Covering The Environment

**James Simon,JoAnn Myer Valenti,David
B. Sachsman**

Covering The Environment:

Covering the Environment Bob Wyss, 2008 Covering the Environment serves as a primer for future and current journalists reporting on environmental issues across all types of media This practical resource explains the primary issues in writing on the environment identifies who to go to and where to find sources and offers examples on writing and reporting the beat It also provides background to help environmental journalists identify their audiences and anticipate reactions to environmental news This primer emphasizes the role of environmental journalists not as environmental advocates but as reporters attempting to accurately and fairly report the news Contents include An overview and history of the environment and journalism spotlighting the most significant issues in the beat Guidance on understanding environmental and health science ranging from issues of risk to scientific research and studies to interviewing scientists Insights into government and regulatory communities and environmental advocates on all sides of the political spectrum Assistance in accessing public records and conducting computer assisted reporting Guidance in writing the story for print broadcast and Internet audiences An examination of the future of journalism and coverage of the environment Observations and story excerpts from experienced journalists provide a real world component illuminating the practice of environmental journalism Additional features in each chapter include study questions story assignments and resources for additional information The book also provides a glossary of environmental science regulator and journalism terms as well as a reference section and index This resource has been developed to train advanced undergraduate and graduate journalism students to cover the science and environment community writing print and broadcast stories to a general audience It also serves as a guide for working journalists who cover the environment in their work

Covering the Environment Bob Wyss, 2010-09-28 Covering the Environment serves as a primer for future and current journalists reporting on environmental issues across all types of media This practical resource explains the primary issues in writing on the environment identifies who to go to and where to find sources and offers examples on writing and reporting the beat It also provides background to help environmental journalists identify their audiences and anticipate reactions to environmental news This primer emphasizes the role of environmental journalists not as environmental advocates but as reporters attempting to accurately and fairly report the news Contents include An overview and history of the environment and journalism spotlighting the most significant issues in the beat Guidance on understanding environmental and health science ranging from issues of risk to scientific research and studies to interviewing scientists Insights into government and regulatory communities and environmental advocates on all sides of the political spectrum Assistance in accessing public records and conducting computer assisted reporting Guidance in writing the story for print broadcast and Internet audiences An examination of the future of journalism and coverage of the environment Observations and story excerpts from experienced journalists provide a real world component illuminating the practice of environmental journalism Additional features in each chapter include study questions story assignments and

resources for additional information The book also provides a glossary of environmental science regulator and journalism terms as well as a reference section and index This resource has been developed to train advanced undergraduate and graduate journalism students to cover the science and environment community writing print and broadcast stories to a general audience It also serves as a guide for working journalists who cover the environment in their work

Environment Reporters in the 21st Century James Simon,JoAnn Myer Valenti,David B. Sachsman,2011-12-31 Environment Reporters in the 21st Century is the story of a relatively new journalistic beat environmental reporting This book explores the development of the environmental beat as a specialty during the last thirty years It also discusses broader trends within American journalism resulting from technological changes that challenge traditional mediums especially newspapers and magazines The book is divided into three parts The first reviews the literature and explains the methodology The second describes the results of the authors research The third provides in depth accounts of environment reporters at work A final chapter puts the research in historical perspective viewing it in terms of the economic decline of the newspaper business and of local television news Journalists mediate a constant struggle among thousands of environmental activists corporate public relations people government officials and scientists to shape environmental reporting This volume tells the story of environmental reporting imaginatively and innovatively

Environment and Business Alasdair Blair,David Hitchcock,2004-08-02 This text examines how businesses and the environment interact It is ideal for students with no previous knowledge of business studies It examines in depth the ways in which business industry the physical environment environmentalism and social change have evolved alongside each other The authors use boxed case studies to highlight how business practice and the environment interact at levels from local to global with examples from multinational companies government bodies national charities and local enterprise The book also contains a large number of informative diagrams The case studies include Shell Oil s environmental policy railways and the industrial revolution the British National Trust s business enterprises Sainsbury s approach to organic foods Australia s landcare scheme changing trends in retailing Brent Spar big game hunting and conservation

