J. P. Taylor, 1978 *The Course of German History* A. J. P. Taylor, 1951 **The Course of German History** Alan J. P. Taylor, 1968 **The Course of German History** Alan John Percivale Taylor, 1815 **The Course of German History; a Survey of the Development of Germany Since 1815, by A.J.P. Taylor. With a New Pref., 1961** Alan John Percivale Taylor, 1946 **The Course of German History** Alan John Percivale Taylor (Historiker), 1954 **The Continuities of German History** Helmut Walser Smith, 2008-04-07 This book opens the debate about German history in the long term about how ideas and political forms are traceable across what historians have taken to be the sharp breaks of German history Smith argues that current historiography has become ever more focused on the twentieth century and on twentieth century explanations for the catastrophes at the center of German history Against conventional wisdom he considers continuities nation and nationalism religion and religious exclusion racism and violence that are the center of the German historical experience and that have long histories Smith explores these deep continuities in novel ways emphasizing their importance while arguing that Germany was not on a special path to destruction The result is a series of innovative reflections on the crystallization of nationalist ideology on patterns of anti-Semitism and on how the nineteenth century vocabulary of race structured the twentieth century genocidal imagination **The Course of German Nationalism** Hagen Schulze, 1991-03-21 The arduous path from the colorful diversity of the Holy Roman Empire to the Prussian dominated German nation state Bismarck's German Empire of 1871 led through revolutions wars and economic upheavals but also through the cultural splendor of German Classicism and Romanticism Hagen Schulze takes a fresh look at late eighteenth and nineteenth century German history explaining it as the interaction of revolutionary forces from below and from above of economics politics and culture None of the results were predetermined and yet their outcome was of momentous significance for all of Europe if not the world *The Burden of German History* Konrad H. Jarausch, 2023-04-14 As one of the leading historians of Modern Europe and an internationally acclaimed scholar for the past five decades Konrad H. Jarausch presents a sustained academic reflection on the post war German effort to cope with the guilt of the Holocaust amongst a generation of scholars too young to have been perpetrators Ranging from his war time childhood to Americanization as a foreign student from his development as a professional historian to his directorship of the Zentrum für Zeithistorische Forschung and concluding with his mentorship of dozens of PhDs *The Burden of German History* reflects on the emergence of a self critical historiography of a twentieth century Germany that was wrestling with the responsibility for war and genocide This partly professional and partly personal autobiography explores a wide range of topics including the

development of German historiography and its methodological debates the interdisciplinary teaching efforts in German studies and the role of scholarly organizations and institutions Rethinking German History (Routledge Revivals) Richard J. Evans, 2015-08-11 In *Rethinking German History* first published in 1987 Richard J. Evans argues for a social historical approach to the German past that pays equal attention to objective social structures and subjective values and experiences. If German history has been seen as an exception to the normal development of Western society this is not least because historians have until recently largely failed to look beyond the world of high politics, institutions, organizations and ideologies to broader historical problems of German society and German mentalities. By applying and adapting approaches learned from French and British social history as they have been developed over the last quarter of a century it is possible to achieve a rethinking of German history which does away with many of the textbook myths that have encrusted the historiography of Germany for so long. This book will be valuable for students of German history and politics and brings together essays widely used in teaching. Its broad coverage of social history will also be useful to all those interested in contemporary historiography or the comparative study of European history **The Course of German History**, 1945 *Germ Foreign Pol 1871-1914* V.9 Geiss, 2013-10-08 First Published in 2001 Looking at German Foreign Policy between 1847 to 1914 this Volume IX of the Foreign Policies of Great Powers collection. It includes the general framework of the Reich and European diplomacy, the second German empire's history and social structure and moves into the Pre-Imperialist era of 1871-95 before the Weltpolitik up until 1912 and finally the coming of the war over the period of 1909-14 and the German War of Aggression aims in 1914.

History After Hitler Philipp Stelzel, 2019 A comprehensive account of how German and American historians after World War II tackled the question of the roots of National Socialism. *History After Hitler* traces the development of a transatlantic scholarly community as a key part of the intellectual history of the Federal Republic and of Cold War German-American relations *Hitler's Germany* Roderick Stackelberg, 2002-01-22 This book provides a comprehensive history of Nazi Germany and sets it in the wider context of 19th and 20th century German history. It analyses how a culture of such creativity and achievement could generate such barbarism and destructivity German Rearmament and the West, 1932-1933 Edward W. Bennett, 2015-03-08 This probing examination of the period just before and after Hitler came to power corrects many misconceptions about German rearmament. Drawing on previously unexploited sources, Edward Bennett unravels German military plans and shows their implications, undermining the notion that Hitler's accession represented a radical break with Germany's past. He also lays bare the fears and rivalries that hindered the West's response, particularly at the 1932-1933 World Disarmament Conference.
