All One Universe Poul Anderson, 1997-05-15

Themes of a colorful assortment of stories range from life on other planets to alternative history a perfect introduction to his perennial genius. Booklist Poul Anderson himself has put together a retrospective collection of his recent writings fiction and nonfiction under the title All One Universe. This is the first major Poul Anderson collection in a decade. It encompasses all his strengths as a teller of tales and in addition provides a running commentary in the story notes and in the essays on other literary figures such as Rudyard Kipling, Johannes B. Jensen and John W. Campbell Jr. commentary that illuminates the fiction gives personal insight into the mind of this fine writer and provides a unifying personality for All One Universe. All One Universe then represents the new best of Poul Anderson. It is a rich varied selection of quintessential science fiction as well as four essays mostly from recent years by one of the great science fiction writers of the century. His stories are filled with roaring energy the soul of poetry and dark imaginings. A fine introduction to one of SF's masters. Starlog Fact and fiction shaped by one of SF's keenest minds are mingled in this collection. On the whole All One Universe is a collection which does its creator proud while delighting his fans. Rapport Poul Anderson's writings have been at a remarkably high consistent level of quality for nearly fifty years now. All One Universe is a book for anyone interested in either SF or in craftsmanship. David Drake

The Burning Bridge Poul Anderson, 2011-05 Usually there are two reasons why something is done the reason why it needs to be done and quite separate the reason people want to do it. The foul up starts when the reason for wanting is satisfied and the need remains. The fleet numbered fifteen more than half the interstellar ships humankind possessed. But Earth's overlords had been as anxious to get rid of the Constitutionals the most stubborn ones at least the stay at homes were ipso facto less likely to be troublesome as that science minded liberty minded group of archaists were to escape being forcibly absorbed by modern society. Rustum e Eridani II was six parsecs away forty one years of travel and barely habitable but the only possible world yet discovered. A successful colony would be prestigious and could do no harm its failure would dispose of a thorn in the official ribs. Tying up fifteen ships for eight decades was all right too. Exploration was a dwindling activity which interested fewer men each generation.
