The Ladies' Repository, 1867 The idea of this women's magazine originated with Samuel Williams a Cincinnati Methodist who thought that Christian women needed a magazine less worldly than Godey's Lady's Book and Snowden's Lady's Companion Written largely by ministers this exceptionally well printed little magazine contained well written essays of a moral character plenty of poetry articles on historical and scientific matters and book reviews Among western writers were Alice Cary who contributed over a hundred sketches and poems her sister Phoebe Cary Otway Curry Moncure D Conway and Joshua R Giddings and New England contributors included Mrs Lydia Sigourney Hannah F Gould and Julia C R Dorr By 1851 each issue published a piece of music and two steel plates usually landscapes or portraits When Davis E Clark took over the editorship in 1853 the magazine became brighter and attained a circulation of 40 000 Unlike his predecessors Clark included fictional pieces and made the Repository a magazine for the whole family After the war it began to decline and in 1876 was replaced by the National Repository The Ladies Repository was an excellent representative of the Methodist mind and heart Its essays sketches and poems its good steel engravings and its moral tone gave it a charm all its own Cf American periodicals 1741 1900

El Paso Days Elroy Bode, 2014-03-01 The thoughts scenes and observations gathered in this collection written by an aging Elroy Bode concern themselves on the surface with the daily happenings during a typical year reflecting the author's sense of kinship with the people creatures and beauty of the Texas desert Upon closer inspection however these short sketches deal with the nature and meaning of life and the inevitable loss of its pleasures satisfactions

and mysteries especially in the context of the natural world that surrounds him The book ends with a long and powerful recounting by Bode of the incredible circumstances surrounding the death of his son Healing the Ravaged Soul Sue Magrath,2017-01-26 Why does God hate me How can I believe in a God who has allowed my suffering These are just two of the difficult spiritual questions that survivors of child sexual abuse struggle with In addition survivors often have mixed feelings about the church because of perceived judgment and indifference their own shame or their discomfort with certain aspects of worship Of the many after effects of sexual abuse spiritual wounds are the least talked about yet they are central to adult survivors who seek to heal and find faith and meaning in their lives With grace and gentleness this book seeks to answer survivors spiritual questions and address some of the common misconceptions that often develop when young victims attempt to understand what has happened to them Healing the Ravaged Soul explores the origins of their spiritual issues with clear psychological insights and guides survivors on a spiritual journey toward healing wholeness and a deeper relationship with God **A Perfect Lie** Lisa Renee Jones,2022-08-09 Secrets Lies A man There s always a man And there s always a truth to be told I m Hailey Anne Monroe I m twenty eight years old An artist who found her muse on the canvas because I wasn t allowed to have friends or even keep a journal And yes if you haven t guessed by now I m that Hailey Anne Monroe daughter to Thomas Frank Monroe the man who was a half percentage point from becoming President of the United States If you were able to ask him he d probably tell you that I was the half point But you can t ask him and he can t tell you He s dead They re all dead and now I can speak *The World's Columbian Exposition, Chicago, 1893* Trumbull White,1893

