Come Shouting to Zion Sylvia R. Frey, Betty Wood, 2000-11-09 The conversion of African born slaves and their descendants to Protestant Christianity marked one of the most important social and intellectual transformations in American history Come Shouting to Zion is the first comprehensive exploration of the processes by which this remarkable transition occurred Using an extraordinary array of archival sources Sylvia Frey and Betty Wood chart the course of religious conversion from the transference of traditional African religions to the New World through the growth of Protestant Christianity in the American South and British Caribbean up to 1830 Come Shouting to Zion depicts religious transformation as a complex reciprocal movement involving black and white Christians It highlights the role of African American preachers in the conversion process and demonstrates the extent to which African American women were responsible for developing distinctive ritual patterns of worship and divergent moral values within the black spiritual community Finally the book sheds light on the ways in which by serving as a channel for the assimilation of Western culture into the slave quarters Protestant Christianity helped transform Africans into African Americans Igniting the Caribbean's Past Bonham C.

Richardson, 2005-12-15 Unlike the earthquakes and hurricanes that have influenced Caribbean history the region s fires have

almost always been caused by humans Geographer Bonham C Richardson explores the effects of fire in the social and ecological history of the British Lesser Antilles from the British Virgin Islands south to Trinidad Focusing on the late nineteenth century leading to the 1905 withdrawal of British military forces from the region Richardson shows how fire lit social upheavals served as forerunners of political independence movements Drawing on Caribbean and London archives as well as years of fieldwork Richardson examines how villagers used modified and contemplated fire in part to vent their frustrations with a savage economic depression and social and political inequities imposed from afar He examines fire in all its forms from protest torches to sugarcane fires that threatened the islands economic staple Richardson illuminates a neglected period in Caribbean history by showing how local uses of fire have been catalysts and even causes of important changes in the region

Slavery and Capitalism David McNally, 2025 The first systematic Marxist account of the capitalist character of Atlantic slavery Karl Marx's writings on enslavement and labor have fallen out of favor among historians but David McNally injects new life into them Slavery and Capitalism gives the first systematic Marxist account of the capitalist character of Atlantic slavery using colonial travel literature planter records and diaries and slave narratives to support the provocative claim for enslaved labor in the plantation system as capitalist commodity production Weaving together history political economy and radical abolitionism McNally demonstrates that plantation slaves formed a modern working class Unlike those scholars who insist that enslaved people were too sensible to set their sights on liberty he highlights the self activity of enslaved people fighting for their freedom and reframes their resistance as labor struggles over production and reproduction with significant implications for US and Atlantic history and for understanding the roots of racial capitalism

Sea and Land Philip D. Morgan, John Robert McNeill, Matthew Mulcahy, Stuart B. Schwartz, 2022 Sea and Land provides an in depth environmental history of the Caribbean to ca 1850 with a coda that takes the story into the modern era It explores the mixing movement and displacement of peoples and the parallel

ecological mixing of animals plants microbes from Africa Europe elsewhere in the Americas and as far away as Asia It examines first the arrival of Native American to the region and the environmental transformations that followed It then turns to the even more dramatic changes that accompanied the arrival of Europeans and Africans in the fifteenth century Throughout it argues that the constant arrival dispersal and mingling of new plants and animals gave rise to a creole ecology Particular attention is given to the emergence of Black slavery sugarcane and the plantation system an unholy trinity that thoroughly transformed the region s demographic and physical landscapes and made the Caribbean a vital site in the creation of the modern western world Increased attention to issues concerning natural resources conservation epidemiology and climate have now made the environment and ecology of the Caribbean a central historical concern Sea and Land is an effort to integrate that research in a new general environmental history of the region Intended for scholars and students alike it aims to foster both a fuller appreciation of the extent to which environmental factors shaped historical developments in the Caribbean and the extent to which human actions have transformed the biophysical environment of the region over time The combined work of eminent authors of environment and Latin American and Caribbean history Sea and Land offers a unique approach to a region characterized by Edenic nature and paradisiacal qualities as well as dangers diseases and disasters

Out of the House of Bondage Gad Heuman,2022-09-21 Out of the House of Bondage first published in 1986 focuses not on slave rebellions which were of crucial importance but not common occurrences but on the day to day patterns of resistance that directly affected the lives of slaves It examines acts of resistance in both the Americas and Africa and widens the study of runaways and resistance and uses runaways as a means to further analyse slavery and the wider slave population **Crowns of Glory, Tears of Blood** Emília Viotti da Costa,1997 This text explores the 1823 slave rebellion in Demerara now Guyana one of the largest in history The 60 000 black slaves who rose up against their British masters were brutally put down The book looks at the conflict which gave the rebellion life and the forces which finally ended slavery

