Courts And Political Institutions A Comparative View:

Courts and Political Institutions Thijmen Koopmans, 2003-09-04 Considers the relation between law and politics including human rights federalism and equal protection Law and Justice Sam Muller, Stavros Zouridis, 2012-10-31 The work of Hiil on the law of the future has produced two volumes The Law of the Future and the Future of Law Volumes I and II that bring together 85 think pieces on legal trends in different areas of law and more than 10 interviews with key policy makers as well as incorporating the outcomes of 15 workshops with different legal and justice actors around the world The main question that emerged from this comprehensive process was what can one do with the different legal futures that might come to be as captured in the collection Law Scenarios to 2030 This question could be rephrased who stragises This volume brings you the reflections on this question by a diverse group of thought and practice leaders from different fields and parts of the world Strategy in the justice sector is not an easy thing At the same time the need for coherent strategies seems urgent This book seeks to be a catalyst for broad discussion on this challenge It includes chapters by Geert Corstens President Dutch Supreme Court Mark Ellis Executive Director International Bar Association Adama Dieng Special Adviser to the UN Secretary General on Genocide Kimberly Prost Ombudsperson Security Council s 1267 Committee and Adel Maged Vice President Egyptian Court of Cassation Judging Europe's Judges Maurice Adams, Henri de Waele, Johan Meeusen, Gert Straetmans, 2014-07-18 After successive waves of EU enlargement and pursuant to the entry into force of the Lisbon Treaty the European Court of Justice finds itself on the brink of a new era Both the institution itself and the broader setting within which it operates have become more heterogeneous than ever before The issues now arriving on its docket are also often of great complexity covering an unprecedented number of fields The aims of this volume are to study the impact of these developments examine the legitimacy of the Court s output in this novel context and provide an appraisal of its overall performance In doing so specific attention is paid to its most recent case law on four topics the general principles of EU law external relations the internal market and Union citizenship Featuring contributions by Maurice Adams Henri de Waele Johan Meeusen and Gert Straetmans Koen Lenaerts J n Maz k and Martin Moser Stephen Weatherill Jukka Snell Michael Dougan Daniel Thym Eileen Denza Michal Bobek and Joseph Weiler **Judicial Activism in Bangladesh** Ridwanul Hoque, 2011-01-18 This book critically examines the evolving global trend of judicial activism with particular reference to Bangladesh It constructs judicial activism as a golden mean adjudicative technology standing between excessive judicial assertion and unacceptable judicial passivity that may leave injustices un redressed It argues that judicial balancing between over activism and meek administration of justice should essentially be predicated upon domestic conditions and the needs and fundamental public values of the judges respective society Providing cross jurisdictional empirical evidence the study demonstrates that judicial activism steered towards improving justice and grounded in one s societal specificities can be exercised in a morally and legally legitimate form and without rupturing the balance of powers among the state organs This study has sought to displace

the myth of judicial activism as constitutional transgression by unelected judges arguing that judicial activism is quite different from excessivism It is argued and shown that a particular judge or judiciary turns out to be activist when other public functionaries avoid or breach their constitutional responsibilities and thus generate injustice and inequality The study treats judicial activism as the conscientious exposition of constitutional norms and enforcement of public duties of those in positions of power The study assesses whether Bangladeshi judges have been striking the correct balance between over activism and injudicious passivity Broadly the present book reveals judicial under activism in Bangladesh and offers insights into causes for this It is argued that the existing milieu of socio political injustices and over balance of constitutional powers in Bangladesh calls for increased judicial intervention and guidance of course in a balanced and pragmatic manner which is critical for good governance and social justice Writing about judicial activism easily gets shackled by fussy and pedestrian debates about what judges may or may not do as unelected agents of governance The book goes much beyond such reductionist pedestrianisation of law for it courageously lifts the debate into the skies of global legal realism The analysis perceptively addresses bottlenecks of justice identifying shackles and mental blocks in our own minds against activating concerns for justice for the common citizen Prof Werner Menski Foreword [Elgar Encyclopedia of Public Management](#) Schedler, Kuno, 2022-08-16 This comprehensive Encyclopedia is an essential reference text for students scholars and practitioners in public management Offering a broad and inter cultural perspective on public management as a field of practice and science it covers all the most relevant and contemporary terms and concepts comprising 78 entries written by nearly 100 leading international scholars [The Foundations of European Union Law](#) Trevor Hartley, 2010-08-05 Rev ed of The foundations of European Community law by T C Hartley 6th ed c2007 *Knowledge in Ferment* Adriaan in 't Groen, 2007 Fundamental controversies or basic oppositions between methods and approaches occur in all fields of science and scholarship Often these dilemmas arise at the nexus of science and society or when several sciences or disciplines clash Paradoxically as much as one might prefer to do without them these dilemmas are indispensable to the progress of scientific scholarship Knowledge in Ferment collects the reflections of nineteen professors from Leiden University whose fields of expertise range from classics to quantum physics in order to evaluate the great controversies that dominate their fields and consistently form new paradigms that sustain the fermentation of knowledge and deliver remarkable new insights **The Foundations of European Community Law** Trevor C. Hartley, 2007 Recog 1 Community institutions 2 The community legal system 3 Community law and the member states 4 Administrative law **Research Handbook on EU Law and Human Rights** Sionaidh Douglas-Scott, Nicholas Hatzis, 2017-07-21 The place of human rights in EU law has been a central issue in contemporary debates about the character of the European Union as a political organisation This comprehensive and timely Handbook explores the principles underlying the development of fundamental rights norms and the way such norms operate in the case law of the Court of Justice Leading scholars in the field discuss both the effect of rights on substantive