Solvay in 1912 was considered a turning point in the world of physics. Located in Brussels, the conferences were devoted to outstanding open problems in both physics and chemistry. The most famous conference was the October 1927 Fifth Solvay International Conference on Electrons and Photons, where the world's most so-called notable physicists met to discuss the newly formulated quantum theory. The leading figures were Albert Einstein and Niels Bohr. Settled Science and Consensus Science began at this time, and it is also the moment we stopped doing real physics in the 20th and 21st centuries. The bold theoretical and experimental era of physics, by the likes of Maxwell at the very dawn of science as we know it, ended abruptly at the start of the 20th Century. That was when our currently accepted and very different view of physics, everything from the Big Bang Expanding Universe Cosmology to Relativistic limitations imposed by flat space and non-simultaneous time, complicated by a non-intuitive Quantum Mechanics of suddenly uncertain atomic realities, all took a very different turn from where they had been headed. The quantum theory discarded the basic physics principle of cause followed by effect. Einstein was disenchanted with the Heisenberg Uncertainty Principle and created his own fatal damage when his thought experiment made up the theory of relativity. He isolated his arbitrary observer from the rest of the universe, discarded the absolute standards of length and time, invented an imaginary proper clock that does not exist, removed the aether, and the effect of gravity became an illusion. Make sure you understand this was not done using any scientific method, i.e. observation, experimentation, and replication, but by what became known as a thought experiment. Einstein should have kept his day job in the post office as he has set physics, the so-called Queen of the Sciences, back 100 years. This conference was also the culmination of the struggle between Einstein and the scientific realists who wanted strict rules of scientific method as laid out by Charles Peirce and Karl Popper, versus Bohr and the instrumentalists who wanted looser rules based on expected outcomes regardless of causes and effects. Starting at this point, the instrumentalists won, instrumentalism having been seen as the norm ever since. And that has been the insurmountable problem with science ever since: the loss of the scientific method and accepting causes without effects and conversely. These are all unforgivable losses to the great physicists of the past. We were propelled nearly 2,000 years into the past to the Greek Ptolemaic era when geometric symmetry and mathematical beauty dictated that endless ad hoc epicycles be added to perfect circular planetary orbits in order to match appearances. That dogma lasted almost 1,500 years. How long will we allow relativity dogma and its taboos to persist? It should be no surprise that since that fateful conference in 1927, science has failed to produce any fundamental breakthroughs, anything like the 19th century when some of the finest experimental physicists such as Ampère, Gauss, Faraday, and Maxwell were discovering the secrets of electricity and electromagnetism. The electric universe and plasma physics and cosmology follow the lead of these experimenting electrical pioneers. According to me, I will also discard the thought experiments of Einstein and defer to real scientists, namely Tesla, Maxwell, Thornhill, and others who long ago recognized that all perceptible matter comes from a primary substance of a tenuity beyond conception, filling all space, the Akasha or luminiferous aether, which is

acted upon by the life giving Prana or creative force calling into existence in never ending cycles all things and phenomena This primary substance thrown into infinitesimal whirls of prodigious velocity becomes gross matter the force subsiding the motion ceases and matter disappears reverting to the primary substance The structure and nature is most likely a vortex appearing like a donut from above or below What I will attempt to present to you in the book is the real story of our history and the real fact that we and the universe and everything in it is electric in nature I will present facts and evidence that demonstrate that all religions mystery schools the Bible and other religious books are nothing more than a rewritten and edited story of a solar system wide cataclysm A story that was written rewritten and edited to make it appear that Jewish people were the Chosen People of God We will see that all the pyramids especially those on the Giza Plateau were built as an energy gathering converting and storing machines to try to save the Earth and Mankind from the electromagnetic perturbations caused by the Sirius System the Sun s binary twin that occurs approximately every 24 000 years The Great Pyramid was not a weapon and certainly not a death star used to explode planets There has been no atomic wars on Earth and no landings by alien beings on Earth nor on any other planet in our solar system There is no Planet X and there is no Nibiru The so called Planet of the Crossing is actually the star Sirius the Sun s binary twin We will see that all the five visible planets Saturn Mercury Mars Jupiter Venus and the two luminaries the Moon and our current Sun became the Gods with several of them coming down to Earth from the Heavens to write our history only a few thousand years ago We will also see and understand that the vast amount of cratering and channels on all of the planets in our solar system are not the result of random meteor or comet strikes wind or water erosion but are the results of electrical arcing between planets that has scarred the surface of the planets and has been demonstrated and replicated in exact detail in plasma laboratories We will examine the Exodus within the context of the Earth in upheaval from a natural solar system wide cataclysm and how Akhenaton Moses and the Ark are main characters in the event We will also examine Mount Sinai and its real identity and location as well as the Sacred Stone s its use who stole them and why This story does not depend on miracles or faith but is based upon evidence both ancient and current It is our genuine history that has been kept from us in order to maintain control by those in power If you can not see the truth in this story and you want to believe in religions or the current false consensus or settled science you must believe them in one of three ways by faith by ignorance or by indoctrination by faith because you cannot believe something which does not have adequate scientific evidence except as a philosophical viewpoint by ignorance because the only way to be certain in your mind that these theories could work is because you do not have all the facts or if you have been so far indoctrinated you have not made a logical conclusion with your own rational mind you may have never even tried to question what you have been told to believe You must decide for yourself what you will believe If you decide to believe in today s biblical religious myths or consensus and settled pseudoscience of the quackademics and media that is fine just realize that none are supported by true science using the Scientific Method They are myths and not
