Crack Belfast Year:

The Crack Sally Belfrage, 1987 *Dictionary of Contemporary Slang* Tony Thorne, 2014-02-27 With more than 7 000 definitions this book provides a definitive guide to the use of slang today It deals with drugs sport and contemporary society as well as favourite slang topics such as sex and bodily functions In this fully updated fourth edition of the highly acclaimed *Dictionary of Contemporary Slang* language and culture expert Tony Thorne explores the ever changing underworld of the English language bringing back intriguing examples of eccentricity and irreverence from the linguistic front line Thorne is a kind of slang detective going down the streets where other lexicographers fear to tread *Daily Telegraph* **Crimes of Loyalty** Ian S. Wood, 2006-05-19 Sectarian murder torture bloody power struggles and racketeering are what for many define their image of the Ulster Defence Association Yet as Northern Ireland's Troubles worsened in 1971 and 1972 it emerged with a mass membership to defend Loyalist areas against the IRA and to uphold the Union with Britain By 1974 it was able to defy the will of an elected government and it went on to formulate political strategies for working class Loyalism Ian S Wood uses his specialist knowledge as well as extensive interviews to recount these events and the ruthless war waged by the UDA on the nationalist community He explores issues such as the UDA's descent into criminality and its relationship with the secret war conducted by Britain's undercover services and he assesses what impact the organisation had on the outcome of Europe's worst political and ethnic conflict between 1945 and the break up of the Soviet Union and Yugoslavia after 1990

Socio-ideological fantasy and the Northern Ireland conflict Adrian Millar, 2013-07-19 Conducting a Lacanian inspired psychoanalysis of some of the most candid interview materials ever gathered from former IRA members and loyalists the author demonstrates through a careful examination of their slips of the tongue jokes rationalisations and contradictions that it is the unconscious dynamics of socio ideological fantasy i.e the unconscious pleasure people find in suffering domination submission ignorance failure and rivalry over jouissance that lead to the reproduction of antagonism between the Catholic and Protestant communities in Northern Ireland In the light of this he concludes that traditional approaches to conflict resolution which overlook the unconscious are doomed to failure and that a Lacanian psychoanalytic understanding of socio ideological fantasy has great potential for informing the way we understand and study all inter religious and ethnic conflicts Whether you find yourself agreeing with the arguments in this book or not you are sure to find it a welcome change from both the existing mainly conservative analyses of the Northern Ireland conflict and traditional approaches to conflict resolution **Northern Ireland and the Politics of Reconciliation** Dermot Keogh, Michael H. Haltzel, 1993 This collection adds to the extensive literature on Northern Ireland and Ireland by bringing together the leading academic and political figures working in the field and offering a comprehensive multidisciplinary overview of the historical process The topics discussed include the remote and proximate causes of the conflict fresh developments within the two states on the island the role of the Roman Catholic Church the rise of the ecumenical movement and the impact of the 1985 Anglo Irish

