

The background of the entire image is a deep space scene filled with stars, galaxies, and nebulae. Overlaid on this is a complex diagram of concentric circles and arcs, resembling a celestial map or a model of planetary orbits. In the center of these orbits is a large sphere that is split vertically down the middle. The left half of the sphere is a bright, fiery orange-red, while the right half is a deep, ethereal blue. The text is superimposed on this central graphic.

Book Of Reincarnation:

The Book of Reincarnation Sirona Knight, 2002 In this absorbing new study the author presents basic concepts that are common to the varied doctrines of reincarnation in diverse cultures and religions Twenty Cases Suggestive of Reincarnation Ian Stevenson, 1980 Cases of responsive xenoglossy thus add to the evidence concerning the survival of human personality after death **Reincarnation** Elizabeth Clare Prophet, Erin L. Prophet, 1997 A long time ago Christians believed in reincarnation This groundbreaking work makes the case that Jesus taught reincarnation Elizabeth Clare Prophet traces the history of reincarnation in Christianity from Jesus and early Christians through Church councils and the persecution of so called heretics Using the latest scholarship and evidence from the Dead Sea Scrolls and Gnostic texts she also argues persuasively that Jesus was a mystic who taught that our destiny is to unite with the God within Your view of Jesus and of Christianity will never be the same *Reincarnation* Joel Bjorling, 2013-08-21 First Published in 1996 You may have lived before As a matter of fact you may have experienced countless lifetimes This statement constitutes the basic premise of reincarnation which is also called transmigration and metempsychosis This volume explores the origins and development of the belief of reincarnation **Truth of Rebirth** Mahesh Sharma, Science tells us that on this earth there is no such phenomenon called as Rebirth and medical science tells us that there is another life after this birth Most of the religions to support this phenomenon but it is still impossible to tell as though how can a person take a rebirth after dying once According to Hindu religion principles of rebirth are very important It tells us that before this birth we already have taken infinite births and passed through this cycle of death and rebirth This world of the cycle of rebirth keeps a dense meaning about it Though everyone is aware of the word cycle of rebirth many do not know the actual meaning of the word Generally everyone takes it as world and worldly things According to Hindu religion we come in this world again and again and afterward we pass into more minute and a bigger world This way we die and take birth again and again If we believe in the Hindu mythology then according to them the soul travels in the atmosphere visits places such as hell and heaven but in the end it has to enter its body again The astrologers also believe this and thus most of their predictions resolve in this matter According to them we are rewarded or punished according to our deeds we either get it in our lifetime or in our next birth Our deeds form our stars and we take birth according to our stars This process can take years or even decades The Hindus strongly believe in it Before becoming a human being our soul has entered almost a thousand bodies The word universe has very deep meaning to which not everyone is known Everybody knows the word but not the meaning and significance behind it A common man may describe it as the world in which we live but the Hindu mythology believes that there are different worlds in which we go according to our deeds In this way we take several births and even die several times Saint Shankaracharya has explained this in his hymns in the book Bhaj Govindam as Rebirth and Redie in other words again and again die and take birth again and again This circle of life and death is referred to as the universe It is not only the Hindus

that believe in this process but also the other religions though they have their separate explanations and thus they try to please their ancestors by praying to them on a particular day in this way or the other way The scientists don't believe in hell heaven and rebirth but what evidences they have got cannot also be said to be untruths or simply nothing One such thing is that what is the thing which enters a person's mind after his death and fills it with memories of his past life To answer this question even the scientists have to believe in such things

Life After Death: Why Reincarnation Is the Only Afterlife Option Barry Rose, 2012-12-18 Life After Death Why Reincarnation Is The Only Afterlife Option may be a bit of a controversial topic as there are those that are of the opinion that reincarnation is a fallacy so it could never be an option for the afterlife This is what makes it so interesting It just peaks the curiosity to find out what information the author has presented to support this train of thought Though we have made much advancement as a people life after death remains one of the most challenging and mysterious topics that we have to explore A lot of research is being done and as the results come in we learn more This book helps with that learning as there is a lot of information presented that does get the minds thinking We get an insight into what the afterlife is and how reincarnation fits into that and why in the long run it turns out to be not just the best but the only option for the afterlife To learn why this option is so beneficial one has to just turn the page and start reading The author has put all of his efforts into this book and it shows

Exploring Reincarnation Hans TenDam, 1990 **The Four Great Questions of Life** James N. Judd, Ms.D., D.D., N. James, 2000-03-16 Rare is the person who at some time or another has not found himself herself pondering one or more of the four great questions of life Who am I Where did I come from What is my purpose And Where am I going Such questions invariably arise when there is some crisis in one's personal affairs but due to the emotional confusion that usually accompanies such crises it is difficult to reason out answers to such profound metaphysical questions Answers appear in the world's religions but there is such a variance of opinion between the different theologies that trying to find a definitive solution among all of those divergent teachings only develops more confusion There is however a common inner or mystical foundation to all religions that supports their man made dogmas creeds and rituals which provides the clear answers all of us are looking for This consistency and enduring nature of the ideas that form this foundation or ground of religion has resulted in those ideas being collectively referred to as the Perennial Philosophy of mysticism There can be some difficulty however in finding the answers within this Perennial Philosophy because the concepts are metaphysical in nature and this means they are beyond the range of our normal linear way of thinking and so not readily obvious They are so to speak locked up and a key is needed for us to be able to discover their wisdom In this book *The Four Great Questions of Life* Dr Judd provides that key and Clearly shows where these answers appear in various religious teachings Uses down to earth illustrations to explain what they mean Shows the universal application of the ideas embodied in the Christian Trinity Describes how the Law of Karma cause effect and Reincarnation are compatible with Christianity Provides a logical explanation and definition that removes the mystery of the nature of good and evil For anyone who has ever struggled to find any meaning in such questions

as Who am I What is my purpose in living and so on this book offers clear cut and practical answers which irrespective of one's religious background show the way to a happy and fulfilling life
