The Movement of Showing Johan de Jong, 2020-03-01 This book explores the idea shared by Derrida Hegel and Heidegger that the value of their thought is not found in its results or conclusions but in its movement All three describe the heart of their work in terms of a pathway development or movement that seems to deprive their thought of a solid ground Johan de Jong argues that this is a structural vulnerability that is the source of its value tracing Derrida's indirect method from his

early to later works and critically considering his engagements with Hegel and Heidegger De Jong's analysis locates an affinity among Hegel Heidegger and Derrida in a shared distrust of externality and against the grain of some Levinasian commentaries argues that Derrida's indirectness results in an ethics of complicity The Movement of Showing answers a central question that many polemics about continental philosophy and postmodernism revolve around namely with which methods does one philosophize responsibly It shows the difference between critique and polemics and why simply taking up a position for or against is insufficient in order to think responsibly **Terminal Eocene Events** C. Being and Learning

Eduardo M. Duarte,2012-10-17 Education is not an art of putting sight into the eye that can already see but one of turning the eye towards the proper gaze of Being That s what must be managed Plato insists This claim is the take off point for Eduardo Duarte s meditations on the metaphysics and ontology of teaching and learning In Being and Learning he offers an account of learning as an attunement with Being s dynamic presencing and unconcealment which Duarte explores as the capacity to respond and attend to the matter that stands before us or in Arendtian terms to love the world and to be with others in this world This book of poetic thinking is a chronicle of Duarte s ongoing exploration of the question of Being a philosophical journey that has been guided primarily through a conversation with Heidegger and which also includes the voices of Plato Aristotle Heraclitus Nietzsche as well Lao Tzu and the Buddha among others In Being and Learning Duarte undertakes a phenomenology of the original a writing that consciously and conspicuously interrupts the discursive field of work in philosophy of education As the late Reiner Schurmann described this method it recalls the ancient beginnings and it anticipates a new beginning the possible rise of a new economy among things words and actions Being and Learning is a work of parrhesia a composition of free thought that disrupts the conventional practice of philosophy of education and thereby open up gaps and spaces of possibility in the arrangement of words concepts and ideas in the field With this work Eduardo Duarte is initiating new pathways of thinking

about education *Sense and Singularity* Georges Van Den Abbeele, 2023-11-07 Philosophical thinking is interrupted by the finitude of what cannot be named on the one hand and that within which it is subsumed as one of multiple modes of sense making on the other Sense and Singularity elaborates Jean Luc Nancy's philosophical project as an inquiry into the limits or finitude of philosophy itself where it is interrupted and as a practice of critical intervention where philosophy serves to interrupt otherwise unquestioned ways of thinking Nancy's interruption of philosophy Van Den Abbeele argues reveals the limits of what philosophy is and what it can do its apocalyptic end and its endless renewal its Sisyphean interruption between the bounds of infinitely replicating sense and the conceptual vanishing point that is singularity In examinations of Nancy's foundational rereading of Descartes's cogito as iterative his formal experimentations with the genres of philosophical writing the account of retreat in understanding the political and the interruptive play of sense and singularity in writings on the body sexuality and aesthetics Van Den Abbeele offers a fresh account of one of our major thinkers as well as a provocative inquiry into what philosophy can do

The Later Works of John Dewey, Volume 3, 1925 - 1953 John Dewey, 2008-04 All of Dewey's writings for 1927 and 1928 with the exception of *The Public and Its Problems* which appears in Volume 2 A Modern Language Association's Committee on Scholarly Editions textual edition These essays are as Sidorsky says in his Introduction framed in great measure by those two poles of his philosophical interest looking backward in a sense to the defense of naturalistic metaphysics and moving forward to the justification and to the implications for practice of an empirical theory Dewey's five essays on education are evidence of his continued interest in that field Among them is the frequently quoted *Why I Am a Member of the Teachers Union* which is still used by the American Federation of Teachers in its recruiting efforts Other highlights of this volume include the famous exchange between George Santayana and Dewey on Experience and Nature an impassioned condemnation of the miscarriage of justice Dewey saw in the Sacco Vanzetti trial and a series of six articles on the Soviet Union based on Dewey's trip to that country in 1928

Declensions of the Self Jean-Jacques Defert, Trevor Tchir, Dan Webb, 2009-10-02 This work is a collective reflection on the modern self as a narrative Modernity as a metamorphic conglomeration of permeating discourses new practices and institutional forms a historical unfolding of centrifugal and centripetal discursive dynamics of regulation and normalization offers limitless grounds for a critical investigation The modern self both as the revelation of the inner self and as a reflection of the collective arises from the dialogical interplay within the intersubjective communicative space of social discourse The bestiary proposed in this series of articles attempts to rethink the spectacle consisting of modern dichotomies by which the self is declined along ontological metaphysical and ethical premises the real and the ideal the said and the unsaid the rational and the irrational the bound and the free the familiar and the exotic the universal and the particular self and world The reader is therefore encouraged to engage in a multiple reading of the articles presented in this collection As individual scholarly pieces of inquiry these articles provide thoughtful insights into the inexhaustible topic of modernity and the modern subject they tell
