despite the burgeoning interest in genealogy and the importance of the region in so many life stories no previous book has provided a guide to the Black Country's history and to the documents and records that family historians can use in their research. In this accessible and informative introduction to the subject Michael Pearson looks at the history and heritage of the region and gives a graphic insight into the world in which our ancestors lived. He concentrates on the role the Black Country played during the industrial revolution when the development of mining industry and transport transformed the economic and social life of the area. This was a period when living and working conditions were poor, families were large, children worked from an early age, often in the mines, and life expectancy was less than 20. And it was the era in which the Black Country took on the distinctive identity by which it is known today. As well as retelling the fascinating story of the development of the Black Country, the author introduces the reader to the variety of records that are available for genealogical research, from legal and ecclesiastical archives, birth and death certificates, to the records of local government, employers, institutions, clubs, societies, and schools.

*Chambers's Encyclopaedia*, 1892      *Education and Theatres* Michael Finneran, Michael Anderson, 2019-09-25

This volume is the first book to map a broad range of practices and critically examine the impact of education and outreach programmes in theatres and theatre companies around the globe. This innovative volume looks specifically at the manner in which theatres and theatre companies engage in educational outreach and community work. An array of global case studies examines a wide range of existing and innovative practices and scrutinises how this work achieves successful results and delivers impact and outcome on investment. The editors set the scene briefly in terms of the history of education in theatre organisations and then move on to chart some of the difficulties and challenges associated with this work, as well as looking into the conceptual issues that need to be interrogated so that we may understand the impact of outreach and education work on the communities and audiences it aims to reach. A range of theatre practitioners and academics describe their work, its background, and what the authors understand to be successful outcomes for both the participants and the theatres. Finally, the book offers suggestions for both practitioners and researchers regarding further development in this work.
