Crackhouse Notes From The End Of The Line:

Crackhouse Terry Moses Williams,1992 **Making Trouble** Jeff Ferrell,2017-09-04 In Making Trouble leading scholars in criminology sociology criminal justice women s studies and social history explore the mediated cultural dynamics that construct images and understanding of crime deviance and control Contributors examine the intertwined practices of the mass media criminal justice agencies political power holders and criminal and deviant subcultures in producing and consuming contested representations of legality and illegality While the collection provides broad analysis of contemporary topics it also weaves this analysis around a set of innovative and unifying themes These include the emergence of situated media within and between the various subcultures of crime deviance and control the evolution of policing and social control as complex webs of mediated and symbolic meaning the role of power identity and indifference in framing contemporary crime controversies with special attention paid to the gendered construction of crime deviance and control and the importance of historical and cross cultural dynamics in shaping understandings of crime deviance and control Drugs in America Ansley Hamid,1998 This basic analysis of the drug problem in America describes the historical and present use of mood altering drugs the economics of drug trafficking theories of addiction and the resulting crime violence and community deterioration In addition the author focuses on the effects of legalizing drugs and the role of law enforcement This is an ideal text for any course discussing drug use and abuse **The Handbook of Drugs and Society** Henry H. Brownstein,2015-12-14 This handbook provides a comprehensive examination of the past and present roles of drugs in society with a focus on theory research policy and practice Includes 28 original chapters with multi disciplinary and international perspectives by top social and behavioral scientists Reviews current knowledge in the field including key research findings theoretical developments and methodological debates Identifies ongoing controversies in the field emergent topics and areas in need of further inquiry Discusses individual drugs as well as topics like physiological theories of drug use and abuse public health implications of drugs patterns of drugs and crime international drug trade and trafficking and designer drugs *Society on the Edge* Philippe Fontaine,Jefferson D. Pooley,2020-12-10 Leading historians trace the changing fortunes of the social science of social problems since World War II *Urban Outcasts* Loïc Wacquant,2013-04-26 Breaking with the exoticizing cast of public discourse and conventional research Urban Outcasts takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same Drawing on a wealth of original field survey and historical data Lo c Wacquant shows that the involution of America s urban core after the 1960s is due not to the emergence of an underclass but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment In European cities by contrast the spread of districts of exclusion does not herald the formation of ghettos It stems from the decomposition of working class territories under the press of mass unemployment the casualization of work and the ethnic mixing of populations hitherto segregated spawning

urban formations akin to anti ghettos Comparing the US Black Belt with the French Red Belt demonstrates that state structures and policies play a decisive role in the articulation of class race and place on both sides of the Atlantic It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a collective idiom of identity and claims making These defamed districts are not just the residual sinkholes of a bygone economic era but also the incubators of the precarious proletariat emerging under neoliberal capitalism Urban Outcasts sheds new light on the explosive mix of mounting misery stupendous affluence and festering street violence resurging in the big cities of the First World By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century s dawn *ADAM Preliminary 2000 Findings on Drug Use and Drug Markets*,2001 *Criminal Artefacts* Dawn Moore,2007 Annotation Attitudes towards crime criminals and rehabilitation have shifted considerably yet the idea that there is a causal link between drug adiction and crime prevails *Sex Work Matters* Melissa Hope Ditmore,Antonia Levy,Alys Willman,2013-04-04 Sex Work Matters brings together sex workers scholars and activists to present pioneering essays on the economics and sociology of sex work From insights by sex workers on how they handle money intimate relationships and daily harassment by the police to the experience of male and transgender sex work this fascinating and original book offers new theoretical frameworks for understanding the sex industry The result is a vital new contribution to sex worker rights that explores the topic in new ways especially its cultural economic and political dimensions Readers weary of the sensational and often salacious treatment of the sex industry in the media and literature will find Sex Work Matters refreshing *Research Methods in the Study of Substance Abuse* Jonathan B. VanGeest,Timothy P. Johnson,Sonia A. Alemagno,2017-06-19 This authoritative handbook reviews the most widely used methods for studying the use and abuse of alcohol and illegal drugs Its thorough coverage spans the range of quantitative qualitative and mixed method approaches to documenting and measuring the complex psychological behavioral and physical experience of substance misuse and dependence to ensure valid useful results Experts discuss special issues and considerations for conducting ethical research with specialized populations including youth inmates and the LGBT community Throughout these chapters contributors demonstrate the multidisciplinary nature of substance abuse research with emphasis on professional ethics and the critical role of research in developing best practices and effective policy for prevention and treatment Among the topics covered Transdisciplinary research perspective a theoretical framework for substance abuse research Longitudinal methods in substance use research Considerations in blending qualitative and quantitative components in substance abuse research The use of biological measures in social research on drug misuse Using surveys to study substance use behavior Applications of GIS to inform substance abuse research and interventions Evaluating substance use prevention and treatment

