Blok, 2021-10-18 This book gives a detailed account of the most interesting period in the life of the Dutch humanist scholar Isaac Vossius Leiden 1618 Windsor 1689 It is largely based on Vossius s extensive correspondence much of which has never been published before In particular Isaac s correspondence with his father Gerardus Joannes Vossius has been thoroughly investigated and is a prime source of information here Isaac Vossius s travels through England France and Italy followed his formative years at Leiden and Amsterdam during which time he had come under the strong influence of the French scholar Claude Saumaise A narrative account of these travels is given and Vossius s contacts with the various circles of scholars that he encountered are discussed in detail Such contacts allowed him to enter libraries otherwise difficult of access and there he continued his search for manuscripts Vossius s period as a wandering scholar can be said to have been rounded off with the year that he spent in Paris as secretary to Hugo Grotius All this time Vossius was building up his own collection of books and the fruits of these library researches were the philological editions that he began to publish in the four years that followed A new phase of Vossius s life opened in 1648 when Queen

Christina of Sweden invited him then still only thirty to come to her court. The following six years were the most turbulent in the scholar's life. He became the queen's tutor in Greek and also her personal confidant. Under Vossius's guidance the queen steeped herself in the study of Plato and the Neoplatonists while the philosophy of Descartes whom she likewise invited to Stockholm seems to have held little interest for her. It was while Vossius was at the Swedish court that he finally came into open conflict with Saumaise his former mentor. Vossius built up a magnificent library for Christina. This collection was however dispersed even before it has been completed though unfortunately not before Vossius's own books had been inadvertently incorporated into that library. With the queen's approval Vossius then selected a new collection for himself from the royal library. In 1655 Vossius disillusioned withdrew to the quiet of his own study in The Hague. Since 1690 his collection of books and manuscripts has been housed in the University Library at Leiden where it forms the basis of the international fame of that institution.

Art Deco Bookbindings Yves Peyra(c), George Fletcher, 2004-03. Pierre Legrain and Rose Adler transformed bookbinding into a medium of playful and dazzling experimentation and craftsmanship. Their colorful imaginative works often made in exotic materials are found only in a few prized collections and have rarely been available to the general public. Now this selection of more than sixty designs colored paper maquettes and realized bindings are collected in one exquisite volume with insightful texts introducing the work and discussing its revolutionary effect on modern design. Among the brilliant array of bindings are ones made especially for works by Colette Paul Verlaine Andre Gide Guillaume Apollinaire Stephane Mallarme Michel Leiris and Jean Giraudoux from the publisher.