Communication and Environment: Sustainability and Risks (Penerbit USM) Hamidah Abd. Hamid,Azman Azwan Azmawati,Jamilah Hj. Ahmad,Nik Norma Nik Hasan,2014-11-25 There is a dearth of literature on environmental communication within the non western world The few existing ones are scattered and not easily available Thus there is a dire need to document research and literature in the field The opportunity arose at the 2009 International Conference on Communication and Environment held in Penang Malaysia The international conference with the theme Transformation for a Sustainable Tomorrow organised by the School of Communication Universiti Sains Malaysia USM attracted scholars practitioners and activists from around the world to listen and deliberate on various aspects of communication and environment The post conference review resulted in the selection of 24 papers to be compiled into this edited volume The escalating degradation of environment locally and globally was the main concern that prompted

discussions on how sustainability can be advocated The development process in many countries economic activities and political decisions on issues such as deforestation for timber logging rapid urbanisation pertinently points out that environmental degradation and any communication on environmental change has to be grounded and located within the wider context of social politics and economics of the society Communication and environmental communication for that matter have also to be understood within these wider contexts Many would agree that a constant and consistent flow of information communicated through different channels to different stakeholders at the right time and destinations can help raise awareness and consciousness of environmental problems protection and preservation This vital information can enable the public and stakeholders to make informed choices and take actions whenever possible A lack of communication and information will inordinately exacerbate the situation of environmental degradation This book thus highlights how the environment is being treated in the media communicated to the society and impacted nations The chapters are grouped into the following sections Theoretical and conceptual issues Media content and the environment Politics communication and the environment Corporate social and environmental responsibility and Citizen participation human rights and the environment The editors acknowledge the excellent contributions of all the authors and are indebted to the members of the review panel the external reviewer USM Publications Committee and staff of Universiti Sains Malaysia Press for their help in ensuring the quality of this volume Most importantly we express our gratitude to USM for providing the financial support for the international conference and making it possible to publish this book The Editors January 2012 Universiti Sains Malaysia Penerbit Universiti Sains Malaysia

Routledge Handbook on Climate Crisis Communication Alison Anderson, Candice Howarth, 2025-06-27 This Handbook provides a state of the art review of leading research on climate change communication As climate change has moved further up the political agenda the challenge of how to communicate the scientific social and political aspects of the climate emergency is of increasing interest to researchers NGOs governments and policymakers at national and international levels The Routledge Handbook on Climate Crisis Communication provides a concise and expert summary of this growing field explaining the theoretical conceptual and empirical developments that have been made in recent years and describing the origins and connections to broader topics including risk perception environmental journalism social media and climate justice and activism With contributions from leading international scholars the book is divided into seven key parts besides the Introduction chapter Part One Conceptual Challenges Part Two Methodological Considerations Part Three Communicating Climate Science across Cultures Part Four Journalism and News Reportage Part Five Activism and Social Movements Part Six Audiences and Popular Culture Part Seven Future Directions Taking stock of the current landscape of climate change communication and helping to shape the field of inquiry going forward this is a go to guide for established and newly interested researchers government and policymaking bodies and students and their instructors

Multicultural and Religious Perspectives on Protecting the Environment, the Biosphere, and Biodiversity Joseph

Tham, John Lunstroth, Sameer Advani, 2025-09-30 This thought provoking volume unites bioethics experts from seven major world religions Buddhism Christianity Confucianism Daoism Hinduism Islam and Judaism alongside secular thinkers to explore environmental protection through the lens of the UNESCO Declaration on Bioethics and Human Rights It foregrounds the power of diverse perspectives in addressing one of humanity's most pressing challenges the ecological crisis The contributions provide rich and distinct religious and cultural viewpoints as they confront the anthropological ethical and social dimensions of this crisis Showcasing dialogue where traditions and philosophies collide they offer unique insights into global bioethics and human rights that should inspire new ways of thinking and foster meaningful collaboration in the fight for our planet's future The book is valuable reading for researchers scholars and students in bioethics environmental ethics religious studies and beyond *Land Use/land Cover and Environmental Photointerpretation Keys* George L.