programs Research Methods in the Study of Substance Abuse is an essential resource for health services and public health professionals policymakers and researchers working and training in the field of addiction It encourages the rigor and understanding necessary to address widespread social and public health concerns *The Sociology of American Drug Use* Charles E. Faupel, Gregory Weaver, Jay Corzine, 2014 Thoroughly revised and updated in its third edition The Sociology of American Drug Use presents a broader sociological perspective on drug use in American society than any other text The authors all sociologically trained criminologists include extensive coverage of various methods and statistics for measuring drug use a topic that is particularly relevant for sociology students The book opens with an examination of the construction of drug use as a social problem setting the stage for the rest of the text The first section addresses basic conceptual methodological and theoretical issues in the study of drug use while the second section analyzes its various social correlates demographic institutional health economic cultural and subcultural and violent and criminal The final section focuses on societal reaction to drug use with discussions of prohibition decriminalization and legalization policy options and drug treatment drug education and drug testing New to the Third Edition Increased material on legal drugs like salvia and an expanded discussion of the recreational use of prescription drugs including the misuse of such drugs as Adderall OxyContin and Vicodin among college students New and updated Drug Controversies boxes Updated information on the pharmaceutical industry and an expanded discussion of the drug approval process with a new flowchart More in depth discussion of cartels and the current drug violence along the U S Mexican border Greater emphasis on cross cultural issues and perspectives including new material on crime and the American dream drug trafficking to the U S and opium production in Afghanistan and the European roots of harm reduction An expanded discussion of the role of the media and more material on family as a social institution An updated and streamlined glossary and bibliography Land of Disenchantment Michael L. Trujillo, 2010-03-16 New Mexico's Española Valley is situated in the northern part of the state between the fabled Sangre de Cristo and Jemez Mountains Many of the Valley's communities have roots in the Spanish and Mexican periods of colonization while the Native American Pueblos of Ohkay Owingeh and Santa Clara are far older The Valley's residents include a large Native American population an influential Anglo or non Hispanic white minority and a growing Mexican immigrant community In spite of the varied populace native New Mexican Latinos or Nuevomexicanos remain the majority and retain control of area politics In this experimental ethnography Michael Trujillo presents a vision of Española that addresses its denigration by neighbors and some of its residents because it represents the antithesis of the positive narrative of New Mexico Contradicting the popular notion of New Mexico as the Land of Enchantment a fusion of race landscape architecture and food into a romanticized commodity Trujillo probes beneath the surface to reveal the causes of social dysfunction brought about by colonization and the transition from a pastoral to an urban economy *Contemporary Research on Sex Work* Jeffrey T. Parsons, 2014-06-03 Gain important insight and a broader perspective on where why and how sex workers

conduct their business For years the focus of sex work research has been on street based male and female sex workers and the HIV related risks they pose to their clients Contemporary Research on Sex Work moves beyond the basic association between sex work and unprotected sex to a fuller description of the varied facets of the industry while still pursuing a better understanding of HIV risk among those working the streets The diverse approaches in this unique book include targeted sampling qualitative and quantitative interviews ethnographic interviews with key informants using sex workers as recruiters and quasi experimental intervention designs Contemporary Research on Sex Work dispels the notion that all sex workers are prostitutes working the streets highlighting instead various aspects of sex work in terms of gender venue and context Social scientists from a variety of disciplines present research collected from across the United States Cambodia the Philippines Argentina and Canada that reflects the efforts to explore interventions and programs designed to improve the social and physical lives of male female and transgender sex workers and their clients The book examines how different circumstances determine different issues of power control health social functioning mental health and HIV STI risk each sex worker faces Contemporary Research on Sex Work examines condom use by transgender female sex workers the association between mental health issues and unprotected sex the influence of structural intervention in reducing biologically sexually transmitted infections STIs the hidden population of women who solicit clients in private locations off the street stigma resistance among male sex workers in Canada the relationship between childhood sexual abuse and subsequent involvement in sex work health services among male sex workers in Argentina how the intersection between race ethnicity affects female sex workers in Los Angeles how sex workers deal with the negativity that surrounds their profession job related risk and safety for sex workers in Canada legal concerns and policy issues and much more Contemporary Research on Sex Work is your guide to the next generation of sex work research highlighting the need to understand sex work as work The book is an essential resource for researchers in the fields of sex research sex work and HIV AIDS prevention and for clinicians who work with those involved in the industry

Illegal Markets, Violence, and Inequality Jean Daudelin, José Luiz Ratton, 2018-03-21 This book challenges the quasi consensus that Latin American countries dominate global homicide rankings mainly due to the illegal nature of drug production and trafficking Building on US scholarship that looks at the role of social exclusion and discriminatory policing in drug violence the authors of this volume show that the association between illegality and violence cannot be divorced from the inequality that prevails in those countries This book looks in detail at the functioning of drug markets in Recife the largest metropolitan area in Brazil's North East and over the last 25 years the heart of the country's most violent metropolitan area Building on extensive interviews and field work the authors map out the city's drug markets and explore the reasons why some of those markets are violent and others are not The analysis focuses on the micromechanics of each market looking at consumption patterns and at the workings of retail sales and distribution Such a systematic micro level comparative analysis of the workings of Latin American drug markets is simply not available

elsewhere in current literature These findings point to significant gaps in current understandings of the link between illegal markets and violence and they illuminate the need to factor in the way in which those markets are nested in exclusionary social contexts

