of Ecocriticism Serpil Oppermann,Ufuk Özdağ,Nevin Özkan,2011-05-25 As we enter the second decade of the twenty first century environmental concerns dominate the media headlines from rampant poverty in the developing world to nuclear accidents in industrialized nations How did human civilization arrive at its current predicaments and what can we do to temper our habits of mind and mitigate society s environmentally and socially destructive behaviors The field of ecocriticism also sometimes called environmental criticism attempts to grapple with such issues A branch of literary and cultural studies that essentially began in North America in the 1970s ecocriticism is currently one of the most quickly developing areas of environmental research and teaching The Future of Ecocriticism New Horizons brings together thirty two of the latest articles in the field including work by some of the leading scholars from around the world Although ecocriticism has been particularly active in North America Western Europe and East Asia important studies of traditional environmental thought environmental communication strategies and environmental aesthetics have begun to emerge in every region of this world This new book co edited by three prominent Turkish scholars and a leading American ecocritic offers a special cluster of Turkish ecocriticism with a focus on environmental stories and ideas in this culture that bridges Europe and Asia Another unique feature of The Future of Ecocriticism New Horizons is the concluding dialogue among the four editors about the current state of the field Early Seljuq History A.C.S. Peacock,2013-02-01 This book investigates the early history of the

Seljuq Turks founders of one of the most important empires of the mediaeval Islamic world from their origins in the Eurasian steppe to their conquest of Iran Iraq and Anatolia The first work available in a western language on this important episode in Turkish and Islamic history this book offers a new understanding of the emergence of this major nomadic empire Focusing on perhaps the most important and least understood phase the transformation of the Seljuqs from tribesmen in Central Asia to rulers of a great Muslim Empire the author examines previously neglected sources to demonstrate the central role of tribalism in the evolution of their state The book also seeks to understand the impact of the invasions on the settled peoples of the Middle East and the beginnings of Turkish settlement in the region which was to transform it demographically forever Arguing that the nomadic steppe origins of the Seljuqs were of much greater importance in determining the early development of the empire than is usually believed this book sheds new light on the arrival of the Turks in the Islamic world A significant contribution to our understanding of the history of the Middle East this book will be of interest to scholars of Byzantium as well as Islamic history as well as Islamic studies and anthropology **SHARED IDENTITY AND**

PHILOSOPHICAL HERITAGE: THE HISTORY OF THOUGHT IN TURKIC CULTURE MAHIRA HUSEYNOVA,ELVIN

TALISHINSKY,BAHA AHMET YILMAZ,FERAHILA BABAYEVA-SHUKUROVA,SHAHISMAYIL ISMAYILOV,CIHANGIR ISHBILIR,2025-08-25 The history of world philosophical thought is mainly based on the study and presentation of the development path of Western philosophy There is an objective reality here Because in Europe philosophy emerged at the level of science even before our era and developed at a great speed The famous Plato Academy which operated in Ancient Greece played an important role in the history of world philosophical thought The names and services of Socrates who is considered the teacher of Western philosophy and Aristotle whom Platos Academy gave to humanity are famous in the world For many years Aristotle has been considered the most powerful representative of world philosophical thought The foundations of the vast majority of scientific fields that exist in the modern world today were laid by Aristotle In the Middle Ages and later periods Western philosophy also had world renowned philosophers such as Georg Hegel Immanuel Kant Friedrich Nietzsche and others Along with all this philosophical thought in the Turkic world has emerged since ancient times and has undergone its own unique development However for several reasons the study and teaching and even the promotion of Turkish philosophical thought has remained in the background First of all since Turkish philosophical thought in ancient times arose and developed mainly through oral folk literature and folklore examples are rightly considered examples of fiction it has not been studied from a philosophical perspective for a long time In my opinion in the light of independence there is a sufficiently rich material for conducting research on philosophical thought in the oral folk literature of each of the Turkic peoples and writing monographs Secondly the socio political and philosophical movements of the Turkic peoples in ancient times and the Middle Ages were largely criticized and not included in the scope of scientific research during the Soviet era which was a strictly atheist society because they were of a religious nature Movements such as Hurufism and Sufism which had been active for a long time in the Middle Ages were generally considered religious vi mystical teachings and presented as reactionary movements outside the scientific circulation Thirdly since the concept of national philosophy was limited during the Soviet period and only the direction of forming a unified Soviet socio philosophical thought was considered a priority the history of philosophical thought of the Turkic peoples was not even remembered Only since the eighties of the 20th century have efforts been made to bring the history of philosophical thought of individual Turkic peoples including Azerbaijan to the agenda In any case the department of History of Azerbaijani Philosophical Thought is one of the relatively young scientific institutions of the Institute of Philosophy and Sociology of ANAS As is known since the period of independence along with the history of world philosophical thought a certain revival has been observed in the field of studying the path of development of the philosophical thought of the Turkic peoples However this process has been developed over the past thirty years with the expansion of the tendency to study the history of philosophical thought of each of the Turkic peoples separately Thus dissertations monographs and articles dedicated to the history of philosophical thought of the Turkic Uzbek Kazakh Kyrgyz Turkmen peoples as well as the history of philosophical thought of Azerbaijan or the

scientific heritage of those who created philosophy in those peoples have begun to appear mainly since the period of independence This in turn has brought to mind the necessity of the emergence of the concepts of the history of all Turkic philosophical thought or Turkish philosophy *The Role of Women in the Altaic World* Veronika Veit, 2007 Aus dem Inhalt 38 Beiträge V M Alpatov Female Variant of Japanese Z Anayban The Women of Tuva in the Context of the Transformation Period in Russia Birtalan Ada A Harmful Female Spirit in the Mongolian Mythology and Folk Belief E Boikova Common Law Marriage in Pre Revolutionary Mongolia D Chmielowska The Image of Woman in Turkish Literature in the Second Half of the 20th Century M Dobrovits Maidens Towers and Beasts M R Drompp From Qatun to Refugee The Taihe Princess among the Uighurs B Frey Naf Compared With the Women the a Menfolk have little Business of their own Gender Division of Labour in the History of the Mongols M Galik The Twenty Fourth Nasreddin Two Women in Wang Meng s Xinjiang Stories J Giessauf Mulieres Bellatrices oder Apis Argumentosa Aspekte der Wahrnehmung mongolischer Frauen in abendlandischen Quellen des Mittelalters M I Gol man The Mongolian Women in the Russian Archives of the XVIIth Century W Heissig Zum Motiv der Hexenverbrennung in der Mongolischen Volksdichtung F G Hisamitdinova The Place and Role of the Bashkir Woman in Family and Society The Present and the Past
