came together in times of misfortune sickness accident and death and at annual religious services In fascinating detail Fairchild describes the practices that grew up around these two focal points of social life He recounts the building of coffins and preparation of a body for burial the conflicting emotions of the pain of death and the hope of heaven the funeral rite itself the lost and lonely graves And he tells the story of yearly outdoor revivals the choice of the meeting site and construction of the arbor or other shelter the provision of food the music and emotionally charged services and tangential courting and mischief Loneliness is most recognized as a feature of life in the time of the early West Texas cattle industry a period of sprawling cattle ranches and legendary cattle drives roughly from 1867 to 1885 But Fairchild shows that it also characterized the lives of settlers who lived in West Texas from the beginning of permanent settlement of the Texas Panhandle around 1876 through the population shift that occurred around the turn of the century as farmers and their families supplanted ranchers and their cattle Fairchild draws on primary materials of the early residents to give voice to the settlers themselves and skillfully weaves a moving picture of life in the open spaces of West Texas during the frontier rural period of the late nineteenth and early twentieth centuries The cattle, sheep and pigs of Great Britain, articles, ed. by J. Coleman Great Britain, 1887 Hoard's Dairyman , 1895 **Hunters and Collectors** Tom Griffiths, 1996-04 Hunters and Collectors is about historical consciousness and environmental sensibilities in European Australia from the mid nineteenth century to the present It is in part a collective biography of amateur antiquarians archaeologists naturalists journalists and historians people who shaped the Australian historical imagination Dr Griffiths illuminates the way these avid collectors and investigators of the Australian land and of its indigenous inhabitants contributed a sense of identity at colony wide and eventually nationwide level He also considers the rise of professional history anthropology and archaeology in the universities which ignored the efforts of the amateurs Griffiths shows how the seemingly trivial activities of these hunters and collectors feed into the political and environmental debates of the 1990s This book is outstanding in its originality interpretative insight and literary flair *Creating Societies* Dirk Hoerder, 2000-01-01 Dirk Hoerder shows us that it is not shining railroad tracks or statesmen in Ottawa that make up the story of Canada but rather individual stories of life and labour Caribbean women who care for children born in Canada lonely prairie homesteaders miners in Alberta and British Columbia women labouring in factories Chinese and Japanese immigrants carving out new lives in the face of hostility Hoerder examines these individual experiences in *Creating Societies* the first systematic overview of the total Canadian immigrant experience Using letters travel accounts diaries memoirs and reminiscences he brings the immigrant s experiences to life Their writings often recorded for grandchildren neighbours and sometimes a larger public show how immigrant lives were entwined with the emerging Canadian society Hoerder presents an important new picture of the emerging Canadian identity dispelling the Canadian myth of a dichotomy between national unity and ethnic diversity and emphasizing the long standing interaction between the members of a different ethnic groups **The Dairy Cow Today**
