George L. Crane,Tsung (Tsai.),2000 Bones of the Master is a spiritual adventure story played out against the epic sweep of Chinese history that will give readers a rare and privileged glimpse into a lost mystical tradition It charts two parallel journeys two searches two eras The story begins in Inner Mongolia in 1959 it recounts a young monk's near miraculous escape from the Red Guards who destroyed his monastery and murdered his fellow monks He fled over three thousand miles to Hong Kong carrying with him only five books of poetry and his monk's certificate both of which would have meant certain death had they been discovered His mission was to escape the Cultural Revolution and carry on the teachings of his Chinese Buddhist master Shuih Deng who was too old to leave with his disciples The second journey takes place more than thirty five years later as Tsung Tsai now an old master himself leaves his cabin in Woodstock New York to travel with his friend George Crane back to Mongolia in search of the bones of his master to rebury Shuih Deng with the proper Buddhist ceremonies and to lay the foundation of a new monastery in a China that is rediscovering its spiritual roots Tsung Tsai says I am a Chinese Buddhist monk That is enough But he can be seen as much more than that he is one of those rare individuals whose life straddles two worlds the past and the present the East and the West the old China and the new He is a living link to a millennia old tradition that forty years of Maoist repression almost extinguished Bones of the Master is his unique story □