Loelkes, Geological Survey (U.S.), 1983 **Framing an Environmental Controversy in India's English-language Press**

Elizabeth Ann Burch, 1997 **Palgrave Handbook of Science and Health Journalism** Kim Walsh-Childers, Merryn McKinnon, 2024-04-01 This handbook reviews the extant literature on the most important issues in health and science journalism with a focus on summarizing the relevant research and identifying key questions that are yet to be answered It explores challenges and best practices in health and science reporting formats and audiences key topics such as climate change pandemics and space science and the ethics and political impacts of science and health journalist practice With numerous international contributions it provides a comprehensive overview of an emerging area of journalism studies and science communication *Embedding Resilience in the Built Environment Using the EU Taxonomy* Elzbieta

Rynska, 2025-02-14 Taxonomy is the common name for an EU regulation that supports companies in sustainable environmental and climate action Regulation EU No 2020 852 It is a classification tool designed for investors companies and financial institutions to define the environmental impact of business activities and the requirements that organisations must meet to be considered as sustainable The aim of this book is to examine the EU taxonomy from the built environment perspective and the ways in which it can be used to build resilience in real estate It presents the issues hot points and possible choices from the designers construction consultants and investing bodies points of view those who must set forth initial conditions which should later become the keystones for greener developments It brings together the expertise of a unique team of both researchers and professionals and presents a methodology case studies and solutions which together comprise a novel understanding of the taxonomy's influence on the pre construction phase The book describes the role of the built environment within sustainable development and how real estate can be used to build resilience with the use of taxonomy describes the characteristics of resilient environmentally friendly cities in the future proposes a roadmap to demonstrate urban policies that promote decarbonisation and enables investors to compare their products operations and strategies in terms of sustainability Overall this book is essential reading for decision makers in the public and private

sectors urban developers space and spatial designers architects planners community stakeholders and real estate investors Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Interior, Environment, and Related Agencies Appropriations for 2011: Justification of the budget estimates: related agencies United States. Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies, 2010

Ethics and Justice for the Environment Adrian C. Armstrong, 2012 Examining the issues of ethics and justice as they apply to the environment this book starts from the observation that the parallel expositions of environmental ethics and environmental justice appear to have few points of contact Environmental justice is highly politicized and concerned with human access to the environment and the unequal exposure to environmental pollution It grew out of the US civil rights movement the liberal tradition of rights and Rawls description of justice as fairness It is thus almost exclusively anthropocentric and does not address the question of justice for the environment By contrast environmental ethical studies are a wide ranging collection of approaches that are concerned with caring for the earth and the justifications for it but rarely consider the issue of justice Although the two movements do not come together at the theoretical level they do so at the grass roots activist level An essential component of this study is thus to consider both the issues of grass roots action and the application of the methods to actual case studies This book finds a common ground between these two strands and so to develop a unified statement of justice for the environment that includes the insights of both approaches particularly based on the capability ideas of justice developed by Martha Nussbaum