Homelessness, Housing, and Mental Illness Russell K. Schutt, Stephen M. Goldfinger, 2011-02-28 Humans are social animals and in general don't thrive in isolated environments Homeless people many of whom suffer from serious mental illnesses often live socially isolated on the streets or in shelters Homelessness Housing and Mental Illness describes a carefully designed large scale study to assess how well these people do when attempts are made to reduce their social isolation and integrate them into the community Should homeless mentally ill people be provided with the type of housing they want or with what clinicians think they need Is residential staff necessary Are roommates advantageous How is community integration affected by substance abuse psychiatric diagnoses and cognitive functioning Homelessness Housing and Mental Illness answers these questions and reexamines the assumptions behind housing policies that support the preference of most homeless mentally ill people to live alone in independent apartments The analysis shows that living alone reduces housing retention as well as cognitive functioning while group homes improve these critical outcomes Throughout the book Russell Schutt explores the meaning and value of community for our most fragile citizens

Consuming Habits Jordan Goodman, Andrew Sherratt, Paul E. Lovejoy, 2005-07-26 This pioneering collection of original essays explores the rich analytical category of psychoactive substances from challenging historical and anthropological perspectives Psychoactive substances have been central to the formation of civilizations and the growth of the world economy Consuming Habits describes how and why tea and coffee replaced beer on the breakfast tables of 18th century Europe in Islamic emirates at the turn of the century kola nuts formed part of tax payments and were given as gifts by so called big men In 1902 opera singers had their doctors prescribe them cocaine to aid singing the original version of coca cola was described as a brain tonic This pioneering collection of original essays explores the rich analytical category of psychoactive substances from challenging historical and anthropological perspectives

Out of the Shadows Patricia Fernández-Kelly, Jon Shefner, 2010-11 Since the beginning of scholarly writing about the informal economy in the mid 1970s the debate has evolved from addressing survival strategies of the poor to considering the implications for national development and the global economy Simultaneously research on informal politics has ranged from neighborhood clientelism to contentious social movements basing their claims on a variety of social identities in their quest for social justice Despite related empirical and theoretical concerns these research traditions have seldom engaged in dialogue with one another Out of the Shadows brings leading scholars of the informal economy and informal politics together to address how globalization has influenced local efforts to resolve political and economic needs and how these seemingly separate issues are indeed deeply related In addition to the editors contributors are Javier Auyero Miguel Angel Centeno Sylvia Chant Robert Gay Mercedes Gonz lez de la Rocha Jos Itzigsohn Alejandro Portes and Juan Manuel Ramirez

Using Women Nancy Campbell, 2002-12-24 From the 1950s girl junkie

to the 1990s crack mom Using Women investigates how the cultural representations of women drug users have defined America's drug policies in this century In analyzing the public's continued fear horror and outrage wrought by the specter of women using drugs Nancy Campbell demonstrates the importance that public opinion and popular culture have played in regulating women's lives The book will chronicle the history of women and drug use provide a critical policy analysis of the government's drug policies and offer recommendations for the direction our current drug policies should take Using Women includes such chapters as Sex Drugs and Race in the Age of Dope Regulating Adolescents in the Postwar US Fifties Femininity and Regulating Maternal Instinct

Contemporary Drug Policy Henry Brownstein, 2013-02-11 This book focuses on the use of drugs in our lives and how we respond to them Whereas drug policy typically centres on the problems of illicit drugs or licit drugs used in illicit ways or circumstances Contemporary Drug Policy instead considers the wide variety of substances we call drugs as a normal part of our personal and social experience and asks how and when drugs benefit us as well as how and when they are harmful The evidence is clear that at some times in some circumstances and in some places drugs are a problem This book does not ignore these issues but shifts our attention to making policies that also recognize their legitimate and constructive place in society It focuses on asking questions challenging assumptions and developing responses to drugs based on evidence from scientific study as directed by critical criminological theory rather than mainstream theory or unfounded assumptions Different from other books on drug policy this book does not offer answers or solutions Rather it shows how critical criminological theories can lead scientific research in new directions supportive of policies that offer both solutions to problems that are found to be related to drugs and an appreciation for the benefits that drugs can bring to people and society This book will be of interest to those studying or researching drug policy as well as professionals involved in policy making processes

The Poverty of the Ethnography of Poverty Loïc Wacquant, 2025-07-02 In The Poverty of the Ethnography of Poverty Loïc Wacquant dissects how sociologists who carry out field studies of the poor write about race class and morality in the city's underbelly the blinders and biases that affect their research and how to overcome them and how to become aware of these biases and develop a better meshing of theory and research
