teaching research and community engagement Social Studies Teacher Education Christopher C. Martell, 2017-10-01 Over the past decade the world has experienced a major economic collapse the increasing racial inequity and high profile police killings of unarmed Black and Brown people the persistence of global terrorism a large scale refugee crisis and the negative impacts of global warming In reaction to social instability there are growing populist movements in the United States and across the world which present major challenges for democracy Concurrently there has been a rise of grassroots political movements focused on increasing equity in relation to race gender class sexual orientation and religion The role of social studies teachers in preparing the next generation of democratic citizens has never been more important and the call for more social studies teacher educators to help teachers address these critical issues only gets louder This volume examines how teacher educators are or are not supporting beginning and experienced social studies teachers in such turbulent times and it offers suggestions for moving the field forward by better educating teachers to address growing local national and global concerns In their chapters authors in social studies education present research with implications for practice related to the following topics race gender sexual orientation immigration religion disciplinary literacy global civics and social justice This book is guided by the following overarching questions What can the research tell us about preparing and developing social studies teachers for an increasingly complex interconnected and rapidly changing world How can we educate social studies teachers to teach against the grain Cochran Smith 1991 2001b centering their work on social justice social change and social responsibility **Teacher Education Programs and Online Learning Tools: Innovations in Teacher Preparation**

Hartshorne, Richard, Heafner, Tina L., Petty, Teresa, 2012-07-31 While online learning has become pervasive in many fields in higher education it has been adopted somewhat slower in teacher education In addition more research is needed to empirically evaluate the effectiveness of online education in teacher preparation Teacher Education Programs and Online Learning Tools Innovations in Teacher Preparation presents information about current online practices and research in teacher education programs and explores the opportunities methods and issues surrounding technologically innovative opportunities in teacher preparation It presents empirical evidence of teacher candidate learning and assessment in the context of various online aspects of teacher licensure **The Oxford Handbook of International Studies Pedagogy**

Heather A. Smith, Mark A. Boyer, David J. Hornsby, 2024 This volume on international studies pedagogy helps us think purposefully about the worlds we teach to our students and it shows us why engaging in reflective practice about how and what we teach matters The Handbook also provides strategies to engage students in a variety of ways to reflect on and engage with the complexities of the world in which we live **Bridging Research and Library Practice** Krystyna K.

Matusiak, Kawanna M. Bright, Debbie Schachter, 2023-11-20 Bridging the gap between research and practice communities is more pertinent than ever because of the need for evidence in developing and evaluating library services and programs The gap between research and library practice has been discussed in the library and information science LIS field for almost two

decades The issues range from limited transfer of ideas from research into practice to a lack of education in research methods for library practitioners This book introduces new voices from international research and practice communities into the discussion and contributes to the debate about the research practice divide Education and continuing training in research methods from international perspectives are explored and the experiences of researcher practitioners from several countries highlight the issues The volume includes chapters from LIS educators academic researchers and researcher practitioners from 18 countries It features the voices of instructors who teach research methods in LIS programs and library practitioners who engage in research The book is addressed to the global audience of LIS educators and practitioners with the goal of deepening the understanding of LIS education and training in research methods through sharing case studies and approaches to teaching and conducting research in practice *Thesaurus of ERIC Descriptors*, 1977 *Technology*
