

A photograph of a beach at sunset. The sky is a warm orange and yellow. The ocean is dark, with white foam from waves crashing against a line of dark, jagged rocks in the foreground. The text "Courage comes from within." is overlaid in white on a dark rectangular background.

Courage comes
from within.

When Conscience Calls Kristen Renwick Monroe, 2023-10-06 What is moral courage Why is it important and what drives it An argument for why we should care about moral courage and how it shapes the world around us War totalitarianism pandemics and political repression are among the many challenges and crises that force us to consider what humane people can do when the world falls apart When tolerance disappears truth becomes rare and civilized discourse is a distant ideal why do certain individuals find the courage to speak out when most do not When Conscience Calls offers powerful portraits of ordinary people performing extraordinary acts be it confronting presidents and racist mobs or simply caring for and protecting the vulnerable Uniting these portraits is the idea that moral courage stems not from choice but from one's identity Ultimately Kristen Renwick Monroe argues bravery derives from who we are our core values and our capacity to believe we must change the world When Conscience Calls is a rich examination of why some citizens embrace anger bitterness and fearmongering while others seek common ground fight against dogma and stand up to hate

Christians among the Virtues Stanley Hauerwas, Charles Pinches, 2022-12-06 Christians among the Virtues investigates the distinctiveness of virtues as illuminated by Christian practice using a discussion of Aristotle's ethics together with the work of significant contemporary scholars such as Alasdair MacIntyre and Martha Nussbaum Hauerwas and Pinches converse with learn from and also critically engage powerful and explicitly non Christian accounts of virtues and

then form a specifically Christian account of certain key virtues including obedience hope courage and patience This book will deepen the current public debate about virtue by showing how different traditions and practices yield distinctive understandings of the virtues and by articulating the particularity of virtues informed by Christian practice Hauerwas and Pinches begin with a discussion of Aristotle s account of happiness virtue and friendship and explore how the temporal character of life threatens the possibility of being virtuous The authors then contrast this idea with the Christian recognition of our temporal limitations as a call to virtue rather than a threat In the second section the authors address a work by John Casey which attempts to present an account of the virtues purged of their Christian heritage This analysis as well as the critical readings of MacIntyre and Nussbaum will be of particular interest to philosophers and theologians alike The authors bring a theological voice to the popular and philosophical debates about virtue While the work encourages Christians to think about what is unique to Christian virtue its specificity does not limit its applicability but opens up and deepens the debate over the particular interpretations of virtues calling on others to present more specific articulations of what it means to be courageous obedient hopeful and patient and to contrast those accounts with the Christian interpretations presented by the authors In this respect Christians among the Virtues is the first work in what could be called the second stage of the recovery of the virtues the work of understanding the difference among interpretations of the virtues in the light of different practices and traditions