Agreement on the triangular relationship between Dublin Belfast and London The volume concludes with an evaluation of likely impact of membership of the European Community on the conflict in Northern Ireland The contributors to this book do not offer any easy solutions but provide a context in which the problem may be better understood by the international scholarly community and by the interested general reader *Northern Ireland* Marc Mulholland,2020 Since the plantation of Ulster in the 17th century Northern Irish people have been engaged in conflict Catholic against Protestant Republican against Unionist This text explores the pivotal moments in this history **Ethnicity Housing** Frederick W. Boal,2020-09-29 This title was first published in 2000 This work has its origins in the 1995 Congress of the International Federation for Housing and Planning held in Belfast The theme was Accommodating Differences Differences were defined in broad terms and included ethnic and social economic and political differences However Frederick W Boal s own interest in ethnic differences motivated him to invite a number of Congress participants to make available their papers for inclusion in this book of essays It seeks to offer experience that can be drawn on by housing practitioners who are operating in multi ethnic contexts It also provides empirical material that should contribute to the development of more soundly based theoretical insights in both urban sociology and social geography **A New History of Ireland Volume VII** J. R. Hill,Theodore William Moody,Francis X. Martin,Francis John Byrne,2010-08-26 Volume VII covers a period of major significance in Ireland s history the division of Ireland and the eventual establishment of the Irish Republic **Conflict at the Interface** Bert Preiss,2020-02-18 More than two decades after the Northern Ireland peace agreement conflict still flares between deprived Protestant Unionist Loyalist and Catholic Nationalist Republican working class interface communities who remain divided by numerous peace walls In light of Brexit the Irish border issue and the power sharing impasse progress in local peacebuilding has stalled This might even jeopardise the overall peace process Within this context this book explores largely empirically the nature and causes of conflict at the interface An attempt is also made to provide an outlook on peace in Northern Ireland and to highlight potential lessons for other conflict ridden divided societies *Feminist Nationalism* Lois West,2014-01-21 Feminist Nationalism demonstrates how feminism is redefining nationalism by presenting case studies from Europe the Middle East Africa Asia and the Americas Consisting of social movements and cultural ideologies feminist nationalism links struggles for women s rights with struggles for group identity rights and or national sovereignty in their goals of self determination Many analyses of nationalism assume it is identical for women and men in its definition and operation This collection challenges that framework by placing women at the center and demonstrating how feminism is redefining nationalism both in particular cases and in the global context **Don't Mention the War** David Miller,1994-10-20 The media has told us for over twenty five years that the conflict in Northern Ireland is irrational and has no objective social basis The role of the British Army in Northern Ireland is still described as a peacekeeping one the cause of the troubles as terrorism Yet even in the light of the peace initiatives many people in Britain and abroad know little about the war that has

not been called a war Why is this so Don't Mention the War explains some of the fundamental reasons why there is such a dearth of knowledge and concern about Northern Ireland and how the problem has been defined both publicly and politically Miller argues that the central strategy of the British state since 1969 has been to contain the troubles and bring about a return to normal In pursuing this argument Miller examines the strategies and tactics used by the British government the nationalists the unionists and others to influence perceptions and ideas about the conflict through press statements and other information management activities This is a unique and timely work based on over 100 interviews with journalists government officials political activists and politicians which lays bare the lies of the propagandists and paints a disturbing picture of the success of the media managers in manipulating our perception of the conflict in Northern Ireland Who's Afraid of Children? Helen Brocklehurst, 2006 Brocklehurst's impressive work breaks new ground in normative international political theory The author develops a new theoretical framework which exposes how children are present in international relations and security practices Folk Literature of the British Isles Eloise Speed Norton, 1978 The purpose of this book is two fold It is an attempt to show that study tours can have substance and focus and benefit not only those who participate but others as well Secondly it is an attempt to draw attention to an area of ethnic folk literature that those who work with children and young adults in the United States should know much more thoroughly than they do at present This book is a compilation of essays articles research and bibliographies that I feel should be shared with others interested in the subject of folk literature of the British Isles for children and young adults Introduction **Interpreting Northern Ireland** John Whyte, 1991-10-03 Relative to its size Northern Ireland is possibly the most heavily researched area on earth hundreds of books and thousands of articles have been published since the current troubles began in the mid 1960s John Whyte had been studying Northern Ireland since the mid 1960s In Interpreting Northern Ireland he provides a badly needed guide to the mass of literature and comment In Part I he surveys the research on the nature and extent of the community divide examining in turn the religious economic political and psychological aspects of the issue In Part II he discusses ideological interpretations of the Northern Ireland problem from unionist and nationalist to Marxist In the final section of the book he surveys the various solutions that have been proposed and looks critically at what the mass of research has achieved He suggests that if it has not achieved more it may be because it has sometimes asked the wrong questions Ireland, a Bicycle, and a Tin Whistle David A. Wilson, 1995-03-01 As he travels through the North Wilson gets beneath the political surface to portray both the tragedy and comedy of everyday life in the Protestant and Catholic communities Aware of the polarized image that each side has of the other he emphasizes the importance of finding common ground and of asserting the middle against the extremes Just as traditional Irish music is characterized by ornamentations and elaborations on a melodic theme Ireland a Bicycle and a Tin Whistle is full of variations and wanderings on the theme of the trip itself And just as traditional Irish musicians will follow a sad slow air with a lively foot tapping reel Wilson's mood ranges from the nostalgic

