Transfer Pricing and Value Creation Raffaele Petruzzi, Romero J.S. Tavares Esq., 2019-09-02 Value Creation and its effects on Transfer Pricing and tax law Emerging from the OECD G20 BEPS Project a new somewhat fuzzy notion of Value Creation came to permeate not only Transfer Pricing language but also wider allocation rules and anti abuse provisions in international tax law The notion of Value Creation reframes the interpretation and application of the Arm's Length Principle ALP that is embedded in Articles 7 and 9 of the OECD Model Convention This new Value Creation notion and approach assist in understanding key enterprise functions while different industry sectors manifest these concepts in various ways Situating such notions and this approach within the law of tax treaties and analyzing terms of the OECD Transfer Pricing Guidelines alongside their factual context is the aim of this book Here law students address Transfer Pricing and Value Creation in sectors as varied as commodities trade automotive consumer products food and beverages pharmaceutical and life sciences telecommunications and the key topic of value creation in a digitalized economy Our LL M students were required to address issues not explored in legal research and to discuss factual topics relevant for Transfer Pricing All students focused on topics that are new to the international tax debate that keep evolving and on factual matters that often escape legal research

Quantitative Models for Value-Based Supply Chain Management Marcus Brandenburg, 2012-10-24 Supply chain management SCM strives for creating competitive advantage and value for customers by integrating business processes from end users through original suppliers However the question of how SCM influences the value of a firm is not fully answered Various conceptual frameworks that explain the coherence of SCM and company value comprehended as value based SCM are well accepted in scientific research but quantitative approaches to value based SCM are found rather seldom The book contributes to this research gap by proposing quantitative models that allow for assessing influences of SCM on the value of a firm Opposed to existing models that limit the observation to chosen facets of SCM or selected value drivers this holistic approach is adequate to reflect configurational and operational aspects of SCM cover all phases of the product life cycle financially compare value impacts of profitability related and asset related value drivers and assess influences of dynamics and uncertainties on company value

Functional Thinking for Value Creation Jürgen Hesselbach, Christoph Herrmann, 2011-03-18 After the IPS2 conferences in Cranfield and Linköping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems IPS2 2011 takes place in Braunschweig Germany IPS2 itself is defined as an integrated industrial product and service offering that delivers value in use The customers expect comprehensive solutions which are adapted to their individual needs IPS2 offers the possibility to stand out from competition and for long term customer loyalty Particularly in times of economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines The 3rd CIRP International

Conference on Industrial Product Service Systems IPS2 2011 serves as a platform for such collaborations and the discussion of new scientific ideas
