New York Magazine, 1994-09-26 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

All's Fair Mary Matalin, James Carville, 1995 Now in the most provocative look at the inside of a national election battle ever published, Matalin and Carville, the chief strategists for the Bush and Clinton presidential campaigns, tell their sides of the story, laying bare how politicians and their cohorts really operate and revealing how their romance flourished in the most unlikely circumstances. 16 pages of photos.

Behind the Curtain of Power Rune Olsø, 2021-05-19 *Behind the Curtain of Power* How Karl Rove, David Axelrod, Roger Ailes, James Carville, Dick Morris, and Lee Atwater won the toughest race in the world and changed America. By Rune Ols. We all know the names of the last US presidents, but who were the masterminds that catapulted them into the highest echelon of power? Go behind the scenes for an honest look at the way a handful of exceptional political operatives manipulated, cajoled, and maneuvered their way through the political battlefield of presidential elections. Discover who they are, deep down where they come from, and the goals and fears driving them. With nicknames like Bad Boy, the Ragin' Cajun, the Architect, and the Axe, they left a trail of victims in their paths. To some, they are heroes; to others, villains. We cannot fully understand history without understanding them. *Behind the Curtain of Power* is the fascinating story of the political masterminds that orchestrated victories in the toughest race in the world and changed America.

The Other Elites MaryAnne Borrelli, Janet M. Martin, 2000-12-15 Contains 13 contributions divided into four sections: theoretical and comparative perspectives on women as political executives; institutional perspectives on women as officeholders in the executive branch; institutional perspectives on the President, Congress, and the Courts; and policy and participation issues relating to women as executive activists and as citizens. BOOK JACKET The Presidency of George H. W. Bush John Robert Greene, 2015-06-19 After George H W Bush lost his re election bid to Bill Clinton in 1992 John Robert Greene s verdict on the 41st president of the United States was that he brought no discredit to the office and was both patient and prudent making few mistakes In the years since the release of Greene s profile of the senior Bush deemed

by Publishers Weekly the essential introduction to Bush's abbreviated but still consequential tenure in office a wealth of materials about Bush's presidency has become available even as distance has sharpened our perspective on the Bush years In this significantly expanded second edition of *The Presidency of George H W Bush* Greene takes full advantage of newly released documents to revisit Bush's term to consider his post presidency accomplishment and to enhance and clarify our understanding of his place in history Such milestones as the fall of the Berlin Wall the reunification of Germany the fall of the Soviet Union the savings and loan crisis and the transition to the Clinton administration receive renewed and far more detailed treatment here as do the ramifications of George H W Bush's positions and policies Greene also devotes ample attention to Bush's post presidency including his relationship with his son President George W Bush as well as the development of his close friendship with Bill Clinton The elder Bush emerges from this reappraisal as a considerably more activist president with a more activist administration than was previously assumed Greene's concise and readable account drawing on the contents of the Bush Library the papers of James A Baker III and personal interviews shows us the 41st president and thus an important chapter in American history in a new and more revealing light

[The Race to 270](#) Daron R. Shaw, 2008-09-15 The Electoral College has played an important role in presidential politics since our nation's founding but surprisingly little information exists about precisely how it affects campaign strategy Daron R Shaw a scholar who also worked as a strategist in both Bush Cheney campaigns has written the first book to go inside the past two presidential elections and reveal how the race to 270 was won and lost Shaw's nonpartisan study lays out how both the Democrats and the Republicans developed strategies to win decisive electoral votes by targeting specific states and media markets Drawing on his own experience with Republican battle plans candidate schedules and advertising purchases plus key contacts in the Gore and Kerry camps Shaw goes on to show that both sides used information on weekly shifts in candidate support to reallocate media buys and schedule appearances Most importantly he uses strikingly original research to prove that these carefully constructed plans significantly affected voters preferences and opinions not in huge numbers but enough to shift critical votes in key battlegrounds Bridging the gap between those who study campaigns and those who conduct them *The Race to 270* will provide political scientists and practitioners alike with fresh insights about the new strategies that stem from one of our oldest institutions
