Cours Camarade:

Par delà les frontières , *Lipstick Traces* Greil Marcus, 1990 Greil Marcus author of *Mystery Train* widely acclaimed as the best book ever written about America as seen through its music began work on this new book out of a fascination with the Sex Pistols that scandalous antimusical group invented in London in 1975 and dead within two years which sparked the emergence of the culture called punk eoeI am an antichrist e shouted singer Johnny Rotten ewhere in the world of pop music did that come from Looking for an answer with a high sense of the drama of the journey Marcus takes us down the dark paths of counterhistory a route of blasphemy adventure and surprise This is no mere search for cultural antecedents Instead what Marcus so brilliantly shows is that various kinds of angry absolute demands edemands on society art and all the governing structures of everyday life eseem to be coded in phrases images and actions passed on invisibly but inevitably by people quite unaware of each other Marcus lets us hear strange yet familiar voices of such heretics as the Brethren of the Free Spirit in medieval Europe and the Ranters in seventeenth century England the dadaists in Zurich in 1916 and Berlin in 1918 wearing death masks chanting glossolalia one Michel Mourre who in 1950 took over Easter Mass at Notre Dame to proclaim the death of God the Lettrist International and the Situationist International small groups of Paris ebased artists and writers surrounding Guy Debord who produced blank screen films prophetic graffiti and perhaps the most provocative social criticism of the 1950s and e tm 60s the rioting students and workers of May e tm 68 scrawling cryptic slogans on city walls and bringing France to a halt the Sex Pistols in London recording the savage eoeAnarchy in the U K e and eoeGod Save the Queen e Although the Sex Pistols shape the beginning and the end of the story *Lipstick Traces* is not a book about music it is about a common voice discovered and transmitted in many forms Working from scores of previously unexamined and untranslated essays manifestos and filmscripts from old photographs dada sound poetry punk songs collages and classic texts from Marx to Henri Lefebvre Marcus takes us deep behind the acknowledged events of our era into a hidden tradition of moments that would seem imaginary except for the fact that they are real a tradition of shared utopias solitary refusals impossible demands and unexplained disappearances Written with grace and force humor and an insistent sense of tragedy and danger *Lipstick Traces* tells a story as disruptive and compelling as the century itself , *The Spirit of '68* Gerd-Rainer Horn, 2008-10-02 In virtually all corners of the Western world 1968 witnessed a highly unusual sequence of popular rebellions In Italy France Spain Vietnam the United States West Germany Czechoslovakia Mexico and elsewhere millions of individuals took matters into their own hands to counter imperialism capitalism autocracy bureaucracy and all forms of hierarchical thinking Recent reinterpretations have sought to play down any real challenge to the socio political status quo in these events but Gerd Rainer Horn s book offers a spirited counterblast 1968 he argues opened up the possibility that economic and political elites on both sides of the Iron Curtain could be toppled from their position of unnatural superiority to make way for a new society where everyday people could for the first time become masters of their

own destiny Furthermore Horn contends the moment of crisis and opportunity culminating in 1968 must be seen as part of a larger period of experimentation and revolt The ten years between 1956 and 1966 characterised above all by the flourishing of iconoclastic cultural rebellions can be regarded as a preparatory period which set the stage for the non conformist cum political revolts of the subsequent red decade 1966 1976 Horn s geographic centres of attention are Western Europe including the first full examination of Mediterranean revolts and North America He placed particular emphasis on cultural nonconformity the student movement working class rebellions the changing contours of the Left and the meaning of participatory democracy His book will make fascinating reading for anyone interested in this turbulent period and the fundamental changes that were wrought upon societies either side of the Atlantic

The Third Unconscious

Franco Bifo Berardi,2021-10-26 A wide ranging exploration of the present and the future of the Unconscious The Unconscious knows no time it has no before and after it does not have a history of its own Yet it does not always remain the same Different political and economic conditions transform the way in which the Unconscious emerges within the psychosphere of society In the early 20th century Freud characterized the Unconscious as the dark side of the well order framework of Progress and Reason At the end of the past century Deleuze and

Guattari described it as a laboratory the magmatic force ceaselessly bringing to the fore new possibilities of imagination Today at a time of viral pandemics and in the midst of the catastrophic collapse of capitalism the Unconscious has begun to emerge in yet another form In this book Franco Bifo Berardi vividly portrays the form in which the Unconscious will make itself manifest for decades to come and the challenges that it will pose to our possibilities of political action poetic imagination and therapy *Dissidents du quotidien* Dominique Gros,1987 **Et le buisson devint cendre** Manès Sperber,1990 Plus profond que l'abîme Sperber Manès 4070 *Réveillez-vous, amis chrétiens !* Patrice Grimald,2025-09-11T00:00:00Z La plupart des Français sont conscients de vivre dans un pays en déclin Ce constat résulte d'impitoyables causes telles que Une dette publique abyssale et incontrôlée dont le remboursement coûterait aujourd'hui 66000 euros chaque adulte français La dégradation du lien social de l'autorité et des institutions publiques la faillite spirituelle Les effets dévastateurs d'idéologies sociales importées des Etats Unis Une immigration préoccupante L'accroissement de l'insécurité que stigmatise même le département d'Etat américain en charge des affaires consulaires la France est le seul pays tre caractérisé par du terrorisme et des troubles civils de nature entraîner des violences des perturbations majeures et ou des risques pour la sécurité Relever l'espérance d'un avenir français Il importe de rappeler que la France procède d'une civilisation prestigieuse qui a gagné son Histoire au fil de siècles d'ombres et de lumières dont procède l'identité reçue ou acceptée des très humains qui composent sa nation La cohésion d'un peuple se retrempe dans la mémoire commune des grandes époques de son Histoire Quelles sont ces influences funestes issues de dégradations internes ou provenant d'autres cultures hostiles sa nature et comment en former les effets Un autre puissant vecteur d'avenir pour la France se situe dans la renaissance de l'Europe au sein d'une configuration des nations Un impératif d'agir ou disparaître *Radicalism in French Culture* Niilo Kauppi,2016-09-17 An invisible pattern draws together most studies dealing with French cultural radicalism in the 1960s with intellectual creation reduced to individual creation and the role of semiotic and social factors that influence intellectual innovation minimized Sociological approaches often see a more or less external link between social location and intellectual production but because of their structural approach they are incapable of taking into account unique historical circumstances the crucial role of personal impulses and more importantly the semiotic logic of ideas as conditions of innovative thinking This ground breaking book will further an internal sociological analysis of ideas and styles of thought It will show that the defining but largely neglected feature of what has become French theory was a collective mind and style of thought an explosive but fragile mixture of scientific and political radicalism that rather quickly watered down to academic orthodoxy For some time radical intellectuals succeeded in producing ideas that were perfectly in tune with the demands of the consumers mostly the young university audience Ideas were used as part of radical posture that was set in opposition to the establishment and those in power Ideas could not be too empirical or verifiable and they had to shock It is not surprising that a slew of new sciences and concepts were invented to indicate this radical posture The central argument of this study is that

ideas become power ideas only if they succeed in uniting individual and collective psychic investment in powerful social networks with significant institutional and political backing These conditions were met in the French context for a certain specific period of time From roughly the mid 1960s to the beginning of the 1970s radical intellectuals such as Roland Barthes Pierre Bourdieu Jacques Derrida Michel Foucault Julia Kristeva developed a host of new ideas concepts and theories a number of which have subsequently been labelled as French theory
