Abdel-Khalek, 2020-11-09.

Measurement is an important concern for the progress of psychology both as a basic science and as a field of application. The development of psychological research and practice would not be possible without sound assessment and measuring procedures. This book presents a collection of personality and psychopathology scales developed originally in Arabic and translated into English since self reports and questionnaires play a prominent role in psychological research and practice as they are simple and cost less than other methods of assessment. Furthermore, these scales are suitable in surveys and epidemiological studies with large samples. This book will be useful in different disciplines such as psychology, psychiatry, epidemiology, gerontology, social work, and social sciences.

Youniverse R. C. W. Ettinger, 2009. Innovative and important thinking about the various relations between feminist theory, queer theory, and lesbian theory, as well as the possibility that liberation can be mutual rather than mutually exclusive. Lambda Book Report. When feminism meets queer theory, no introductions seem necessary. The two share common political interests: a concern for women's and gay and lesbian rights and many of the same academic and intellectual roots. And yet they can also seem like strangers needing mediation, translation, clarification. This volume focuses on the encounters of feminist and queer theories on the ways in which basic terms such as male and female, man and woman, black and white, sex, gender, and sexuality change meaning as they move from one body of theory to another. Along with essays by Judith Butler, Evelyn Hammonds, Biddy Martin, Kim Michasiw, Carole Anne Tyler, and Elizabeth Weed, there are interviews with Judith Butler, engages Rosi Braidotti, and

Gayle Rubin in separate revealing discussions And there are critical exchanges Rosi Braidotti and Trevor Hope exchange comments on his reading of her work and Teresa de Lauretis responds to Elizabeth Grosz s review of her recent book
