on their own terms she uncovers the many mixed messages they purvey for example females can be leaders but male leadership ought to be the norm stereotyping is wrong but black means evil historical truth is valued but only tell what one can sell etc Adding these messages together Ward raises important questions about the moral ambiguity of Disney s overall worldview and demonstrates the need for parents to be discerning in letting their children learn moral values and life lessons from Disney films *Criminological Theories* Suzette Cote,2002-03-19

This anthology is a superb collection of 36 articles covering all of the major theories past and present that inform criminology today What truly sets this volume apart is the inclusion of many articles discussing novel and often overlooked perspectives in criminological theory In fact many of these articles have never before been included in a reader Each article is framed by an introductory overview discussing the article s importance the context for its development and the author and concludes with discussion questions These articles include a thorough examination of topics such as white collar crime and developmental criminology as well a discussions of integrated theories that consider genetics psychology and environmental approaches As most journal articles are typically written for a professional audience the original articles have been substantially edited and abridged to make them more accessible to students The resulting reader will prove to be an invaluable resource for any undergraduate or graduate course where criminological theory plays a central role **The**

Machiavellian Moment John Greville Agard Pocock,2016-10-04 Originally published in 1975 The Machiavellian Moment remains a landmark of historical and political thought Celebrated historian J G A Pocock looks at the consequences for modern historical and social consciousness arising from the ideal of the classical republic revived by Machiavelli and other thinkers of Renaissance Italy Pocock shows that Machiavelli s prime emphasis was on the moment in which the republic confronts the problem of its own instability in time which Pocock calls the Machiavellian moment After examining this problem in the works of Machiavelli Guicciardini and Giannotti Pocock turns to the revival of republican ideology in Puritan England and in Revolutionary and Federalist America He argues that the American Revolution can be considered the last great act of civic humanism of the Renaissance and he relates the origins of modern historicism to the clash between civic Christian and commercial values in eighteenth century thought This Princeton Classics edition of The Machiavellian Moment features a new introduction by Richard Whatmore Wealth and Virtue Istvan Hont,Michael Ignatieff,1986-01-30

Wealth and Virtue reassesses the remarkable contribution of the Scottish Enlightenment to the formation of modern economics and to theories of capitalism Its unique range indicates the scope of the Scottish intellectual achievement of the eighteenth century and explores the process by which the boundaries between economic thought jurisprudence moral philosophy and theoretical history came to be established Dealing not only with major figures like Hume and Smith there are also studies of

lesser known thinkers like Andrew Fletcher Gershom Carmichael Lord Kames and John Millar as well as of Locke in the light of eighteenth century social theory the intellectual culture of the University of Edinburgh in the middle of the eighteenth century and of the performance of the Scottish economy on the eve of the publication of the Wealth of Nations While the scholarly emphasis is on the rigorous historical reconstruction of both theory and context Wealth and Virtue directly addresses itself to modern political theorists and economists and throws light on a number of major focal points of controversy in legal and political philosophy

Raising Your Kids Right Michelle Ann Abate,2010 Michelle Ann Abate examines a variety of texts that offer information ideology and even instructions on how to raise kids right not just figuratively but politically Highlighting the works of William Bennett Lynne Cheney Bill O Reilly and others she brings together such diverse fields as cultural studies literary criticism political science childhood studies brand marketing and the cult of celebrity from publisher description

Waveform Politics Volume Two; Peoples, Borders & Spirit Gary Clifford Gibson,2005-10-14 These are Gary Clifford Gibson's political and philosophical essays developing a contemporary historical analysis and synthesis of select American macro social and international events of the years 1999 through 2002 Global waveform politics were a dominant practice of corporatist elites in the late 20th and early 21st centuries these essays are from the perspective of an ordinary citizen as an outsider in relation to the inside world of the corporate cognoscenti's axis of propaganda for power Political events following the 2001 terrorist incidents in New York and Washington D C as well as Florida continued to dominate the American arena leading to reaction and conflicts with Afghanistan and Iraq premised to contain terrorism

The American Midwest Andrew R. L. Cayton,Richard Sisson,Chris Zacher,2006-11-08 This first ever encyclopedia of the Midwest seeks to embrace this large and diverse area to give it voice and help define its distinctive character Organized by topic it encourages readers to reflect upon the region as a whole Each section moves from the general to the specific covering broad themes in longer introductory essays filling in the details in the shorter entries that follow There are portraits of each of the region's twelve states followed by entries on society and culture community and social life economy and technology and public life The book offers a wealth of information about the region's surprising ethnic diversity a vast array of foods languages styles religions and customs plus well informed essays on the region's history culture and values and conflicts A site of ideas and innovations reforms and revivals and social and physical extremes the Midwest emerges as a place of great complexity signal importance and continual fascination

With a Happy Eye, But... George F. Will,2003-09-02 In his seventh collection Will examines more than five years of his observations on politics the economy justice international relations and not least the death of Princess Diana a brilliantly diverse collection from an extraordinarily diverting mind