Military Standard United States. Dept. of Defense, *Values-Centered Entrepreneurs and Their Companies* David Y. Choi, Edmund Gray, 2010-09-03 A new brand of entrepreneurs has arrived on the business scene carrying with them a whole new set of values They possess a sense of mission to be socially responsible protect the planet and do the right thing for all of their stakeholders Rather than focus exclusively on financial gain they aim to achieve a balance between profits and one or more causes of their choosing In fact they view for profit entrepreneurship as a vehicle for social change The authors call these pioneers values centered entrepreneurs Some of the values centered entrepreneurs have been around a few decades In recent years however the numbers have proliferated and the nascent movement has started to make a true impact These entrepreneurs approach to management questions our basic assumptions about how businesses should be run and what their role should be in society Several of these entrepreneurs have attained high visibility Yvon Chouinard of sportswear manufacturer Patagonia has been a role model for integrating environmental protection to every aspect of Patagonia's business operation Howard Schultz of Starbucks has been able to build one of the strongest brands in the world while being the first retailer to offer comprehensive health benefits and stock options to its part time employees Paul Newman legendary actor and racecar driver as well as a leading maker of salad dressings gives 100% of Newman's Own brand's profits to charity This book explores how these highly unorthodox leaders have built their profitable

and socially responsible business enterprises and what lessons can be learned for the next generation of entrepreneurs The authors examine a group of over 40 entrepreneurial companies and how each balanced the profit objective with social responsibility in key aspects of their business operation from their initial company formation through growth to exit to build successful triple bottom line companies Choi and Gray particularly focus on how these firms commitment to values affected their company missions hiring and organizational policies marketing strategies financial practices exit options and giving programs and vice versa In some cases the authors find that the entrepreneurs social objectives have actually strengthened not weakened their business enterprises Based on their extensive studies of these companies he authors have distilled a set of commonalities The book presents ten of the most dominant and interesting of these commonalities with a focus on those policies and decisions that appeared to depart from conventional business practice In addition to devoting chapters to each of the core principles learned from these companies the authors also include in depth case studies of four of the ventures featured in their study *United Kingdom: Financial Sector Assessment Program-Systemic Stress, and Climate-Related Financial Risks: Implications for Balance Sheet Resilience* International Monetary,International Monetary Fund. Monetary and Capital Markets Department,2022-04-08 The FSAP started in an important macro financial phase right after the second Covid wave and a third lockdown The balance sheet resilience of major institutional sectors was at the center of policy considerations Against this backdrop the FSAP analyzed the pandemic s potential scarring of banks insurers corporates and households balance sheets focusing on the interplay of macro financial structural conditions and financial vulnerabilities

Carbon Criminals, Climate Crimes Ronald C. Kramer,2020-04-17 2020 Choice Outstanding Academic Title Carbon Criminals Climate Crimes analyzes the looming threats posed by climate change from a criminological perspective It advances the field of green criminology through a examination of the criminal nature of catastrophic environmental harms resulting from the release of greenhouse gases The book describes and explains what corporations in the fossil fuel industry the U S government and the international political community did or failed to do in relation to global warming Carbon Criminals Climate Crimes integrates research and theory from a wide variety of disciplines to analyze four specific state corporate climate crimes continued extraction of fossil fuels and rising carbon emissions political omission failure related to the mitigation of these emissions socially organized climate change denial and climate crimes of empire which include militaristic forms of adaptation to climate disruption The final chapter reviews policies that could mitigate greenhouse gas emissions adapt to a warming world and achieve climate justice *Interior, Environment, and Related Agencies Appropriations for 2011* United States. Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies,2010 **Library Data Base Guide** ,1984 *Gender and Climate Change Financing* Mariama Williams,2015-08-27 This book discusses the state of global climate change policy and the financing of climate resilient public infrastructure It explains the sources of tensions and conflict between developing and developed countries

with regard to global climate protection policies and highlights the biases and asymmetries that may work against gender equality women s empowerment and poverty eradication Gender and Climate Change Financing Coming Out of the Margin provides an overview of the scientific economic and political dynamics underlying global climate protection It explores the controversial issues that have stalled global climate negotiations and offers a clear explanation of the link between adaptation and mitigation strategies and gender issue It also maps the full range of public private and market based climate finance instruments and funds This book will be a useful tool for those engaged with climate change poverty eradication gender equality and women s empowerment
