TASK BASED GRAMMAR LESSON

1 — Choose Your Language Goal
What do you want your students to be able to do? You will plan your lesson around a given language goal, for example, negotiating a contract for your business that will be lucrative for your company.

2 — Identify the Necessary Skills
Once you have your language goal in mind, think about how your students will get there. What grammar do they need to know to accomplish the task? Do they need any specific vocabulary?

3 — Introduce the Lesson
Make sure they understand exactly what their goal is during the task. Review any grammatical structures and vocabulary.

4 — Students Perform the Task
This is where the lesson actually happens. Students interact with one another within the set parameters to accomplish their language goal.

5 — Students Self-Evaluate
Give your students some time to reflect on how they accomplished that task. Students discuss the activity in the groups they performed the task in.

6 — Focus on Specific Language Structures
students practice a particular structure and you can give feedback on accuracy.
