Reading Architecture with Freud and Lacan Lorens Holm, 2022-09-30 Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses

**Snowcub** Graham Fulbright,2021-07-06 If you relish writing which pushes the envelope with the unconventional Snowcub is for you Graham Fulbright has struck gold with his quintet of soft animal toys and their shared dreamstate metamorphoses into sharp minded flesh and blood creatures Whereas Moby Dick s creator thought domesticated dogs and horses Man s cleverest mind readers Graham looks to the wild side for nature s shrewdest judges of human nature But he also rings the changes putting words into the mouths and beaks of creatures unable to think straight because of unwittingly parodying humankind And as is often the case with Graham language comes under the microscope There s no shying away from the fact that the main thrust of this novel will sit uneasily on some readers consciences An intrepid teenager has thrown down the gauntlet face up to the inconvenient truth that most of us think animals exist to do with as we see fit Last but not least let s not forget the creature after whom this novel is named You will be hard put not to warm to the furry protagonist and his quest for self realisation as he grapples with doubts fears and aspirations mirroring your own Under this heroic creature s leadership and armed with lessons learnt from their encounters with animal life across the globe the novel s five goodwill ambassadors become a young girl s mental support agents in defence of the planet s threatened fauna
