Ksenia Chizhova foregrounds lineage novels and the domestic world in which they were read to recast the social transformations of Chosŏn Korea and the development of early modern Korean literature. She demonstrates women's centrality to the creation of elite vernacular Korean practices and argues that domestic focused genres such as lineage novels, commemorative texts, and family tales shed light on the emergence and perpetuation of patrilineal kinship structures. The proliferation of kinship narratives in the Chosŏn period illuminates the changing affective contours of familial bonds and how the domestic space functioned as a site of their everyday experience. Drawing on an archive of women-centered elite vernacular texts, Chizhova uncovers the structures of feelings and conceptions of selfhood beneath official genealogies and legal statutes, revealing that kinship is as much a textual as a social practice. Shedding new light on Korean literary history and questions of Korea's modernity, this book also offers a broader lens on the global rise of the novel. *Catalogue of Books in the Jamaica Plain Branch Library of the Boston Public Library*. Readings in Eastern Religions Harold Coward, Ronald Neufeldt, Eva K. Neumaier-Dargyay, 2006-12-08. Annotation: Originally developed for introductory courses on Eastern religious traditions, this popular anthology offers readings from primary texts of India, China, and Japan. With this second edition, the editors have expanded on existing texts and added new introductions to provide a better context for the excerpts as well as a better sense of historical developments. A section on Chan/Zen and excerpts from the writings of Ge Hong representing the central concerns of Daoism have been included. A section on modern China includes a poem written by Mao exhibiting his Daoist sensibilities; there's also material about Falun Gong. A revised chapter on Buddhism presents the voices of modern Buddhist writers, including the Dalai Lama. Throughout the volume, women's voices have been added. *Books of Fate and Popular Culture in Early China* Marc Kalinowski, Donald Harper, 2017-11-06. *Books of Fate and Popular Culture in Early China* is a comprehensive introduction to the manuscripts known as daybooks, examples of which have been found in Warring States, Qin, and Han tombs (453 BCE–220 CE). Their main content concerns hemerology or knowledge of good and bad days. Daybooks reveal the place of hemerology in daily life and are invaluable sources for the study of popular culture. Eleven scholars have contributed chapters examining the daybooks from different perspectives, detailing their significance as manuscript objects intended for everyday use and showing their connection to almanacs still popular in Chinese communities today as well as to hemerological literature in medieval Europe and ancient Babylon. Contributors include Marianne Bujard, Leszli Sándor Chardonnens, Christopher Cullen, Donald Harper, Marc Kalinowski, Li Ling, Liu Lexian, Alasdair Livingstone, Richard Smith, Alain Thote, and Yan Changgui. The Manchu Language at Court and in the Bureaucracy under the Qianlong Emperor Mårten Söderblom Saarela, 2024-01-15. This is the first book-length study of the roles played by the Manchu language at the center of the Qing empire at the height of its power in the eighteenth century. It presents a revisionist account of Manchu, not as a language in decline but as extensively and consciously used language in a variety of areas. It treats the use, discussion, regulation, and philological study of Manchu at the

court of an emperor who cared deeply for the maintenance and history of the language of his dynasty *The Taiping Heavenly Kingdom* Thomas H. Reilly, 2011-07-01 Occupying much of imperial China's Yangzi River heartland and costing more than twenty million lives the Taiping Rebellion 1851-64 was no ordinary peasant revolt What most distinguished this dramatic upheaval from earlier rebellions were the spiritual beliefs of the rebels The core of the Taiping faith focused on the belief that Shangdi the high God of classical China had chosen the Taiping leader Hong Xiuquan to establish his Heavenly Kingdom on Earth How were the Taiping rebels professing this new creed able to mount their rebellion and recruit multitudes of followers in their sweep through the empire Thomas Reilly argues that the Taiping faith although kindled by Protestant sources developed into a dynamic new Chinese religion whose conception of its sovereign deity challenged the legitimacy of the Chinese empire The Taiping rebels denounced the divine pretensions of the imperial title and the sacred character of the imperial office as blasphemous usurpations of Shangdi's title and position In place of the imperial institution the rebels called for restoration of the classical system of kingship Previous rebellions had declared their contemporary dynasties corrupt and therefore in need of revival the Taiping by contrast branded the entire imperial order blasphemous and in need of replacement In this study Reilly emphasizes the Christian elements of the Taiping faith showing how Protestant missionaries built on earlier Catholic efforts to translate Christianity into a Chinese idiom Prior studies of the rebellion have failed to appreciate how Hong Xiuquan's interpretation of Christianity connected the Taiping faith to an imperial Chinese cultural and religious context The Taiping Heavenly Kingdom shows how the Bible in particular a Chinese translation of the Old Testament profoundly influenced Hong and his followers leading them to understand the first three of the Ten Commandments as an indictment of the imperial order The rebels thus sought to destroy imperial culture along with its institutions and Confucian underpinnings all of which they regarded as blasphemous Strongly iconoclastic the Taiping followers smashed religious statues and imperially approved icons throughout the lands they conquered By such actions the Taiping Rebellion transformed at least for its followers but to some extent for all Chinese how Chinese people thought about religion the imperial title and office and the entire traditional imperial and Confucian order This book makes a major contribution to the study of the Taiping Rebellion and to our understanding of the ideology of both the rebels and the traditional imperial order they opposed It will appeal to scholars in the fields of Chinese history religion and culture and of Christian theology and church history **The Vulnerability of Integrity in Early Confucian Thought** Michael David Kaulana Ing, 2017 This book is about the necessity and even value of vulnerability in human experience In it Michael Ing brings early Chinese texts into dialogue with questions about the ways in which meaningful things are vulnerable to powers beyond our control and more specifically how relationships with meaningful others might compel tragic actions