New Studies in the History of American Slavery Edward E. Baptist,Stephanie M. H. Camp,2006 These essays by some of the most prominent young historians writing about slavery fill gaps in our understanding of such subjects as enslaved women the Atlantic and internal slave trades the relationships between Indians and enslaved people and enslavement in Latin America Inventive and stimulating the essays model the blending of methods and styles that characterizes the new cultural history of slavery s social political and economic systems Several common themes emerge from the volume among them the correlation between race and identity the meanings contained in family and community relationships gender and life s commonplaces and the literary and legal representations that legitimated and codified enslavement and difference Such themes signal methodological and pedagogical shifts in the field away from master slave or white black race relations models toward perspectives that give us deeper access to the mental universe of slavery Topics of the essays range widely including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world the

contradictions of the assimilation of enslaved African American runaways into Creek communities the consequences and meanings of death to Jamaican slaves and slave owners and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy Opening our eyes to the personal the contentious and even the intimate these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom salvation and damnation wealth and exploitation *Hubs of Empire* Matthew Mulcahy,2014-11-03 An introduction to the rich history and culture of the Greater Caribbean the wealthiest region in British America In *Hubs of Empire* Matthew Mulcahy argues that it is useful to view Barbados Jamaica and the British Leeward Islands along with the South Carolina and Georgia Lowcountry as a single region Separated by thousands of miles of ocean but united by shared history and economic interest these territories formed the Greater Caribbean Although the Greater Caribbean does not loom large in the historical imaginations of many Americans it was the wealthy center of Britain s Atlantic economy Large scale plantation slavery first emerged in Barbados then spread throughout the sugar islands and the southeastern mainland colonies allowing planters to acquire fortunes and influence unmatched elsewhere including the tobacco colonies of Maryland and Virginia *Hubs of Empire* begins in the sixteenth century by providing readers with a broad overview of Native American life in the region and early pirate and privateer incursions Mulcahy examines the development of settler colonies during the seventeenth and early eighteenth centuries explores diverse groups of European colonists and surveys political economic and military issues in the decades before the Seven Years War The plantation system achieved its fullest and harshest manifestation in the Greater Caribbean The number of slaves and the scale of the slave trade meant that enslaved Africans outnumbered Europeans in all of the affiliated colonies often by enormous ratios This enabled Africans to maintain more of their traditions practices and languages than in other parts of British America resulting in distinct creole cultures This volume is an ideal introduction to the complex and fascinating history of colonies too often neglected in standard textbook accounts

Laboring Women Jennifer L. Morgan,2011-09-12 When black women were brought from Africa to the New World as slave laborers their value was determined by their ability to work as well as their potential to bear children who by law would become the enslaved property of the mother s master In *Laboring Women* *Reproduction and Gender in New World Slavery* Jennifer L Morgan examines for the first time how African women s labor in both senses became intertwined in the English colonies Beginning with the ideological foundations of racial slavery in early modern Europe *Laboring Women* traverses the Atlantic exploring the social and cultural lives of women in West Africa slaveowners expectations for reproductive labor and women s lives as workers and mothers under colonial slavery Challenging conventional wisdom Morgan reveals how expectations regarding gender and reproduction were central to racial ideologies the organization of slave labor and the nature of slave community and resistance Taking into consideration the heritage of Africans prior to enslavement and the cultural logic of values and practices recreated under the duress of slavery she

examines how women's gender identity was defined by their shared experiences as agricultural laborers and mothers and shows how given these distinctions their situation differed considerably from that of enslaved men. Telling her story through the arc of African women's actual lives from West Africa to the experience of the Middle Passage to life on the plantations she offers a thoughtful look at the ways women's reproductive experience shaped their roles in communities and helped them resist some of the more egregious effects of slave life. Presenting a highly original theoretically grounded view of reproduction and labor as the twin pillars of female exploitation in slavery, *Working Women* is a distinctive contribution to the literature of slavery and the history of women.

The Oxford History of the British Empire: The eighteenth century Peter James Marshall, 1998 Examines the history of British worldwide expansion from the Glorious Revolution of 1689 to the end of the Napoleonic Wars, a crucial phase in the creation of the modern British Empire.

Heiresses Miranda Kaufmann, 2025-10-07 From Jamaica to Charleston, Sierra Leone to India, Australia and back to England, this is the story of the heiresses and the role they played in the history of enslavement. Through the eighteenth and early nineteenth centuries, it was a fact universally acknowledged that any man in want of a great fortune ought to find himself a Caribbean heiress. Their assets, the product of the exploitation of enslaved African men, women, and children, enabled them to marry into the top tiers of the aristocracy and influence society and politics. They fell in love, not always with their husbands, eloped, divorced, squandered fortunes, commissioned art, threw parties, went mad, and in one case faked a daughter's death. In her much anticipated follow-up to *Black Tudors*, Miranda Kaufmann peers beneath our pastel-hued Jane Austen-inspired image of the Georgian heiress to reveal a murky world of inheritance, fortune hunting, and human exploitation. She also unearths the stories of the people the heiresses enslaved, whose labor funded their lifestyles, with whom their fates were intimately intertwined. *Heiresses* provides a compelling and often shocking account of how Britain profited and continues to profit from enslavement. In the vein of landmark books such as *Empire and Natives*, *They Were Her Property*, and *White Debt*, *Heiresses* promises to expand and challenge our understanding of history.
