Directory of Corporate Counsel, 2025 Edition In house, *Labour Law in an Era of Globalization* Joanne Conaghan, Richard Michael Fischl, Karl Klare, 2004 Throughout the industrial world the discipline of labor law has fallen into deep philosophical and policy crisis at the same time as new theoretical approaches make it a field of considerable intellectual ferment Modern labor law evolved in a symbiotic relationship with a postwar institutional and policy agenda the social economic and political underpinnings of which have gradually eroded in the context of accelerating international economic integration and wage competition These essays which are the product of a transnational comparative dialog among academics and practitioners in labor law and related legal fields including social security immigration trade and development identify analyze and respond to some of the conceptual and policy challenges posed by globalization

Directory of Corporate Counsel, 2024 Edition , The Law and Regulation of Franchising in the EU Mark Abell, 2013 Mark Abell's book argues that the European franchising market fails to reach its potential as it remains unregulated He supports this by analysing the historical legal and economic basics and risk attraction profiles of franchising to franchisors and franchisee compares the European situation to the highly developed regulatory regimes in the USA and Australia and moves through to proposing and drafting a new EU directive to bring greater certainty and stability to cross border franchising in the EU

Comprehensively researched and very detailed this book is a worthy contribution to the literature on the subject Graham Cunningham Barrister Hardwicke Key features of this detailed and insightful work include Practical analysis from a leading authority in the field of franchising Examination of the impact of both franchise specific and general commercial law upon use of franchising in the EU Comparative legal analysis of the law of England Germany France the US and Australia Carefully constructed proposals for a franchise directive in the EU based on the vast experience of the author A draft text for the proposed directive

The Law and Regulation of Franchising in the EU provides an in depth analysis of the regulatory environment for franchising in the EU Franchising in the EU comprises nearly 10 000 franchised brands and over 215 billion US 300 billion turnover per annum However compared to its scale in the US and Australia franchising is not realising its full potential in the EU and the author points to the lack of homogeneity across members states as a large part of the problem

The book concludes by arguing for the adoption of a draft directive and proposes a draft directive which promotes market confidence in franchising provides pre contractual hygiene and imposes a mandatory taxonomy of rights and obligations This highly topical and comprehensive work will appeal to franchise lawyers and franchise academics as this is the first book that analyses the impact of EU and member state law upon the use of franchising in the EU Reports of the Tax Court of the United States United States.
