Coursecard Project 2003:

Implementing the Project Management Balanced Scorecard Jessica Keyes, 2010-07-20 Business managers have long known the power of the Balanced Scorecard in executing corporate strategy. Implementing the Project Management Balanced Scorecard shows project managers how they too can use this framework to meet strategic objectives. It supplies valuable insight into the project management process as a whole and provides detailed explanations on how to effectively implement the balanced scorecard to measure and manage performance and projects. The book details a tactical approach for implementing the scorecard approach at the project level and investigates numerous sample scorecards, metrics, and techniques. It examines recent research on critical issues such as performance measurement and management, continuous process improvement, benchmarking, metrics selection, and people management. It also explains how to integrate these issues with the four perspectives of the balanced scorecard: customer, business processes, learning, and innovation, and financial. Filled with examples and case histories, the book directly relates the scorecard concept to the major project management steps of determining scope, scheduling, estimation, risk management, procurement, and project termination. It includes a plethora of resources on the accompanying downloadable resources, including detailed instructions for developing a measurement program, a full metrics guide, a sample project plan, and a set of project management fill-in forms. **Project**

E-Society: Building Bricks Reima Suomi, Regis Cabral, J. Felix Hampe, Arto Heikkilä, Jonna Järveläinen, Eija Koskivaara, 2007-04-10. 13E 2006, the 6th in this series of IFIP conferences, marked the congregation of researchers and practitioners in the areas of e-Commerce, e-Business, and e-Government. The conference was sponsored by IFIP TC 6 in cooperation with TC 8 and TC 11. The conference provided a forum for researchers, engineers, and interested users in academia, industry, and government to discuss the latest research, cutting-edge practice, and upcoming trends in the growing areas of e-Commerce, e-Business, and particularly e-Government. Sophisticated applications, as well as the underlying technology that supports such applications, were discussed and demonstrated. The conference attracted a wide range of participants representing a significant community of researchers and practitioners from a broad range of countries. The conference was organized along parallel tracks, each track focusing on specific aspects of current research, industry applications, and public administration.

Implementing the IT Balanced Scorecard Jessica Keyes, 2016-04-19 The goals of an IT balanced scorecard include the alignment of IT plans with business objectives, the establishment of measures of IT effectiveness, the directing of employee efforts toward IT objectives, the improved performance of technology, and the achievement of balanced results across stakeholder groups: CIOs, CTOs, and other technical managers. **Strategic Project**
