Labrador Retrievers Diane McCarty,1998-02 Basic information about training and caring for Labrador Retrievers

Labrador Retrievers Today Carole Coode,1993 From its origin in Newfoundland this sporting dog and companion is given thorough coverage The Labrador s suitability as guide dog or gun dog is closely examined Guidance for the novice and advice on rearing and general health make this an indispensable reference **Labrador Retriever** STEPH ORLLY.

LOLLY,2025-02-04 The Labrador Retriever s story begins on the island of Newfoundland off the eastern coast of Canada During the 18th and early 19th centuries Newfoundland was a bustling hub for fishing communities and it was here that the ancestors of the Labrador Retriever first emerged The St John s Water Dog The Labrador s Ancestor The early forebears of the Labrador Retriever were known as the St John s Water Dogs or Lesser Newfoundland Dogs These medium sized black coated dogs were invaluable to fishermen assisting them in retrieving fish that escaped from lines and nets Their waterproof coats and webbed feet made them perfectly suited to the icy waters of the North Atlantic and their natural retrieving instinct ensured they excelled in their tasks The St John s Water Dog was not a formally recognized breed but rather a working dog developed through necessity They were prized for their loyalty strength and cooperative nature It is believed that these dogs were a mix of indigenous dogs and those brought to Newfoundland by European settlers possibly including Portuguese water dogs and other retrieving breeds Exportation to England The Birth of the Labrador Retriever By the early 19th century the exceptional working abilities of the St John s Water Dog had caught the attention of visiting English nobles who began

importing these dogs to England Among the notable enthusiasts were the 2nd Earl of Malmesbury and the 10th Earl of Home who admired the dogs for their skill in retrieving game during hunts The Earl of Malmesbury is credited with giving the breed its name Labrador likely as a nod to the nearby Labrador region of Canada While the St John s Water Dog thrived in England its numbers in Newfoundland began to dwindle due to strict quarantine laws and heavy dog taxes imposed by the Canadian government Ironically while the breed s homeland saw its decline England became the new cradle of its development Development into a Working and Companion Dog Once in England the St John s Water Dog was further refined and developed into the Labrador Retriever we recognize today Breeders focused on enhancing the traits that made these dogs exceptional workers particularly their retrieving instincts physical endurance and friendly demeanor Breeding for Retrieving Skills English breeders were particularly interested in creating a dog that excelled in retrieving game during hunts This led to selective breeding that emphasized a strong work ethic a keen sense of smell and a gentle mouth an essential trait for retrieving game without damaging it These characteristics quickly made Labradors the preferred breed for hunters and sportsmen The Rise of the Gundog In the late 19th and early 20th centuries Labradors gained a reputation as outstanding gundogs They were used extensively on shooting estates where their ability to retrieve shot birds from land and water made them indispensable Their natural intelligence and trainability meant they could adapt to various terrains and conditions cementing their status as versatile working dogs Transition to Companion Animals While Labradors initially gained fame as working dogs their friendly nature and loyalty soon made them popular as family pets By the mid 20th century they had firmly established themselves as one of the most sought after companion animals Their patience with children adaptability to different living environments and sociable temperament endeared them to families worldwide Modern Roles and Versatility Today Labrador Retrievers are not just beloved pets but also play crucial roles in society They are widely used as service dogs for people with disabilities therapy animals for emotional support search and rescue dogs and even detection dogs in law enforcement and military operations
