

American Diplomacy

Geoffrey Wiseman and Paul Sharp

This volume on American diplomacy has its origins in the travails of United States (US) foreign and military policy during the administration of George W. Bush (hereafter the Bush administration). Initially, we wanted to develop a project that would focus on the place of diplomacy in the Bush administration's conduct of its foreign policy, America's long-running difficult relationship with diplomacy and efforts to reform it, and to suggest what the future might hold for American diplomacy.¹ However, the project received a huge jolt from the emergence of diplomacy as a key issue separating parties and candidates in the US presidential campaign of 2007-8 and the commitment of the incoming Obama administration to reviving and reforming the country's diplomacy after what it regarded as years of neglect. The result was a stream of developments with which it was difficult to keep up. In this regard, the revelations about American diplomatic practice from WikiLeaks showed not, as some contended, the widespread perfidiousness to be found in American diplomacy, although there was indeed evidence of that. Rather — as we want to emphasize — they revealed that there is a great deal more international activity being conducted in the name of the American people than they realize and that, on the whole, American diplomats effectively represent US interests abroad.

To help us explore these issues, we sought a combination of academic experts and practitioner opinion. This volume is the result. The first set of contributions is by researchers and teachers at academic institutions and the second by practitioners in the field. These essays first appeared as a special issue of *The Hague Journal of Diplomacy*.² This volume reproduces those essays, with the addition of this Introduction, the Conclusion and an index.

¹ The terms "American Diplomacy" and "US Diplomacy" are used interchangeably throughout the collection.

American Foreign Policy in Growth and Action Hilton Proctor Goss, Charles Marion Thomas, 1959 *The Course of American Diplomacy* Howard Jones, 1988 **American Diplomacy** Paul Sharp, Geoffrey Wiseman, 2012-01-20 This volume discusses how diplomacy's contribution to the effectiveness of foreign policy has been undervalued in the United States by governments, the foreign policy community and academics. Chapters raise awareness of the importance of American diplomacy, what it can and cannot achieve, and how it may be strengthened in the interests of international peace and security.

The Making of US Foreign Policy John Dumbrell, 1990 Examination of the aims, methods, and recently renewed emphasis of Soviet education on the molding of model socialist citizens. A textbook for students of international relations which provides a British perspective on the relationship between the process and the substance of US foreign policy since the mid-sixties. Dumbrell, social sciences, Manchester Polytechnic draws on both original case studies and the extensive secondary literature. Distributed by St Martin's. Annotation copyrighted by Book News Inc. Portland, OR **Treaties and Topics in American Diplomacy** Freeman Snow, 1894 **Science, Technology, and American Diplomacy: The Baruch Plan** United States. Congress. House. Foreign Affairs, 1972 **Re-examining the Cold War: U.S.-China Diplomacy, 1954-1973** Robert S. Ross, Changbin Jiang, 2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other's policy-making motivations. Much of the literature on U.S.-China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart. But as these contributors emphasize, newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy. Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart's policies. Motivated less by ideology than by pragmatic national security concerns, each assumed that the other faced similar considerations. *Training for Foreign Service*, 1922 **Science, Technology and American Diplomacy** United States.