and reflective to the irreverent and mischievous If there is a lament in one ear there is a song in the other *Northern Ireland Since 1945* Sabine Wichert, 1999 FRONT OF COVER Final 5 11 98 NORTHERN IRELAND SINCE 1945 Second Edition SABINE WICHERT Postwar World logo SPINE Postwar World logo NORTHERN IRELAND SINCE 1945 Second Edition WICHERT colophon OUTSIDE TRIM Probable price Probable publication BACK OF COVER A To those who understand no explanation is necessary To those who will not understand no explanation is possible A The different attitudes that can be read into this celebrated graffito from the Falls Road in 1980s Belfast arrogance belligerence alienation intransigence and despair amongst them have all contributed to the isolation of Northern Ireland in the modern world Explanation and understanding however are the stock in trade of the historian and it was to provide the first and assist the second that Sabine Wichert published this well known study in 1991 It rapidly established itself as Terence Ranger predicted at the time in *Irish Studies Review* as Aa standard text in contemporary history and politics coursesA For other reviews of the First Edition see inside the front cover There are many reasons for its success it is a work of great authority formidably well grounded in the scholarship rather than the prejudices of the subject Sabine WichertAs approach is distinctively that of a historian rather than a political scientist or a journalist she has a special understanding of the economic factors underlying the troubled provinceAs recent history and particularly she herself a German academic who has lived and worked in Northern Ireland for almost 30 years now is uniquely well placed as both outsider and insider to write with impartiality insight and compassion about her adopted home Much has happened to Northern Ireland since the book was published and this Second Edition will be widely welcomed The existing text has been reconsidered in the light of fresh perspectives and many new economic and social tables have been included along with a thoroughgoing overhaul of the extensive bibliography Above all the coverage has been fully updated to incorporate the major events of recent years particularly the developments from the Anglo Irish Agreement through the evolving Peace Process to the elections to Northern IrelandAs new Assembly For this is a critical phase in the province for the first time in its recent history a real possibility of stabilisation and more peaceful and democratic forms of government can be detected and Sabine Wichert examines the contribution of all sides including the Irish British and US governments to this changing climate Yet tensions remain and readers of this important Second Edition will await with mingled hope and apprehension the arrival of its eventual successor to clarify whether these apparently brightening horizons do indeed mark a turning point or were only another false dawn SABINE WICHERT is Senior Lecturer at the QueenAs University of Belfast where she has taught since 1971 **The Paths to Domination, Resistance, and Terror** Carolyn Nordstrom, Joann Martin, 1992-02-25 The Paths to Terror offers a new and refreshing perspective on sociopolitical violence one that highlights the human experience of domination resistance and terror as they are woven into the fabric of everyday life These innovative essays take the reader from the Americas through Europe and the Middle East and to Asia to capture the cultural construction of sociopolitical violence The authors expand our view of the ethnographic

reality revealing the complex interplay among local national and international actors in the perpetuation of violence and terror The organization of the essays along a continuum from domination through the emergence of resistance to the development of cultures of conflict and terror underlines the value of understanding the growth and resolution of violence as cultural dynamics *Britain Since 1945* Peter Leese,2006-09-21 Britain since 1945 is an ideal introductory text for students of British Studies cultural studies and modern British history Assuming no prior knowledge Leese offers students of all backgrounds both the essential chronological grounding and vital insight into the issues of identity necessary for a full understanding of contemporary Britain *Ireland and Empire* Stephen Howe,2000-04-06 A growing band of historians political commentators and cultural critics has sought to analyse Ireland s past and present in colonial terms For some including Irish Republicans it is the only proper framework for understanding Ireland Others reject the very use of the colonial label for Ireland s history while using the term for the present arouses outrage especially amongst Ulster Unionists This book evaluates and analuses these controversies ranging from debates over the ancient and medieval past to those in current literary and postcolonial theory Scholarly at times polemical it is the most comprehensive study of these themes ever to appear and will undoubtedly stimulate discussion for years to come *Terrorists' Target Selection* C. Drake,1998-08-26 The author examines the factors which influence terrorists target selection In particular he looks at the influence of the ideologies strategies and tactics of terrorist groups and describes how these are restricted by the terrorists resources by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters He concludes that terrorists target selection is often both explicable and logical
